OPERATING INSTRUCTIONS

This die-cast car operates manually. It is designed for imaginative play and display.

- **Manual Movement:** The wheels are free-rolling, allowing the car to be pushed or rolled across smooth surfaces.
- **Display:** The car can be displayed on shelves, desks, or in display cases.
- **Compatibility:** This vehicle is compatible with most Hot Wheels tracks and playsets, though performance may vary depending on track design.

MAINTENANCE

Proper care will ensure the longevity and appearance of your die-cast car.

- **Cleaning:** To clean the car, gently wipe it with a soft, dry cloth. For stubborn dirt, a slightly damp cloth can be used, followed by immediate drying. Avoid abrasive cleaners or harsh chemicals.
- **Storage:** Store the car in a cool, dry place away from direct sunlight and extreme temperatures to prevent paint fading or material degradation. Original packaging can be used for storage.

TROUBLESHOOTING

Due to its simple design, significant troubleshooting is rarely required for this die-cast car.

- **Wheels Not Rolling Smoothly:** Check for any debris caught in the axles. Gently remove any obstructions. Ensure the wheels are securely attached.
- **Minor Scratches/Paint Chips:** These are typically cosmetic and do not affect functionality. Touch-up paint is generally not recommended as it may reduce collectible value.
