Bayco SL-800 Retractable Metal Cord Reel

MODEL: SL-800 - 30 FOOT, 3 OUTLETS

Introduction

Thank you for choosing the Bayco SL-800 Retractable Metal Cord Reel. This manual provides essential information for the safe and efficient use, installation, and maintenance of your new cord reel. Please read all instructions carefully before use and retain this manual for future reference.

Safety Information

Always follow basic safety precautions when using electrical products to reduce the risk of fire, electric shock, and personal injury.

- **Indoor Use Only:** This cord reel is rated for indoor use. Do not expose to moisture, rain, or wet conditions.
- **No Surge Protection:** This unit is an extension cord and does not provide surge protection. Connect sensitive electronics to a dedicated surge protector.
- **Grounding:** Ensure the cord reel is plugged into a properly grounded outlet.
- **Overload Protection:** Do not exceed the specified electrical ratings (10 Amps, 1200 Watts). Overloading can cause overheating and fire.
- **Cord Care:** Do not pull the cord by the plug. Always grasp the plug firmly to remove it from the outlet. Do not use if the cord is damaged.
- **Children and Pets:** Keep the cord reel out of reach of children and pets.

Product Overview

The Bayco SL-800 is a robust retractable cord reel designed for convenience and organization. It features a durable metal housing, a 30-foot integrated extension cord, and a triple-tap outlet bar.

Key Components:

- **Retractable Reel:** Houses the 30-foot extension cord.
- **Triple-Tap Outlet Bar:** Provides three grounded outlets for connecting devices.
- **LED Status Light:** Indicates power to the outlet bar.
- **Mounting Brackets:** Included for wall or ceiling installation.

Setup

The Bayco SL-800 can be mounted to a wall or ceiling using the included brackets. Ensure the mounting surface is sturdy enough to support the weight of the reel and any connected tools.

1. **Choose Location:** Select a suitable location that provides easy access to a power outlet and the area where the cord will be used.
2. **Install Brackets:** Securely attach the mounting brackets to the wall or ceiling using appropriate hardware (not included, depending on surface type). Ensure the brackets are level and spaced correctly for the cord reel.
3. **Mount Cord Reel:** Slide the cord reel onto the installed brackets until it is firmly seated.
4. **Connect to Power:** Plug the main power cord of the reel into a grounded electrical outlet.

Operating Instructions

Using your retractable cord reel is straightforward:

- 1. Extend Cord:** Gently pull the triple-tap outlet bar to extend the cord to the desired length. The cord will lock into place at various intervals.
- 2. Connect Devices:** Plug your electrical tools or devices into the three grounded outlets on the outlet bar. The LED status light will illuminate when power is supplied.
- 3. Retract Cord:** To retract the cord, pull the outlet bar slightly further out, then release it slowly. The cord will automatically retract into the reel. Guide the cord to prevent tangling or damage.
- 4. Disconnect:** Always disconnect devices from the outlet bar before retracting the cord completely.

Maintenance

Proper maintenance ensures the longevity and safe operation of your cord reel:

- Regular Inspection:** Periodically inspect the cord, plug, and outlets for any signs of damage, fraying, or loose connections. Discontinue use if damage is found.
- Cleaning:** Wipe the exterior of the reel and cord with a dry, clean cloth. Do not use liquid cleaners or immerse in water.
- Storage:** When not in use, ensure the cord is fully retracted and stored in a dry, protected area.

Troubleshooting

If you encounter issues with your Bayco SL-800, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
No power to outlets	Cord not plugged in; tripped circuit breaker/fuse; internal wiring issue.	Ensure main plug is securely in a live outlet. Check your home's circuit breaker or fuse box. If problem persists, discontinue use and contact customer support.
Cord does not retract	Locking mechanism engaged; internal spring issue.	Pull the cord slightly further out to disengage the locking mechanism, then release slowly. If it still doesn't retract, do not force it; contact customer support.
Cord retracts too quickly/slowly	Internal spring tension.	This is generally not user-adjustable. Ensure you guide the cord during retraction. If it becomes a safety concern, contact customer support.
