Best Choice Products 12V Land Rover Ride-On Car Instruction Manual

Model: SKY5272

INTRODUCTION

This manual provides essential instructions for the assembly, operation, and maintenance of your Best Choice Products 12V Land Rover Ride-On Car. Please read this manual thoroughly before use and retain it for future reference.

IMPORTANT SAFETY INFORMATION

WARNING: To reduce the risk of injury, adult supervision is required. Never use on roadways, near motor vehicles, on or near steep inclines or steps, swimming pools, or other bodies of water. Always ensure the rider wears shoes.

- Always supervise children during operation.
- Ensure all assembly steps are completed correctly before first use.
- Do not exceed the maximum weight capacity of 128 lbs.
- Regularly inspect the vehicle for damage or loose parts.
- Keep hands, hair, and clothing away from moving parts.

PACKAGE CONTENTS

- 12V Land Rover Ride-On Car
- 2.4GHz Remote Control
- Charger
- Assembly Guide

ASSEMBLY INSTRUCTIONS

Assembly typically takes 15-20 minutes. Refer to the included Assembly Guide for detailed, step-by-step instructions. Ensure all components are securely fastened before initial use.

OPERATING INSTRUCTIONS

Driving Modes: Manual and Remote Control

The ride-on car offers two modes of operation:

- **Manual Operation:** The child can drive the vehicle using the steering wheel and foot pedal.
- **Remote Control Operation:** An adult can use the 2.4GHz remote control to guide the vehicle. The remote features forward/reverse controls and speed selection. The remote control overrides manual input for safety.

Remote Control

Stand back and watch or take control
during playtime!

Image: An adult holding a white remote control, operating the ride-on car from a distance. The car is visible in the background.

Speed Settings

The vehicle has multiple speed settings:

- Low Speed: Approximately 1.8 mph.
- Maximum Speed: Approximately 3.7 mph.
- The remote control offers 3 speed levels, while the vehicle itself has 2.

Audio Features

The ride-on car includes an AUX input and Bluetooth connectivity for playing music.

- **AUX Player:** Connect an external device via the AUX input to play audio.
- **Bluetooth Dashboard:** Pair a Bluetooth-enabled device to stream music through the built-in speakers.

Bluetooth Dashboard

Built-in speakers with Bluetooth compatibility add a musical element to playtime

Image: Close-up of the car's dashboard showing the Bluetooth display, USB port, AUX input, and control buttons.

Additional Features

- **LED Headlights:** Functional LED headlights for realistic play.
- **Horn and Startup Sounds:** Provides an immersive driving experience.
- **2-Person Seating:** Designed to comfortably accommodate two children.
- **Toy Storage:** Space under the hood for carrying small items.
- **Built-in Handle:** A rear bottom handle assists with transportation when not in use.

2-Person Seating

Use the two-person cab setup to take playdates on the go!

Image: Two young children sitting comfortably in the white ride-on car, smiling and playing.

Toy Storage

Your child's favorite playthings can come along for the ride

Image: The white ride-on car with its hood open, revealing a storage compartment filled with toys.

Realistic Design

Functional locking doors and active brake lights make for interactive fun

Built-in Handle

A rear handle easily lets you lift and pull the truck!

BATTERY CHARGING

Use only the provided charger. The charger has a red/green light to indicate charging status. It is recommended to charge the battery once a month, even when the vehicle is not in use, to maintain battery health.

MAINTENANCE

- Regularly check all screws and fasteners to ensure they are tight.
- Clean the vehicle with a damp cloth. Do not use harsh chemicals or abrasive cleaners.
- Store the vehicle in a dry place away from direct sunlight and moisture.
- Inspect the tires for wear and tear.
- Ensure the battery terminals are clean and free of corrosion.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Vehicle does not move	Battery is low or not connected; power switch is off; motor issue.	Charge the battery; ensure all connections are secure; turn on the power switch.
Remote control not working	Remote batteries are dead; remote not paired.	Replace remote batteries; refer to assembly guide for pairing instructions.
Reduced speed or power	Low battery charge; vehicle overloaded; operating on uneven terrain.	Recharge battery; ensure weight capacity is not exceeded; operate on flat, smooth surfaces.
No sound from AUX/Bluetooth	Volume too low; device not connected/paired correctly.	Increase volume; re-connect or re-pair device.
