## 2. SAFETY INFORMATION

**WARNING: CHOKING HAZARD - Small parts. Not for children under 3 years.**

Always handle small parts with care. Keep all components out of reach of young children. Use appropriate tools for assembly to prevent injury.

## 3. WHAT'S IN THE BOX

Your model kit package contains:

- Multiple plastic runners (sprues) with various colored parts.
- Instruction booklet.
- Sticker sheet for detailing.

- Additional accessories for articulation and display.

## 4. SETUP AND ASSEMBLY

---

Assembly of the Wargreymon (Amplified) model kit requires careful attention to detail. No glue is required as parts are designed to snap together.

### 4.1 Recommended Tools

- **Nippers/Side Cutters:** For cleanly removing parts from the runners.
- **Hobby Knife/Exacto Knife:** For trimming nubs and fine details.
- **Tweezers:** Highly recommended for precise application of small stickers.
- **Sanding Sticks/Files:** For smoothing cut surfaces (optional).

### 4.2 Assembly Steps

1. **Unpack Components:** Carefully remove all plastic runners and the instruction manual from the box. Organize parts by runner letter for easier access.
2. **Follow Instructions:** Refer to the included instruction booklet for step-by-step assembly. Each step will illustrate which parts to cut and how to connect them.
3. **Part Removal:** Use nippers to carefully cut parts from the runners. Cut slightly away from the part first, then trim closer to avoid stress marks or damage.
4. **Connecting Parts:** Align parts correctly and press firmly until they snap into place. Avoid excessive force.
5. **Sticker Application:** Apply stickers as indicated in the manual. For small or intricate stickers, use tweezers for precise placement. Start with one edge and smooth it down to prevent air bubbles.
6. **Waist Connection Tip:** Pay close attention to the orientation of the waist connector part. Ensure the tapered end is pointing upwards as per the instructions to avoid difficulty during assembly.

## 5. OPERATING AND FEATURES

The Wargreymon (Amplified) model kit is designed with impressive dynamic articulation and various gimmicks for display and posing.

- **Dynamic Articulation:** The model features multiple points of articulation allowing for a wide range of poses. Carefully move joints to avoid breakage.
- **Brave Shield:** The Brave Shield can be mounted on the model's back or arm. It includes expanding parts for different display configurations.
- **Dramon Killers:** The claws on the arms, known as Dramon Killers, have movable parts and can be combined for various attack poses.

## 6. MAINTENANCE

To ensure the longevity and appearance of your Wargreymon (Amplified) model kit, follow these maintenance guidelines:

- **Cleaning:** Dust the model regularly with a soft brush or a microfiber cloth. Avoid using harsh

chemicals or abrasive materials.

- **Handling:** Handle the model by its main body parts to avoid stressing delicate joints or accessories.
- **Storage:** Store the model away from direct sunlight, extreme temperatures, and high humidity to prevent material degradation or discoloration.

## 7. TROUBLESHOOTING

If you encounter any issues during assembly or display, consider the following:

- **Parts Not Fitting:** Ensure parts are correctly oriented and that any excess plastic (nubs) has been fully removed from the connection points. Do not force parts together.
- **Sticker Alignment:** If stickers are difficult to align, use tweezers and apply them slowly from one edge to the other. A small amount of water can sometimes help reposition water-slide decals (if applicable, check sticker type).
- **Loose Joints:** If a joint feels too loose, a thin layer of clear nail polish or hobby cement on the peg (allow to dry completely before reassembly) can increase friction.
