## VIPEK Classic V6

# VIPEK Classic V6 Wire Garment Rack Instruction Manual

Model: Classic V6 | Brand: VIPEK

## PRODUCT OVERVIEW

The VIPEK Classic V6 Wire Garment Rack is a heavy-duty, freestanding wardrobe and closet system designed for efficient clothing storage. Constructed from premium carbon steel, it offers robust support for a significant load capacity. This versatile rack can be configured in two styles: a classic straight line or an L-shape, adapting to various space requirements. It features adjustable shelving and multiple hanging rods to customize your storage solution.

## SAFETY INFORMATION

- Ensure all connections are securely fastened during assembly to prevent instability.
- Do not exceed the maximum load capacity of 850 pounds to maintain structural integrity.
- Utilize the included anti-tip device to secure the rack to a wall, especially in households with children or pets.
- Distribute weight evenly across shelves and hanging rods to prevent tipping or collapse.
- Keep small parts away from children during assembly.

## PARTS LIST

Before beginning assembly, verify that all components listed below are present and undamaged.

Part	Description	Quantity
A	Large Shelf	4 pcs
B	Small Shelf	3 pcs
C	Support Rail	2 pcs
D	Lower Pole	8 pcs
E	Middle Pole	8 pcs
F	Upper Pole	8 pcs
G	Long Clothes Hanger Rod	2 pcs
H	Short Clothes Hanger Rod	4 pcs
I	Hook Bracket	2 sets
J	Plastic Clip	64 pcs + 2
K	Anti-Tip Device	1 set

## SETUP AND ASSEMBLY

The VIPEK Classic V6 Garment Rack is designed for easy assembly. Please follow these instructions carefully. A rubber mallet (not included) may be helpful for securing shelves.

### Assembly Steps:

- Unpack Components:** Carefully remove all parts from the packaging. Refer to the Parts List to ensure all items are present.
- Attach Plastic Clips:** Snap the plastic clips (J) onto the poles (D, E, F) at your desired shelf heights. Ensure the arrow on each clip points upwards and the clips are securely seated in the pole's grooves.
- Install Shelves:** Slide the shelves (A, B) over the plastic clips, pressing down firmly until they lock into place. For stability, ensure all clips are at the same height for each shelf.
- Connect Poles:** Assemble the lower, middle, and upper poles (D, E, F) by screwing them together.
- Add Hanging Rods:** Attach the long (G) and short (H) clothes hanger rods to the designated areas using the hook brackets (I).
- Choose Configuration:** The rack can be assembled in two styles: a classic straight line or an L-shape to fit into a corner. Plan your desired layout before final assembly.
- Secure with Anti-Tip Device:** For enhanced safety and stability, attach the anti-tip device (K) to the top of the rack and secure it to a wall.

# Massive Capacity

Neat & Organized

## OPERATING AND USAGE

The VIPEK Classic V6 Garment Rack provides flexible storage options for various clothing items and accessories. Its design allows for optimal organization and accessibility.

- **Adjustable Shelving:** The 7 adjustable shelves can be positioned at various heights to accommodate folded items, boxes, or other storage containers.
- **Hanging Rods:** Utilize the 4 hanging rods for suits, coats, long dresses, jackets, pants, and shirts. The dual-level hanging options maximize vertical space.
- **Weight Distribution:** Distribute heavier items on lower shelves and rods to maintain stability. The rack has a robust load capacity of 850 pounds.
- **Versatile Storage:** Ideal for cloakrooms, laundry rooms, bedrooms, and living rooms. It can store coats, hats, shoes, ties, belts, umbrellas, bags, skirts, dresses, bedding, pants, trunks, and boxes.

## MAINTENANCE

---

- **Cleaning:** Wipe down the carbon steel frame and wire shelves with a soft, damp cloth. Avoid abrasive cleaners that could damage the powder-coated finish.
- **Inspection:** Periodically check all connections and fasteners to ensure they remain tight. Re-tighten if necessary.
- **Relocation:** If moving the rack, empty it of all contents first to prevent damage or injury.

## TROUBLESHOOTING

---

If you encounter issues during assembly or use, refer to the following common solutions:

- **Shelves not locking into place:** Ensure the plastic clips are correctly oriented with arrows pointing upwards and are fully seated in the pole grooves. Apply firm, even pressure when sliding shelves down.
- **Rack feels unstable:** Double-check that all poles are securely connected and all shelves are properly locked onto their clips. Verify the anti-tip device is installed and anchored to a wall. Ensure weight is distributed evenly.
- **Missing parts:** Refer to the Parts List and contact VIPEK customer support if any components are missing.

## SPECIFICATIONS

---

Feature	Detail
