OMNIHIL AC Power Cord Instruction Manual

For KEF X300A Wireless Speaker

NTRODUCTION

This manual provides essential instructions for the safe and effective use of your OMNIHIL 8-foot AC Power Cord. This power cord is designed for compatibility with the KEF X300A Wireless Speaker, providing reliable power delivery. Please read this manual thoroughly before use.

SAFETY INFORMATION

- Ensure the power cord is fully inserted into both the device and the power outlet.
- Do not use the power cord if it is damaged, frayed, or has exposed wires.
- Avoid placing heavy objects on the cord or running it under carpets, which can cause damage.
- · Keep the power cord away from water and excessive heat.
- This product is UL Listed, indicating it meets specific safety standards.

SETUP

Follow these steps to connect your OMNIHIL AC Power Cord to your KEF X300A Wireless Speaker:

- 1. **Identify Ports:** Locate the power input port on your KEF X300A Wireless Speaker. This is typically a three-prong (IEC C13) receptacle.
- 2. **Connect to Speaker:** Take the female end (IEC C13 connector) of the OMNIHIL AC Power Cord and firmly insert it into the power input port of your KEF X300A speaker.
- 3. Connect to Power Outlet: Take the male end (Type B, NEMA 5-15P plug) of the power cord and insert it into a standard wall power outlet.
- 4. Verify Connection: Ensure both ends of the power cord are securely connected.

OPERATING INSTRUCTIONS

The OMNIHIL AC Power Cord is a passive component designed to supply electrical power. Once properly connected as described in the Setup section:

- The KEF X300A Wireless Speaker should receive power from the wall outlet.
- Refer to your KEF X300A Wireless Speaker's own instruction manual for specific power-on procedures and operational details.

MAINTENANCE

Proper care and maintenance will extend the life of your power cord:

- **Storage:** When not in use, coil the cord loosely. Avoid tight coiling or sharp bends that can damage internal wires.
- **Cleaning:** Disconnect the cord from all power sources before cleaning. Wipe the cord with a dry, soft cloth. Do not use liquid cleaners or abrasive materials.
- Inspection: Periodically inspect the cord for any signs of wear, cuts, or damage to the insulation or

connectors.

TROUBLESHOOTING

If your KEF X300A Wireless Speaker is not receiving power after connecting the OMNIHIL AC Power Cord, consider the following:

• No Power:

- Ensure both ends of the power cord are fully and securely plugged in.
- Test the wall outlet with another device to confirm it is functional.
- Inspect the power cord for any visible damage. If damaged, discontinue use and replace.

• Intermittent Power:

- Check for loose connections at both the speaker and the wall outlet.
- $\circ\,$ Ensure the cord is not being bent or stressed at any point.
