Fette Filter UH72460, UH72465, UH72460CA, UH72460RM

Fette Filter Vacuum Filter Set Instruction Manual

Compatible with Hoover Upright Vacuum Models UH72460, UH72465, UH72460CA, UH72460RM

1. INTRODUCTION

This manual provides essential information for the proper installation and maintenance of your Fette Filter Vacuum Filter Set. Designed for specific Hoover Upright Vacuum models, these filters are crucial for maintaining your vacuum's performance and ensuring clean air in your home.

This image displays the Fette Filter Vacuum Filter Set, showing the product packaging and the included HEPA and Primary filters.

2. COMPATIBLE MODELS

The Fette Filter Vacuum Filter Set is specifically designed for the following Hoover Upright Vacuum models:

- Hoover Upright Vacuum Model UH72460
- Hoover Upright Vacuum Model UH72465
- Hoover Upright Vacuum Model UH72460CA
- Hoover Upright Vacuum Model UH72460RM

This set includes 2 HEPA Filters (part number 440005516) and 2 Primary Filters (part number 440005515).

Compatible with :

Compatible with Hoover Air Lite UH72460 440005515 + 440005516

The HEPA and Primary filters are shown, confirming their compatibility with specified Hoover Air Lite models.

3. PACKAGE CONTENTS

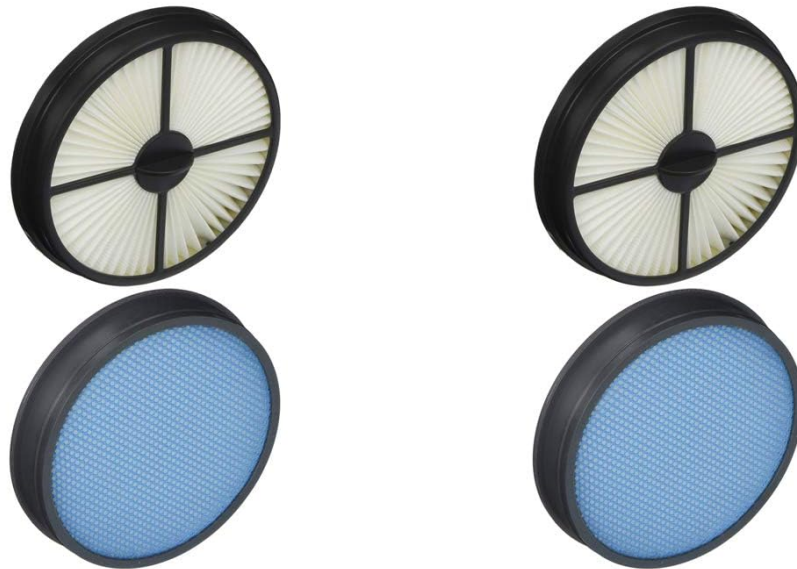

Your Fette Filter Vacuum Filter Set includes:

- 2 x HEPA Filters (Part # 440005516)
- 2 x Primary Filters (Part # 440005515)

VALUE PACK

2 PACK

HYPOALLERGENIC

Vacuum dirt and debris while keeping your allergies to pollen, pet dander, dust mites, tp and mold spores in check. This Fette filter is designed to trap particles as small as 0.3 microns and prevents the trapped particles from recirculating into the air via the vacuum's exhaust.

- ✓ WASHABLE & REUSABLE
- ✓ SIMPLE AND EASY TO INSTALL
- ✓ EXACT FIT

4. INSTALLATION INSTRUCTIONS

Follow these steps to replace the filters in your Hoover Upright Vacuum. Always ensure the vacuum is unplugged before performing any maintenance.

4.1 General Filter Replacement Process

1. **Power Off:** Unplug your Hoover vacuum cleaner from the power outlet.
2. **Locate Filter Compartment:** Refer to your vacuum's user manual to locate the filter compartments for both the HEPA and Primary filters. These are typically found near the dust bin or motor housing.
3. **Remove Old Filters:** Carefully remove the used HEPA and Primary filters. Note their orientation for correct installation of the new filters.
4. **Insert New Filters:** Place the new Fette Filter HEPA (440005516) and Primary (440005515) filters into their respective compartments. Ensure they are seated correctly and securely.

5. **Close Compartment:** Securely close the filter compartment cover.
6. **Restore Power:** Plug your vacuum cleaner back into the power outlet.

EASY INSTALLATION

Easy to install so you can get back to cleaning as soon as possible!
Simply remove your old filter and put this brand new one in it's place!

This image illustrates the simple process of installing a Fette Filter, showing a hand holding the filter.

4.2 Visual Installation Guide

For a visual demonstration of filter replacement, please refer to the videos below:

This video demonstrates the replacement process for a primary filter compatible with Hoover vacuum cleaners, highlighting key steps for proper installation.

This video provides a visual guide on how to replace vacuum filters in a Hoover Upright Vacuum Cleaner, ensuring correct fit and function.

5. MAINTENANCE

Regular maintenance of your filters ensures optimal performance and extends the lifespan of your vacuum cleaner.

5.1 Cleaning the Filters

Both the HEPA and Primary filters in this set are washable and reusable. Follow these guidelines for cleaning:

- **Frequency:** It is recommended to clean the filters every 1-3 months, depending on usage and household dust

levels.

- **Washing:** Rinse the filters under cool, running water until the water runs clear. Do not use detergents or hot water.
- **Drying:** Allow the filters to air dry completely for at least 24 hours before reinstallation. Ensure they are thoroughly dry to prevent mold growth and damage to the vacuum. Do not use a dryer or other heating elements.

HIGH QUALITY FILTER

The replacement part is made from high quality washable pleated filter paper and well-tested by the manufacturer. Washable and reusable, it is great for cleanup of everyday dirt like sawdust, wood chips, job site debris and car or truck dirt.

This image provides a close-up view of the high-quality pleated and foam filters included in the set.

5.2 Replacement Schedule

While washable, filters have a finite lifespan. It is recommended to replace your Fette Filter Vacuum Filter Set every 6-12 months to maintain peak filtration efficiency and vacuum performance.

Our Vacuum Filters Remove:

Fette Filter's Premium Vacuum Filters remove small particles such as food, hair, dirt, dust and pet dander.

Our filters can greatly improve indoor air quality by reducing airborne particles and allergens. This will produce cleaner air for your family to breathe, and a clean home.

6. SPECIFICATIONS

| Feature | Detail |
|----------------------------|---|
| Brand | Fette Filter |
| Compatible Devices | Hoover Upright Vacuum Models UH72460, UH72465, UH72460CA, UH72460RM |
| HEPA Filter Part Number | 440005516 |
| Primary Filter Part Number | 440005515 |
| Material | HEPA |
| Reusability | Reusable (Washable) |

| Feature | Detail |
|--------------------|--|
| Item Weight | 8.8 ounces (approximate for the set) |
| Product Dimensions | 5"L x 5"W x 1.6"H (approximate for individual filters) |

7. TROUBLESHOOTING

If you experience issues after replacing your filters, consider the following common solutions:

- **Reduced Suction:** Ensure both the HEPA and Primary filters are correctly installed and fully dry. A wet filter can restrict airflow. Check for any blockages in the vacuum hose or brush roll.
- **Unusual Odor:** If a new odor is present, ensure filters were completely dry before reinstallation. If the odor persists, the filters may need another thorough cleaning or replacement.
- **Filter Not Fitting:** Double-check that you have the correct filter set for your specific Hoover model. Refer to the compatibility section. Ensure no debris is obstructing the filter compartment.

8. WARRANTY AND SUPPORT

This Fette Filter product is a compatible replacement part and is not manufactured by Hoover. The Hoover brand names and logos are registered trademarks of their respective owners. Any use of the Hoover brand name or model designation for this product is made solely for purposes of demonstrating compatibility.
