

**Itomoro AML017**

# Itomoro Baby Car Mirror Instruction Manual

**MODEL: AML017**

## 1. PRODUCT OVERVIEW

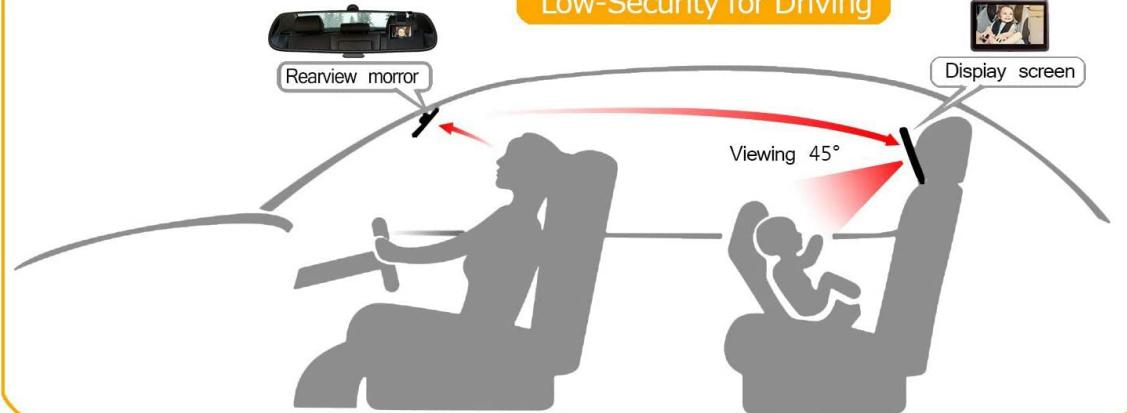

The Itomoro Baby Car Mirror is designed to provide parents with a clear and safe way to monitor their infant in a rear-facing car seat without needing to turn around while driving. Featuring a wide 149° viewing angle and 360° camera rotation, it ensures optimal visibility. The upgraded night vision function allows for clear viewing even in low-light conditions. Its plug-and-play design makes installation straightforward, enhancing vehicle safety and providing peace of mind.

## 2. WHAT'S IN THE Box

- Camera unit
- Display monitor
- Power cable with cigarette lighter adapter
- Video cable
- Mounting straps/accessories

## 3. SETUP AND INSTALLATION

Follow these steps for proper installation of your Itomoro Baby Car Mirror system:

1. **Install the Camera:** Secure the camera unit to the headrest of the rear seat using the provided straps. Ensure it is firmly attached and positioned to capture your baby in the rear-facing car seat.

The camera can be adjusted 360° for the optimal angle.

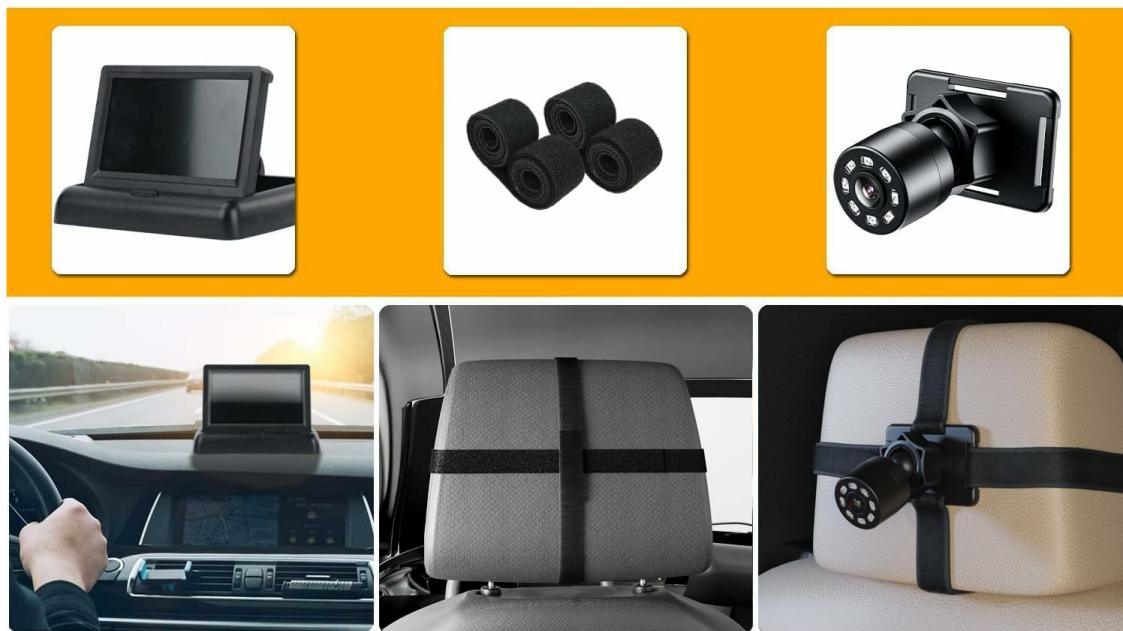

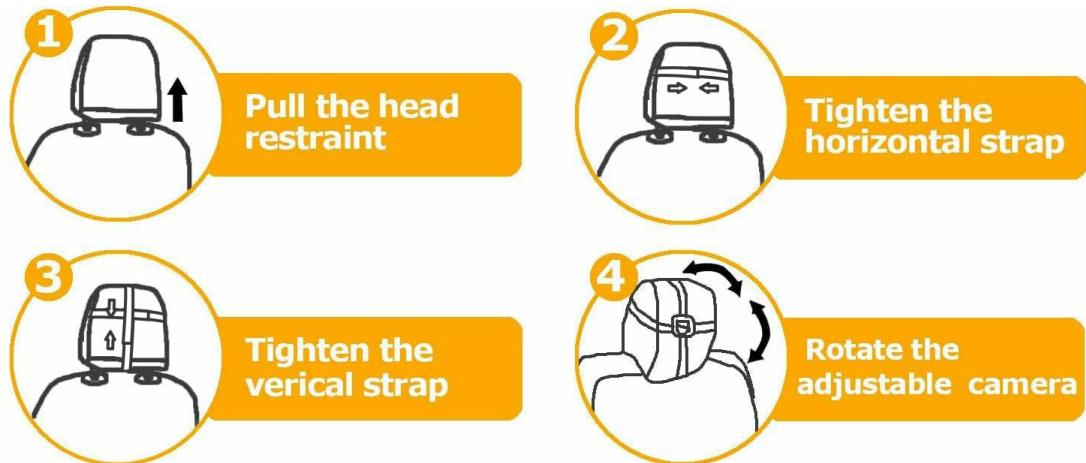

Figure 3.1: Detailed steps for securing the camera to the headrest.

2. **Position the Display Monitor:** Place the display monitor on the center console or dashboard of your car. The monitor is designed to sit stably and provide a clear view without obstructing your driving.

Figure 3.2: The display monitor positioned on the center console for easy viewing.

3. **Connect the Cables:** Connect the camera to the display monitor using the video cable. Then, connect the power cable from the display monitor to your car's cigarette lighter socket.

Figure 3.3: Wiring connections for the system.

4. **Power On:** Once connected, the monitor will automatically turn on and switch to the rear seat view.

## 4. OPERATING INSTRUCTIONS

The Itomoro Baby Car Mirror system is designed for simple operation:

- **Automatic Activation:** The monitor automatically powers on and displays the camera feed when connected to the car's power supply.
- **Adjusting View:** The camera can be manually rotated 360° to achieve the desired viewing angle of your child. The wide 149° angle ensures comprehensive coverage.
- **Night Vision:** The system features an upgraded night vision function, providing clear and bright images of your child even when driving at night. This eliminates the need for additional lighting.
- **Monitor Control:** The display monitor has a button to easily open and close the screen, allowing you to hide it when not in use.

## 5. KEY FEATURES

- **Enhanced Safety & Durability:** Designed to be placed on the center console, increasing vehicle safety by eliminating the need to look back. The camera remains stable during driving, preventing vibrations and shakes.
- **Upgraded Night Vision:** Provides a clear and bright display even in dark conditions, allowing parents to monitor their child's status at night without worry.
- **Perfect Vision with Wide Angle:** The camera offers a 360° rotation and an expanded 149° wide-angle view, ensuring a complete and distortion-free image of your baby.
- **Easy Installation:** No assembly required. The camera straps easily to the headrest, and the monitor activates automatically upon power connection.

## 6. TROUBLESHOOTING

If you encounter any issues with your Itomoro Baby Car Mirror, please refer to the following common solutions:

- **No Image on Display:**

- Ensure all cables (power and video) are securely connected.
- Verify the cigarette lighter socket is providing power.

- **Fuzzy or Distorted Image:**

- Check that the camera lens is clean and free from obstructions.
- Adjust the camera angle to ensure it is properly focused on your child.

- **Monitor Not Turning On:**

- Confirm the power cable is fully inserted into the cigarette lighter.
- Test the cigarette lighter with another device to ensure it is functional.

For further assistance, please contact Itomoro customer support.

## 7. PRODUCT SPECIFICATIONS

Specification	Detail
Brand	Itomoro
Model Number	AML017

Item Dimensions (L x W x H)	8.46 x 5.9 x 3.74 inches
Item Weight	15.8 ounces
