## Key Features:

- **Advanced Lighting:** Equipped with 90 professional lamp beads, offering 300% brighter illumination and a Color Rendering Index (CRI) exceeding 97. Features a soft, eye-protection natural light source.

- **Adjustable Brightness:** Freely adjust brightness from 200 to 1800 Lux.
- **Three Color Lights:** Provides white, warm, and natural light sources to suit various environments and makeup needs.
- **Magnification:** True 1X, 10X, and 15X HD magnification options. The 8.5-inch 1X mirror offers a wide-angle view, while the 10X/15X sides provide distortion-free detail.
- **Dual Power Options:** Can be powered by an AC adapter (included) or 4 AAA batteries (not included) for ultimate flexibility.
- **360° Swivel:** The mirror head rotates 360 degrees for optimal viewing angles.
- **Durable Construction:** Made of superior Pearl Nickel with anti-corrosion properties and explosion-proof tempered glass for safety. Features a fingerprint-resistant surface.
- **Auto-Off Function:** Automatically turns off after one hour to conserve energy.

## 2. SETUP

---

### 2.1 Unboxing and Initial Assembly

The VESAUR D8512 mirror comes securely packaged. Assembly is minimal, typically involving attaching the mirror head to the base. Ensure all components are present and undamaged upon opening.

Video 1: Overview of the VESAUR Professional 8.5" Lighted Makeup Mirror, demonstrating its features and components.

### 2.2 Powering the Mirror

The mirror offers dual power options:

- **AC Adapter:** Connect the included USB Type-C cable to the charging port located on the side of the mirror, and the other end to a power source. This provides continuous power.
- **Batteries:** For cordless operation, insert 4 AAA batteries (not included) into the battery compartment on the base.

### 2.3 Charging Instructions

If using the rechargeable function, connect the mirror via the USB Type-C cable to a power source. A full charge typically takes about 5 hours. The charging indicator light will glow red while charging and turn green when fully charged. A full charge can provide approximately one month of use when applying makeup for 30 minutes daily at medium brightness.

## 3. OPERATING INSTRUCTIONS

---

### 3.1 Power On/Off

Locate the power button on the base of the mirror. Press it once to turn the light on or off.

Image 2: Control buttons for lighting and brightness adjustment.

## 3.2 Adjusting Light Color

With the light on, tap the power button to cycle through the three available light colors: white, warm, and natural. Choose the setting that best matches your environment or desired makeup look.

## 3 Color Lighting Modes & Adjustment Brightness

Image 3: Visual representation of the three light color modes and brightness adjustment range.

### 3.3 Adjusting Brightness

To adjust the brightness, press and hold the power button. The light will gradually dim or brighten. Release the button when the desired brightness level is achieved.

### 3.4 Using Magnification

The mirror features dual sides: one with 1X magnification and the other with 10X/15X magnification. Gently rotate the mirror head 360 degrees to switch between the two sides. For optimal clarity with the magnified side, position your face within 4 inches of the mirror to avoid distortion.

### 3.5 360° Swivel Function

The mirror head is designed to swivel 360 degrees, allowing you to easily adjust the viewing angle to your preference. The sturdy mechanism ensures stable positioning.

### 3.6 Automatic Shut-off

To conserve energy, the mirror's light will automatically turn off after one hour of continuous use.

## 4. MAINTENANCE

### 4.1 Cleaning the Mirror

To clean the mirror surface, use the original mirror cleaning cloth or a soft, lint-free towel. Gently wipe the surface to remove dust or smudges. Avoid using abrasive cleaners or harsh chemicals, as these may damage the mirror's finish or coating.

### 4.2 General Care

- Avoid dropping the mirror, as it contains glass components.
- Do not expose the mirror to excessive moisture or direct water spray. It is not waterproof.
- Store the mirror in a cool, dry place when not in use.

## 5. TROUBLESHOOTING

### 5.1 Light Not Turning On

- **Check Power Source:** Ensure the AC adapter is securely plugged into both the mirror and a working power outlet. If using batteries, verify they are correctly inserted and not depleted.

- **Charge Battery:** If operating on battery power, the battery may be low. Connect the USB-C cable to charge the mirror.

## 5.2 Distorted Magnified View

- **Adjust Distance:** For the 10X/15X magnified side, ensure your face is within 4 inches of the mirror for a clear, distortion-free view.

## 5.3 Mirror Wobbles

- **Tighten Connections:** Check if the mirror head is securely attached to the stand.
- **Stable Surface:** Ensure the mirror is placed on a flat, stable surface. The base is designed with a non-slip bottom for stability.
