Ensure the battery is sufficiently charged. Connect the charger and wait a few minutes before attempting to power on again. If the issue persists, try a different charger or contact support.

6.2 Wi-Fi Connection Issues

Check if Wi-Fi is enabled in settings. Restart your tablet and your Wi-Fi router. Ensure you are entering the correct password. If the problem continues, try forgetting the network and reconnecting.

6.3 Slow Performance

Close unnecessary background applications. Clear cache data from apps in **Settings > Apps & notifications > [App Name] > Storage & cache > Clear cache**. Consider uninstalling unused apps or performing a factory reset as a last resort (back up your data first).
