## 5. OPERATING INSTRUCTIONS

To brew coffee using your permanent filter:

- 4. After Brewing:** Once brewing is complete and the coffee has cooled slightly, carefully remove the filter from the coffee maker using its handle. Discard the used coffee grounds.

## 6. MAINTENANCE AND CLEANING

Regular cleaning of your permanent filter is essential for optimal performance and taste.

- Daily Cleaning:** After each use, rinse the filter under running water to remove all coffee grounds. Use a soft brush if necessary to dislodge any stubborn particles from the mesh.
- Deep Cleaning:** Periodically, or if you notice a buildup of coffee oils or a change in coffee taste, wash the filter with warm, soapy water. A mild dish soap is suitable. Ensure to rinse thoroughly to remove all soap residue.
- Drying:** Allow the filter to air dry completely before storing or reusing.
- Dishwasher Safety:** Consult your coffee maker's manual or the filter's packaging for specific dishwasher safety information. Generally, hand washing is recommended to prolong the life of the mesh.
