## 2. SAFETY INFORMATION

### Important Safety Instructions:

- Ensure a Ground Fault Circuit Interrupter (GFCI) protected electrical outlet is available near the toilet for power.
- Do not immerse the product in water or other liquids.
- Unplug the unit before cleaning or servicing.
- This product is designed for indoor use only.
- Do not allow children to operate the product without supervision.
- Refer to local plumbing and electrical codes for installation requirements.

## 3. PACKAGE CONTENTS

Verify that all components are present before beginning installation:

- Kohler PureWash E545 Bidet Toilet Seat
- Mounting Hardware
- Water Supply Hose
- T-Valve Connector

- Instruction Manual (this document)

## 4. INSTALLATION

### 4.1 Pre-Installation Checks

- Ensure your toilet is an elongated model.
- Confirm the availability of a 120V AC, 60Hz, GFCI-protected electrical outlet within reach of the bidet seat's power cord.
- Turn off the water supply to the toilet before starting.

Figure 4.1: The bidet seat is designed for straightforward installation, requiring a GFCI electrical outlet.

### 4.2 Step-by-Step Installation

1. **Remove Existing Seat:** Lift the hinge covers and unscrew the mounting bolts to remove your current toilet seat.
2. **Install Mounting Plate:** Place the bidet seat's mounting plate over the toilet bowl holes and secure it with the provided bolts and washers. Do not overtighten.
3. **Attach Bidet Seat:** Slide the bidet seat onto the mounting plate until it clicks into place.
4. **Connect Water Supply:**

- Turn off the toilet's water supply valve.
- Flush the toilet to drain the tank.
- Disconnect the existing water supply hose from the toilet tank.
- Install the T-valve connector to the toilet tank's fill valve.
- Connect the toilet's original water supply hose to the bottom of the T-valve.
- Connect the bidet seat's water supply hose from the T-valve to the bidet seat's water inlet.
- Slowly turn on the water supply valve and check for leaks.

5. **Connect Power:** Plug the bidet seat's power cord into the GFCI-protected electrical outlet.

## 5. OPERATING INSTRUCTIONS

The Kohler PureWash E545 features a side-mounted control panel for easy access and operation.

Figure 5.1: Side-mounted control panel for adjusting settings.

## 5.1 Basic Functions

- **Stop:** Press the **STOP** button to cease all cleansing functions.
- **Front Wash:** Activates the front cleansing spray.
- **Rear Wash:** Activates the rear cleansing spray.

## 5.2 Adjustable Settings

- **Water Temperature:** Adjust the water temperature to your preference using the dedicated controls. The hybrid heater provides continuous warm water.
- **Water Pressure:** Customize the water spray intensity.
- **Wand Position:** Adjust the position of the cleansing wand for optimal coverage.
- **Pulsate/Oscillate:** Select pulsate for a massaging spray or oscillate for a wider cleansing area.

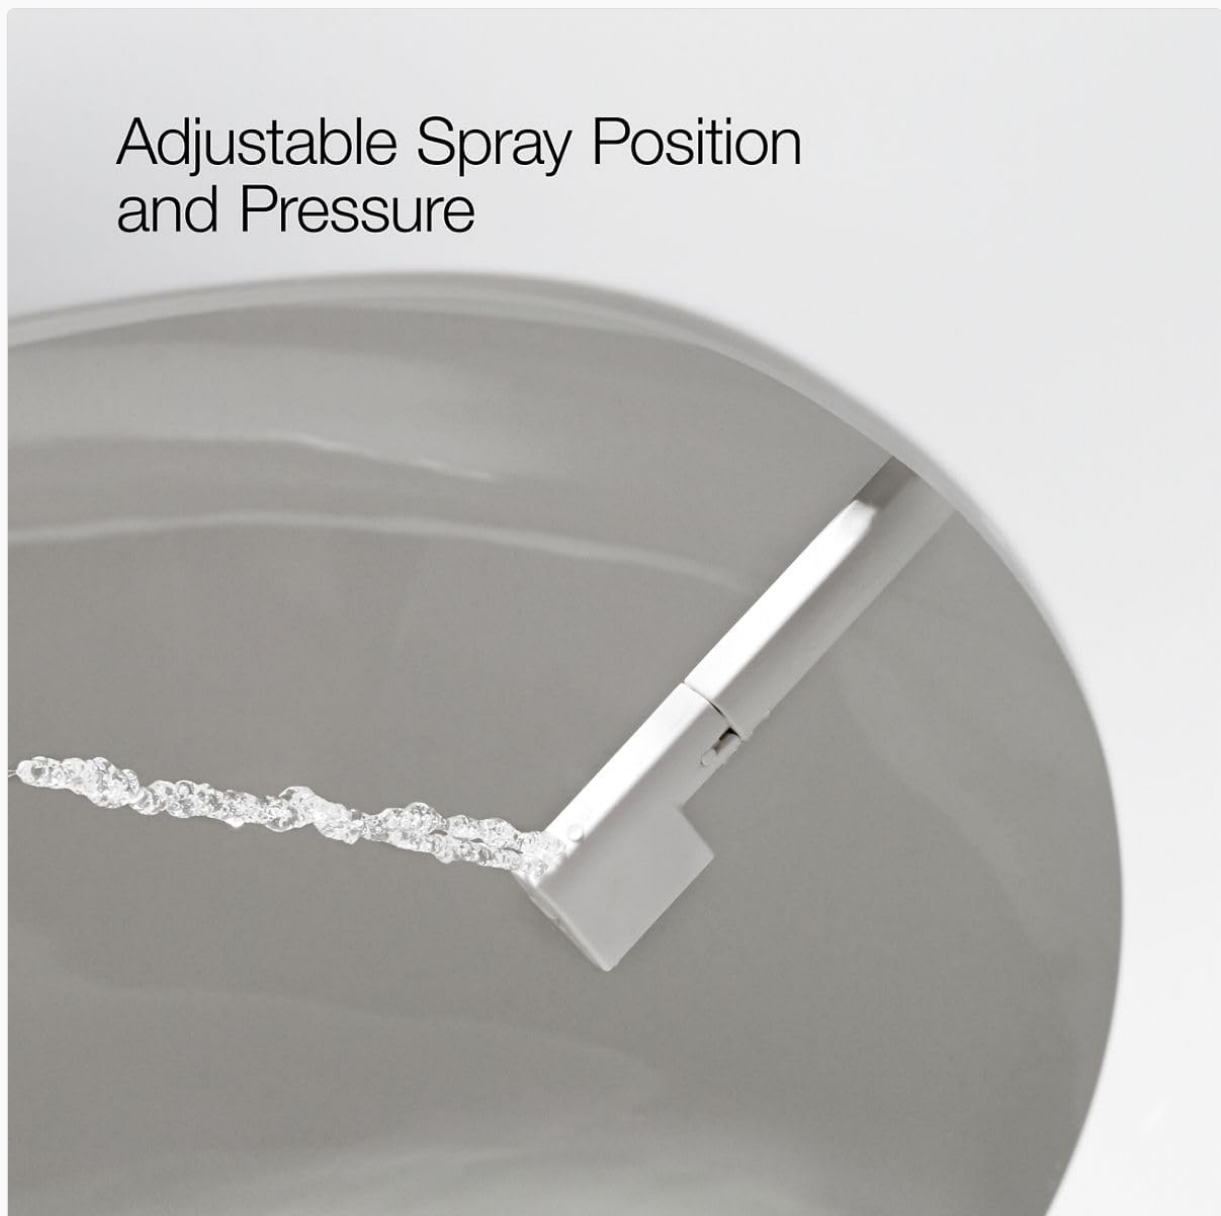

Figure 5.2: The adjustable wand provides personalized cleansing with control over spray position and pressure.

## 5.3 Additional Features

- **Heated Seat:** Enjoy a comfortable, warm seat with adjustable temperature settings.
- **Warm Air Dryer:** After cleansing, use the warm air dryer for gentle drying.
- **Nightlight:** An integrated LED nightlight illuminates the toilet bowl, providing visibility in the dark.

- **Deodorizer:** The built-in deodorizer helps maintain freshness in the bathroom.

## 6. MAINTENANCE

### 6.1 Cleaning the Bidet Seat

- **Quick-Release Functionality:** The seat features Quick-Release™ hinges, allowing it to be easily removed from the toilet for thorough cleaning. Simply press the release buttons and lift the seat.
- **General Cleaning:** Use a mild, non-abrasive cleaner and a soft cloth. Do not use harsh chemicals or abrasive pads, as these can damage the finish.

Figure 6.1: The bidet seat features a quiet-close lid and quick-release functionality for easy cleaning.

### 6.2 Self-Cleaning Wand

The stainless steel wand is equipped with a self-cleaning function that uses UV light for automatic sanitization, ensuring hygiene before and after each use.

Figure 6.2: The self-cleaning wand ensures optimal hygiene.

## 7. TROUBLESHOOTING

| Problem                       | Possible Cause   | Solution   |
|-------------------------------|--|--|
| No power to the unit.         | Power cord unplugged, GFCI tripped, no power at outlet.            | Ensure power cord is securely plugged in. Reset GFCI outlet. Check household circuit breaker.                |
| No water spray or weak spray. | Water supply valve closed, T-valve not fully open, clogged nozzle. | Open water supply valve fully. Ensure T-valve is open. Clean the nozzle if necessary (refer to maintenance). |
| Water leaks from connections. | Loose connections, worn washers.                                   | Tighten connections by hand, then a quarter turn with a wrench. Replace washers if damaged.                  |
| Heated seat not warming.      | Temperature setting too low, power issue.                          | Adjust seat temperature setting. Verify power supply.  |

## 8. SPECIFICATIONS
