Chefman Digital Electric Glass Kettle

USER MANUAL

Introduction

The Chefman Digital Electric Glass Kettle is designed for optimal brewing of various beverages with accurate digital temperature control. This 1.5-liter capacity kettle can brew over 6 cups of hot water, boiling faster than traditional methods. It features 8 presets for different temperatures, a keep-warm function, and includes a removable tea infuser for loose-leaf or bagged teas. Crafted with high-quality borosilicate glass and stainless steel, it combines sleek design with practical functionality.

Important Safety Information

When using electrical appliances, basic safety precautions should always be followed. This kettle includes advanced safety features for your protection:

- **Stay-Cool Handle:** Designed to remain cool to the touch, preventing burns during handling.
- **Auto Shutoff:** The kettle automatically shuts off once water reaches a boil.

- **Boil-Dry Protection:** The kettle turns off automatically if there is little or no water inside, preventing damage from overheating.

Always ensure the kettle is unplugged before cleaning. Do not immerse the base or cord in water. Keep out of reach of children.

Setup

1. **Unpack:** Carefully remove all packaging materials from the kettle and its components.
2. **Initial Cleaning:** Before first use, clean the kettle and tea infuser as described in the 'Maintenance and Cleaning' section.
3. **Placement:** Place the power base on a stable, flat, heat-resistant surface. Ensure the power cord is not dangling where it can be pulled or tripped over.

Operating Instructions

Filling the Kettle

Open the lid and fill the glass kettle with fresh, cold water. Do not fill below the MIN (0.5 L) mark or above the MAX (1.5 L) mark. Ensure the lid is securely closed before operating.

Using Temperature Presets

The kettle features a digital touch display with 8 preset temperature options for various beverages:

- Black Tea
- Herbal Tea
- Oolong Tea
- Oil (for specific uses)
- French Press Coffee
- White Tea
- Green Tea
- Delicate (for sensitive teas)

Simply turn the knob on the power base to select your desired preset. The display will show the corresponding temperature. Press the 'Start/Stop' button to begin heating.

Using the Tea Infuser

For brewing loose-leaf or bagged teas directly in the kettle:

1. Remove the lid from the kettle.
2. Insert the removable tea infuser into the kettle.
3. Add your desired amount of loose-leaf tea or tea bags into the infuser.
4. Replace the lid, ensuring it is properly aligned and secured.
5. Fill with water and select your desired temperature preset.

Maintenance and Cleaning

Regular cleaning ensures optimal performance and longevity of your kettle:

1. **Unplug:** Always unplug the kettle from the power outlet and allow it to cool completely before cleaning.
2. **Exterior Cleaning:** Wipe down the glass and stainless steel exterior with a soft, damp cloth. Do not use abrasive cleaners or scouring pads.
3. **Kettle Interior:** The kettle has a filter to keep water/tea clean. It only needs to be rinsed with hot water. For stubborn mineral deposits, you may use a descaling solution or a mixture of vinegar and water.
4. **Tea Infuser:** The tea infuser can be washed in warm soapy water and rinsed thoroughly.
5. **Drying:** Ensure all parts are completely dry before storing or next use.

Note: The kettle is not dishwasher safe. Hand wash only.

Troubleshooting

If you encounter any issues with your kettle, please refer to the following common problems and solutions:

- **Kettle not turning on:**
 - Ensure the power base is securely plugged into a working outlet.
 - Check that the kettle is properly seated on the power base.
 - Verify that the lid is securely closed.
- **Water not heating:**
 - Confirm that a temperature preset has been selected and the 'Start/Stop' button has been pressed.
 - Check for boil-dry protection activation (kettle may have shut off due to low water). Refill and restart.
- **Mineral deposits/scale buildup:**
 - This is normal, especially in hard water areas. Refer to the 'Maintenance and Cleaning' section for descaling instructions.

If the issue persists, please contact customer support.
