## 2. PRODUCT FEATURES

- **Widely Compatibility:** Suitable for most cell phones or GPS devices between 6-12mm thick, including various iPhone, Samsung Galaxy, Android smartphones, and GPS devices. Ensure phone thickness with case does not exceed 12mm.
- **Stable & Slip-free:** Features a soft silicone-textured bottom and sticky pads to protect your phone against bumping, scratching, or flying out during emergency braking, sudden stops, or sharp turns.
- **Washable & Reusable:** The high-tech adhesive bottom can be rinsed with water and dried to restore its stickiness.
- **Versatile Car Accessories:** Ingenious storage compartment for phones, data cables, keys, and spare change.

# High Grade Protection

**Soft Silicone  
Material**

**High-density  
Shockproof**

**Rigid Stability**

- 1 x Loncaster Car Phone Holder

## 5. SETUP AND INSTALLATION

Follow these simple steps for easy installation without leaving traces:

1. **Step 1: Wipe up the dashboard.** Ensure your car dashboard surface is dry and clean (free of dust).
2. **Step 2: Peel off the protective film.** Carefully remove the sticky film from the bottom of the car phone holder.
3. **Step 3: Stick & compact the car phone holder.** Place the holder on the desired flat area of your dashboard (approximately 5x5 inches) and press firmly to secure.
4. **Step 4: Fix/Take off the phone with one hand.** The holder is now ready for use.

## 6. OPERATING INSTRUCTIONS

Once installed, the Loncaster CPH01 Car Phone Holder provides a convenient and secure place for your smartphone or GPS device.

- Place your device horizontally into the holder. The silicone grips will secure it in place.
- This car mount only supports horizontal use.
- The design allows for one-handed operation for inserting and removing your phone, minimizing distraction while driving.

# One-handed Operation

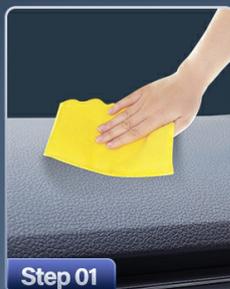

Without involved parts to make driving distracted

## 7. MAINTENANCE

To maintain the optimal stickiness and performance of your Loncaster CPH01 Car Phone Holder:

- The bottom of the car phone holder is made from high-tech adhesives. If it loses stickiness, simply rinse it with water.
- Allow it to air dry completely. Once dry, it will regain its original stickiness.
- Avoid using harsh chemicals or abrasive materials for cleaning, as this may damage the silicone.

Image: A graphic illustrating the transferable, reusable, washable, and no-residue features of the Loncaster CPH01 Car Phone Holder, emphasizing its super strong adsorption.

## 8. TROUBLESHOOTING

- **Holder not sticking to the dash:** Ensure the dashboard surface is clean, dry, and flat before application. The holder requires a flat area of approximately 5x5 inches. If the adhesive is dirty, rinse it with water and let it air dry to restore stickiness.
- **Phone wobbles or is unstable:** Ensure your phone's thickness (including case) is within the 6-12mm compatibility range. The silicone grips are designed for a snug fit.
- **Residue left on dashboard:** The high-tech adhesive is designed to be residue-free. If any residue is observed, it may be due to extreme heat exposure or improper removal. Clean the dashboard with an appropriate automotive interior cleaner.

## 9. SPECIFICATIONS

Feature	Detail
Product Dimensions	4.8 x 4.8 x 1.8 inches
Item Weight	5.9 ounces
Item Model Number	CPH01
Special Features	Adjustable, Hand Free, Non-Slip, One-Hand Operation, Scratch Resistant
