Fydun 93580-3D000

User Manual for Fydun Single Power Master Window Control Switch Button

Model: 93580-3D000

1. Introduction

This manual provides comprehensive information for the Fydun Single Power Master Window Control Switch Button, designed as a direct replacement part for specific vehicle models. This switch is engineered to restore proper functionality to your vehicle's power windows.
Key features include:

- **Premium Quality:** Constructed from durable plastic material for a long-lasting replacement.
- **Exact Match:** Manufactured to original factory specifications, ensuring a precise fit and function.
- **Robust Construction:** Features a sturdy housing resistant to cracking for extended durability.
- **Easy Installation:** Designed for direct replacement, facilitating a hassle-free installation process.

2. Package Contents

Upon opening the package, please verify that all components are present and undamaged:

- 1 x Power Master Window Switch (Part Number: 93580-3D000)

3. Vehicle Compatibility

This Power Master Window Switch is compatible with the following vehicle models and years. Please confirm your vehicle's make, model, and year match the list below to ensure proper fitment.

- For Elantra: 2001-2006
- For Sonata: 2002-2005
- For Kia Spectra: 2002-2006
- For Kia Rio: 2003-2006
- For Kia Optima: 2001-2005
- For Kia Sedona: 2002-2005

4. Setup and Installation

The Fydun Power Master Window Switch is designed for direct replacement of your vehicle's original switch. While installation is generally straightforward, professional installation is recommended if you are unfamiliar with automotive electrical systems or interior component removal.

Figure 4.1: Front view of the Fydun Power Master Window Control Switch. This image displays the primary button with the window up/down icon, indicating its function for controlling a single power window.

Figure 4.2: Rear view of the switch, highlighting the multi-pin electrical connector. This connector is crucial for establishing the electrical connection to the vehicle's wiring harness.

Figure 4.3: The switch shown in context with a vehicle's interior dashboard, illustrating where it would typically be installed. This provides a visual reference for its placement within the vehicle.

Installation Steps (General Guidance):

1. **Preparation:** Ensure the vehicle's ignition is off and the battery is disconnected to prevent electrical shorts.
2. **Access:** Carefully remove the door panel or trim piece that houses the existing window switch. Refer to your vehicle's service manual for specific instructions on trim removal.
3. **Disconnect Old Switch:** Disconnect the electrical connector from the old window switch and unclip it from its mounting location.
4. **Install New Switch:** Connect the electrical connector to the new Fydun switch (refer to Figure 4.2). Secure the new switch into its mounting location.
5. **Test Functionality:** Reconnect the vehicle's battery. Turn the ignition to the 'ON' position (do not start the engine) and test the operation of the power window using the newly installed switch. Ensure the window moves smoothly up and down.
6. **Reassemble:** Once confirmed operational, carefully reattach the door panel or trim piece.

Note: *Always handle electrical components with care. If you encounter any difficulties or are unsure about any step, consult a qualified automotive technician.*

5. Operation

The Fydun Single Power Master Window Control Switch operates identically to your vehicle's original equipment. To operate the power window:

- **To Lower the Window:** Gently press down on the switch button. Release the button when the window reaches the desired position.

- **To Raise the Window:** Gently pull up on the switch button. Release the button when the window reaches the desired position.

Caution: *Ensure no obstructions are in the window's path when operating to prevent damage or injury.*

6. Maintenance

The Fydun Power Master Window Control Switch is designed for long-term durability and requires minimal maintenance. Follow these general guidelines to ensure its longevity:

- **Cleaning:** Wipe the switch surface with a soft, damp cloth to remove dust and grime. Avoid using harsh chemical cleaners, abrasives, or solvents, as these can damage the plastic finish.
- **Avoid Liquid Exposure:** Prevent liquids from spilling onto or entering the switch mechanism, as this can cause electrical malfunction.
- **Regular Inspection:** Periodically check the switch for any signs of physical damage or loose connections.

7. Troubleshooting

If you experience issues with your Fydun Power Master Window Control Switch, consider the following common troubleshooting steps:

- **Window Does Not Operate:**
  - Check the vehicle's fuse box for a blown fuse related to the power windows. Replace if necessary.
  - Ensure the electrical connector to the switch is securely attached.
  - Verify that the window motor is functioning. If other windows work but this one does not, the issue might be with the motor or wiring, not the switch.
- **Window Operates Intermittently:**
  - This could indicate a loose connection. Re-check the electrical connector.
  - Inspect the wiring for any signs of damage or corrosion.
- **Window Moves Slowly or Jerkily:**
  - This is typically not a switch issue but rather a problem with the window regulator or motor. Lubrication of window tracks or professional inspection may be required.

If these steps do not resolve the issue, it is recommended to consult a certified automotive technician for diagnosis and repair.

8. Specifications

Attribute	Detail
Manufacturer Part Number	93580-3D000
Brand	Fydun
Condition	Brand New
Material	Plastic

Attribute	Detail
Color	Black
Product Dimensions (L x W x H)	3.94 x 3.94 x 3.94 inches (6.7 x 2.6 x 5.7 cm)
Item Weight	1.27 ounces (approx. 39g)
Operation Mode	Automatic
Contact Type	Normally Open
Connector Type	Screw Terminals
Circuit Type	1-way
Mounting Type	Window Mount
Actuator Type	Push Button
ASIN	B07V9NRSQH
Country of Origin	China

9. Warranty and Support

For information regarding product warranty, returns, or technical support, please refer to the purchase documentation or contact the seller directly through the platform where the product was purchased. Fydun is committed to providing quality products and customer satisfaction.
For general inquiries or further assistance, you may also visit the Fydun brand store or website if available, or contact their customer service department.
