Energizer B07TXNX6S2

Energizer MAX AA Alkaline Batteries (24-Count) Instruction Manual

PRODUCT OVERVIEW

The Energizer MAX AA Alkaline Batteries are engineered to provide reliable, long-lasting power for your everyday devices. This manual offers essential information for the safe and optimal use of these batteries, ensuring you get the best performance and maintain safety.

This image displays the packaging for a 24-count pack of Energizer MAX AA Alkaline Batteries, featuring the Energizer logo and the Energizer Bunny mascot.

INSTALLATION INSTRUCTIONS

Follow these steps to correctly install Energizer MAX AA batteries into your electronic device:

1. Identify the battery compartment on your electronic device.
2. Open the battery compartment cover.
3. Observe the polarity markings (+ and -) inside the compartment.
4. Insert the Energizer MAX AA batteries, ensuring that the positive (+) and negative (-) terminals align correctly with the markings in the compartment.
5. Close the battery compartment cover securely.

Important: Always replace all batteries in a device at the same time. Do not mix new and used batteries, or batteries of different types or brands.

OPERATING GUIDELINES

Energizer MAX AA Alkaline Batteries are suitable for a wide range of devices requiring AA size batteries, providing reliable power for everyday use. Common applications include:

- Remote controls
- Flashlights
- Wireless mice and keyboards
- Children's toys
- Clocks
- Gaming controllers
- Smoke detectors

These batteries are engineered for long-lasting performance, even in demanding electronic devices.

CARE AND STORAGE

To ensure the longevity and optimal performance of your Energizer MAX AA batteries, observe the following care and storage recommendations:

- Store batteries in a cool, dry place at normal room temperature.
- Keep batteries in their original packaging until ready for use to prevent accidental short-circuiting.
- Avoid storing batteries with metal objects like coins or keys, which can cause short circuits.
- These batteries are designed to hold power for up to 12 years in storage, ensuring they are ready when you need them.

12 YEARS
IN STORAGE

This image features two Energizer MAX AA batteries, illustrating their ability to hold power for up to 12 years in storage.

SAFETY PRECAUTIONS

Please read and strictly adhere to these safety guidelines to prevent potential injury, property damage, or battery malfunction:

- **WARNING:** Do not install batteries backwards, attempt to recharge them, dispose of them in fire, or mix them with used or other battery types. Doing so may cause the batteries to explode or leak, resulting in injury.
- Replace all batteries in a device at the same time to ensure consistent performance and prevent issues.
- Keep batteries out of reach of small children. If a battery is swallowed, seek immediate medical attention.
- Do not dispose of batteries in regular household waste. Follow local regulations for proper battery recycling and disposal.
- Energizer MAX AA batteries incorporate Powerseal Technology, which helps protect your devices against damaging leaks for up to two years after a battery is fully used.

TROUBLESHOOTING

- If your device is not functioning correctly after installing new Energizer MAX AA batteries, consider the following:
- Verify that the batteries are inserted with the correct polarity (+ and -) as indicated in the device's battery compartment.
 - Ensure the battery compartment is clean and free of any debris or corrosion that might obstruct contact.
 - Check if the device itself is working by testing it with another set of known good batteries.
 - If the device still does not work, consult the device's own instruction manual for specific troubleshooting steps.

WARRANTY AND SUPPORT

Energizer MAX AA Alkaline Batteries are manufactured to high standards for reliable performance. For specific warranty information or customer support, please refer to the official Energizer website or contact Energizer customer service directly.

Energizer's Powerseal Technology offers protection against damaging leaks for up to two years after a battery is fully used, providing an additional layer of confidence for your devices.
