Noma Noma 3.5L

NOMA 3.5L Cool Mist Ultrasonic Humidifier Instruction Manual

Brand: Noma

Product Overview

The NOMA 3.5 Liter (0.9 gal) Ultrasonic Humidifier seamlessly blends superior design with functionality and maintains humidity in indoor spaces during long dry seasons. Its medium room capacity makes it ideal for spaces up to 400 square feet, and the removable top cap makes for simple refilling. Efficient ultrasonic technology humidifies your space quickly and emits moisture at a rate of 240 milliliters per hour. Let it run continuously for 24 hours or use timed shut-off options to set humidifying time for 2, 4, or 8 hours. The Ion Exchange Filter reduces calcium and white dust build-up inside the water tank for easy cleaning. Intelligent Auto Shut Off sensor turns off humidification when tank is empty, and at 40 dB, this humidifier runs quieter than the library.

Key Features

- **ADJUSTABLE MIST LEVEL:** 3 mist settings and the option to change mist temperature from cool to warm which makes adjusting our humidifier to your desired level of comfort simple. Helps provide temporary relief from coughing, congestion, dry throat, and allergies.
- **LARGE ROOM CAPACITY:** Able to fill a large space up to 400 sq. ft., making our humidifier perfect for your bedroom, office, baby or kids' room. Assists in reducing calcium and white dust build-up in your home.
- **TOP FILL DESIGN:** With an easily removable cap and a top fill design, our humidifier is simple to re-fill compared to traditional humidifiers. Includes one ion exchange filter making cleaning extremely easy.
- **NIGHT MODE / AUTO SHUT OFF:** Our humidifier is extremely quiet with a 24 hour run time. The built-in automatic

shut off sensor means you can run your unit all night long without any worries.

- **EASY TOUCH TECHNOLOGY:** With “Secret-Until-Lit” technology the control panel lights are clear and bright when on and invisible when off, creating a beautiful streamlined design. The control panel lights are also dimmable for evenings and night time.

Setup

Unpacking

Carefully remove all packaging materials and place the humidifier on a flat, stable surface.

Filling the Water Tank

The NOMA 3.5L Cool Mist Ultrasonic Humidifier features a convenient top-fill design for easy refilling.

1. Remove the top cap of the humidifier.
2. Fill the water tank directly from the top opening with clean, cool tap water. Do not overfill.

3. Replace the top cap securely.

Image: Close-up of the humidifier's 360-degree rotating vapor cap, allowing mist to be directed in any direction.

Operating Instructions

Power On/Off

Press the power button (represented by a circle with a vertical line) on the easy-touch control panel to turn the humidifier on or off.

Adjusting Mist Level

The humidifier offers 3 mist settings. Press the mist level button (represented by water droplets) to cycle through low, medium, and high mist output.

Setting Timer

Use the timer button (represented by a clock icon) to set the humidifying time for 2, 4, or 8 hours. The unit will automatically shut off after the set time.

Night Mode

The control panel features "Secret-Until-Lit" technology with dimmable LED lights. This allows for a streamlined design and reduced light output during evening and nighttime use.

Maintenance

Cleaning the Humidifier

Regular cleaning is essential for optimal performance and to prevent mineral buildup.

1. Unplug the humidifier before cleaning.
2. Empty any remaining water from the tank.

3. Wipe down the interior and exterior surfaces with a soft, damp cloth.
4. For mineral buildup, use a descaling solution or a mixture of white vinegar and water.

Ion Exchange Filter

The humidifier includes an Ion Exchange Filter designed to reduce calcium and white dust build-up. Refer to the filter's packaging for specific replacement instructions and frequency.

Troubleshooting

If you experience any issues with your NOMA Humidifier, please refer to the following common solutions:

- **No Mist Output:** Ensure the water tank is filled and properly seated. Check if the power cord is securely plugged in.
- **Unusual Noise:** Verify the humidifier is on a flat, stable surface. Check for any foreign objects in the water tank or mist outlet.
- **White Dust:** This is common with hard water. Ensure the ion exchange filter is properly installed and consider using distilled water if white dust persists.

For further assistance, please contact NOMA customer support.
