Note: Specific components may vary slightly depending on the exact package.

4. **Assemble:**
    - Place the main slicer body on a stable, flat surface.
    - Select the desired blade insert for your task (e.g., shredding, slicing). Carefully align the blade with the designated slot on the main body and press firmly until it clicks into place. Ensure it is securely fastened.
    - If your model includes a collection container, place it underneath the slicer body to catch cut vegetables.

Operating Instructions

Always use the food holder/safety guard when operating the slicer to protect your hands.

1. Slicing and Shredding

1. Ensure the correct blade insert is securely in place for your desired cut (e.g., thin slices, julienne strips).
2. Prepare the vegetable or fruit by washing and trimming as necessary. For longer vegetables, cut them into manageable lengths that fit the slicer's opening.
3. Place the vegetable onto the blade surface.
4. Secure the food holder/safety guard onto the vegetable, pressing down firmly.
5. With a steady, even motion, slide the food holder and vegetable down the blade, applying gentle pressure. Repeat until the vegetable is fully sliced or shredded.
6. Collect the cut pieces from the container below.

2. Chopping

For chopping functions, ensure the appropriate chopping blade grid is installed. Place smaller pieces of vegetables onto the grid and press down with the top lid or plunger (if included) to push them through the blades.

3. Peeling

The peeler attachment is designed for removing the skin from fruits and vegetables. Hold the item firmly and carefully glide the peeler blade along its surface, away from your body.

Maintenance and Cleaning

Proper cleaning and maintenance will extend the life of your RBAYSALE vegetable cutter.

- **Immediate Cleaning:** Clean the slicer immediately after each use to prevent food particles from drying and sticking to the blades and surfaces.
- **Disassembly:** Carefully disassemble all removable parts, including blade inserts and the food holder.
- **Washing:** Wash all components in warm, soapy water. Use a brush to safely remove food residue from blades. **Exercise extreme caution when cleaning blades.**

- **Dishwasher Safe:** According to product specifications, the RBAYSALE 7-In-1 Multi-function Vegetable Cutter Slicer is dishwasher safe. Place components on the top rack for best results.
- **Rinsing and Drying:** Rinse all parts thoroughly with clean water. Allow all components to air dry completely before reassembling or storing to prevent rust and bacterial growth.
- **Storage:** Store the slicer and its attachments in a safe place, preferably in its original packaging or a designated drawer, to protect the blades and prevent accidental injury.

Troubleshooting

Problem	Possible Cause	Solution
Food not slicing cleanly.	Blade is dull or clogged; improper technique; food too soft.	Ensure blade is clean and free of debris. Apply even pressure. For very soft foods, chill them slightly before slicing.
Difficulty pushing food through.	Food is too large or hard; blade is not properly installed.	Cut food into smaller, manageable pieces. Verify the blade is securely locked in place. Do not force food through.
Slicer moves during use.	Unstable surface; slicer not placed firmly.	Ensure the slicer is on a clean, dry, flat, and stable surface. Apply gentle, controlled pressure.
