

Artlii HD Videoprojecteur

Artlii Q Mini Portable Projector User Manual

Model: HD Videoprojecteur

Brand: Artlii

1. INTRODUCTION

This manual provides essential information for the safe and efficient operation of your Artlii Q Mini Portable Projector. Please read this manual thoroughly before using the product and retain it for future reference.

2. SAFETY INFORMATION

Observe the following safety precautions to prevent damage to the projector and ensure user safety:

- Do not block ventilation openings. Ensure adequate airflow around the projector to prevent overheating.
- Avoid direct exposure to the projector lens light. The bright light can cause eye strain.
- Do not place the projector in unstable locations. Ensure it is on a flat, stable surface.
- Keep the projector away from water or other liquids.
- Use only the power adapter supplied with the projector.
- Do not attempt to open or repair the projector yourself. Refer all servicing to qualified personnel.

3. PRODUCT OVERVIEW

The Artlii Q Mini Portable Projector is a compact and versatile device designed for various projection needs. It features a manual focus system, automatic sleep function, and supports a wide range of input sources.

Figure 3.4: Demonstrating the projector's portability, easily fitting into a backpack.

4. SETUP

4.1 Powering On/Off

1. Connect the power adapter to the projector and a power outlet.
2. Press the power button located on the top panel of the projector to turn it on.
3. To turn off, press the power button again. The projector also features an automatic sleep function.

4.2 Adjusting Focus

The projector features a manual focus adjustment to ensure a clear image.

1. Turn on the projector and display an image.
2. Locate the focus knob near the lens.
3. Rotate the focus knob clockwise or counter-clockwise until the projected image appears sharp and clear.

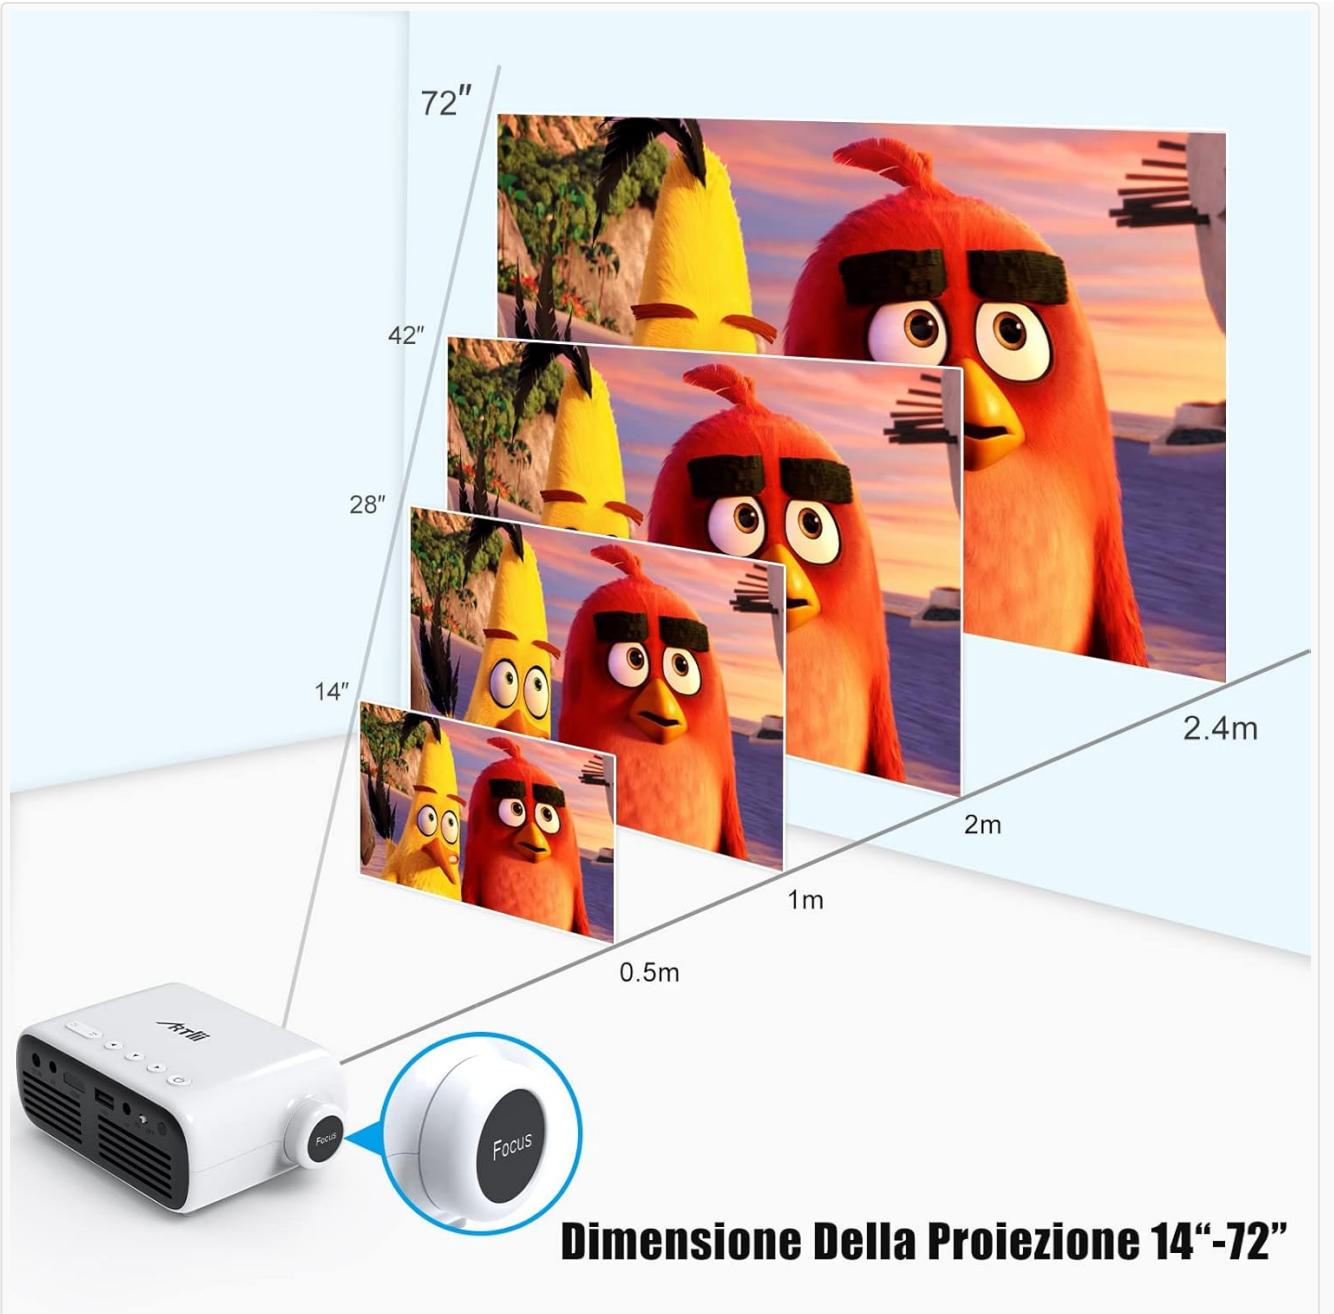

Figure 4.1: Diagram showing the focus knob and various projection sizes from 14 to 72 inches at different distances.

4.3 Projection Distance and Size

The projector can display images from 14 to 72 inches, depending on the distance from the projection surface. Refer to Figure 4.1 for approximate distances.

5. OPERATING INSTRUCTIONS

5.1 Navigating the Menu

Use the directional buttons (up, down, left, right) and the 'OK' button on the projector's top panel or remote control to navigate through the on-screen menu. The 'Return' button allows you to go back to the previous menu.

5.2 Source Selection

After powering on, select your desired input source (e.g., HDMI, USB, AV) from the main menu. Ensure your external device is connected before selecting the source.

6. CONNECTIVITY

The Artlii Q Mini Portable Projector offers a variety of connection options for different devices.

6.1 Compatible Devices

The projector is compatible with a wide range of devices, including:

- Laptops/PCs
- Gaming Consoles (e.g., Nintendo Switch, PS5)
- USB Flash Drives
- TV Sticks (e.g., Fire TV Stick)
- Blu-ray Players
- Cameras
- TF Cards (MicroSD)
- U Disks
- Chromecast
- Home Cinema Systems

Connect to Your Phone ,Tablets

Need a wifi display dongle(Not included)

Figure 6.2: Further compatible devices and an illustration of connecting phones/tablets via a separate WiFi display dongle (not included).

6.2 Connecting to Phones/Tablets

To connect your phone or tablet, a separate WiFi display dongle (not included) is required. Connect the dongle to the projector's HDMI port and follow the dongle's instructions for screen mirroring.

7. MAINTENANCE

7.1 Cleaning the Lens

Use a soft, lint-free cloth specifically designed for optical lenses to gently wipe the projector lens. Avoid using abrasive cleaners or excessive force.

7.2 Cleaning the Projector Body

Wipe the exterior of the projector with a soft, dry cloth. Do not use liquid or aerosol cleaners.

7.3 Storage

When not in use for extended periods, store the projector in a cool, dry place, away from direct sunlight and extreme temperatures. Use the original packaging or a protective case to prevent dust accumulation and damage.

8. TROUBLESHOOTING

If you encounter issues with your projector, refer to the following common solutions:

| Problem | Possible Cause | Solution |
|---------------------|---|--|
| No image displayed | Power not connected, incorrect input source, loose cable connection | Check power cable, select correct input source, ensure all cables are securely connected. |
| Image is blurry | Focus not adjusted, projector too close/far | Adjust the manual focus knob. Adjust projection distance. |
| No sound | Volume too low, external device volume low, audio cable not connected | Increase projector volume. Increase external device volume. Ensure audio cables are connected correctly. |
| Projector overheats | Blocked ventilation, prolonged use | Ensure ventilation openings are clear. Allow the projector to cool down. |

9. SPECIFICATIONS

| Feature | Specification |
