# Energieeks Motorized WiFi IP Camera User Manual

Model: EG-CIP001

## 1. INTRODUCTION

Thank you for choosing the Energieeks Motorized WiFi IP Camera. This manual provides detailed instructions for setting up, operating, and maintaining your camera. This device allows you to monitor your home, business, or loved ones with live viewing, image recording, and two-way audio communication. It features motion detection alerts and 360° motorized control to cover an entire room.

Please read this manual carefully before use and retain it for future reference.

## 2. PACKAGE CONTENTS

Ensure all items are present in the package:

- 1x Energieeks Motorized WiFi IP Camera
- 1x Power Adapter (DC 5V 1.6A, Micro USB)
- 1x Mounting Kit (screws, wall plugs)
- 1x User Manual (this document)

### 3. PRODUCT OVERVIEW

The Energieeks IP Camera is designed for versatile indoor surveillance. Familiarize yourself with its main components:

Image: A front view of the Energeeks Motorized WiFi IP Camera, highlighting its lens, infrared sensors, and sleek white design.

- **Camera Lens:** Captures video footage in 720p HD resolution.
- **Infrared LEDs:** Provide night vision capabilities up to 10 meters.
- **Microphone:** For audio input during two-way communication.
- **Speaker:** For audio output during two-way communication.
- **Micro USB Port:** For power input (DC 5V 1.6A).
- **SD Card Slot:** Supports local storage up to 64GB (card not included).
- **Reset Button:** Used for factory reset or pairing mode.

## 4. SETUP GUIDE

### 4.1. Powering On

1. Connect the provided micro USB cable to the camera's power port.
2. Plug the power adapter into a standard electrical outlet.
3. The camera will power on and initiate its self-test sequence.

### 4.2. App Installation

Download the Energeeks 3.0 application on your smartphone:

- Search for "Energeeks 3.0" in the Apple App Store (for iOS devices) or Google Play Store (for Android devices).
- Install the application and create an account if you are a new user.

Image: A smartphone displaying the Energeeks app interface, showing a live feed from the camera and control options, with the camera positioned in a room.

### **4.3. Wi-Fi Connection**

The camera supports 2.4 GHz Wi-Fi networks only. Ensure your smartphone is connected to a 2.4 GHz network during the setup process.

1. Open the Energeeks 3.0 app and tap "Add Device" or the "+" icon.
2. Select your camera model from the list of available devices.
3. Follow the on-screen instructions to connect the camera to your Wi-Fi network. This typically involves scanning a QR code generated by the app with the camera's lens or entering your Wi-Fi credentials.
4. Once connected, the camera's status indicator will change, and you will see the live feed in the app.

#### 4.4. Mounting the Camera

The camera can be wall-mounted or placed on a flat surface.

1. **For Wall Mounting:** Use the provided mounting kit. Mark the desired drilling points on the wall, drill holes, insert wall plugs, and secure the mounting bracket with screws. Attach the camera to the bracket.
2. **For Surface Placement:** Place the camera on a stable, flat surface with a clear view of the area you wish to monitor.

## AUDIO BIDIRECCIONAL

incorpora un micrófono y un altavoz de alta calidad, que ofrecen una calidad de llamada clara y fluida para la comunicación y la escucha remota

## VISION NOCTURNA \*ALARMA DE DETECCIÓN DE MOVIMIENTO

## 5. OPERATING INSTRUCTIONS

### 5.1. Live View

Open the Energeeks 3.0 app and select your camera from the device list to access the live video feed.

### 5.2. Pan and Tilt Control

From the live view screen in the app, use the directional controls to remotely rotate the camera lens:

- **Horizontal Rotation:** Up to 355 degrees.
- **Vertical Rotation:** Up to 90 degrees.

### 5.3. Two-Way Audio

The camera features a built-in microphone and speaker for two-way communication.

1. In the live view, tap the microphone icon to speak through the camera's speaker.
2. Tap the speaker icon to listen to audio from the camera's surroundings.

### 5.4. Motion Detection and Notifications

The camera can detect motion and send alerts to your smartphone.

1. Navigate to the camera settings in the Energeeks 3.0 app.

2. Enable "Motion Detection" and configure sensitivity levels as needed.
3. Ensure "Push Notifications" are enabled in both the app and your phone's system settings to receive alerts.

### 5.5. Night Vision

The camera automatically switches to night vision mode in low-light conditions, providing clear black-and-white footage up to 10 meters.

Image: A split image showing a room in normal lighting and the same room in night vision, demonstrating the camera's ability to capture clear images in darkness.

## 5.6. Recording and Storage

The camera supports two recording methods:

- **Micro SD Card:** Insert a micro SD card (up to 64GB, Class 10 recommended) into the camera's slot for local storage of recordings. Configure recording settings (e.g., continuous, motion-triggered) in the app.
- **Cloud Storage:** Energeeks may offer optional cloud storage services for your recordings. Refer to the Energeeks 3.0 app for subscription details and setup instructions.

## 6. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the camera lens and body. Do not use liquid cleaners or abrasive materials.
- **Firmware Updates:** Regularly check the Energeeks 3.0 app for available firmware updates to ensure optimal performance and security.
- **SD Card Management:** If using an SD card, periodically review and back up important footage. Format the SD card through the app if performance issues arise.
- **Placement:** Avoid placing the camera in direct sunlight, near heat sources, or in areas with high humidity.

## 7. TROUBLESHOOTING

Problem	Solution
Camera fails to power on.	Ensure the power adapter is securely connected to both the camera and a working electrical outlet. Try a different outlet.
Cannot connect to Wi-Fi.	<ul style="list-style-type: none"><li>• Verify your Wi-Fi network is 2.4 GHz. The camera does not support 5 GHz networks.</li><li>• Ensure your Wi-Fi password is correct.</li><li>• Move the camera closer to your Wi-Fi router.</li><li>• Reset the camera and try the connection process again.</li></ul>
No live video feed.	Check your internet connection. Restart the camera and the Energeeks 3.0 app.
Motion detection alerts are not received.	<ul style="list-style-type: none"><li>• Ensure motion detection is enabled in the app settings.</li><li>• Check your phone's notification settings for the Energeeks 3.0 app.</li><li>• Verify the camera has a stable internet connection.</li></ul>
Poor night vision quality.	Ensure the camera lens is clean and there are no obstructions blocking the infrared LEDs.

## 8. SPECIFICATIONS

Feature	Detail
Model Number	EG-CIP001
Video Resolution	720p HD
Connectivity	Wi-Fi (2.4 GHz only)
Power Input	DC 5V 1.6A (Micro USB)
Power Consumption	6 Watts
Pan/Tilt Angle	Horizontal: 355°, Vertical: 90°
Night Vision Range	Up to 10 meters
Storage	Micro SD card (up to 64GB), Cloud Storage (optional)
Audio	Two-way audio (built-in microphone and speaker)
Motion Detection	Supported, with push notifications
Operating Environment	Indoor use only
Dimensions (L x W x H)	18.7 x 44 x 28.5 cm
Weight	300 grams

## 9. WARRANTY AND SUPPORT

Energeeks products are designed for reliability and performance. For specific warranty information, please refer to the warranty card included with your purchase or visit the official Energeeks website.

For technical support, troubleshooting assistance, or further inquiries, please contact Energeeks customer service through the contact information provided on their official website or within the Energeeks 3.0 application.
