PACKAGE CONTENTS

Upon unpacking, please verify that all items are present:

- Beetel B17 Corded Landline Phone Unit
- Handset
- Coiled Handset Cord
- Line Cord
- User Manual (this document)

PRODUCT FEATURES

The Beetel B17 is designed for reliable communication with several convenient features:

- **3-Step Ringer Volume Control:** Adjust the ringer volume to your preference.
- **LED for Ring Indication:** A visual indicator illuminates when there is an incoming call.
- **Wall/Desk Mountable:** Flexible placement options for your convenience.
- **Mute Function:** Temporarily silence your microphone during a call.
- **Pause Function:** Insert a pause during dialing for specific services.
- **Flash Function:** Used for call waiting or transferring calls on compatible systems.
- **Redial Function:** Quickly redial the last number called.
- **Clear Call Quality:** Engineered for reliable and clear audio.
- **Dynamic Changeover from Pulse to Tone:** Supports both dialing modes.
- **Caller Identification (Caller ID):** Displays the incoming caller's number (requires subscription from your service provider).
- **Single-Line Operation:** Designed for use with a single telephone line.

SETUP

1. Connecting the Handset

1. Locate the coiled handset cord.
2. Plug one end of the coiled cord into the handset.
3. Plug the other end of the coiled cord into the jack labeled **HANDSET** on the side or bottom of the phone base unit.

2. Connecting to the Telephone Line

1. Locate the line cord.

2. Plug one end of the line cord into the jack labeled **LINE** on the phone base unit.
3. Plug the other end of the line cord into your telephone wall jack.

3. Mounting Options (Desk or Wall)

The Beetel B17 can be placed on a desk or mounted on a wall.

- **Desk Mount:** Simply place the phone on a flat surface. Ensure the cords are not tangled.
- **Wall Mount:** The phone base has keyhole slots on the bottom for wall mounting. Secure two screws (not included) into the wall, matching the spacing of the keyhole slots. Hang the phone onto the screws.

OPERATING INSTRUCTIONS

Making a Call

1. Lift the handset.
2. Listen for a dial tone.
3. Dial the desired telephone number using the keypad.
4. Wait for the call to connect.

Receiving a Call

1. When the phone rings (and the LED indicator flashes), lift the handset.
2. Begin your conversation.

Ending a Call

Place the handset back into the cradle on the phone base unit.

Using Special Functions

- **Mute:** During a call, press the **MUTE** button to temporarily disable your microphone. The other party will not hear you. Press **MUTE** again to resume speaking.
- **Pause:** Press the **PAUSE** button during dialing to insert a brief pause. This is useful for accessing services that require a delay after dialing an access code.
- **Flash:** Press the **FLASH** button to activate call waiting or transfer calls, depending on your telephone service provider's features.
- **Redial:** Lift the handset and press the **REDIAL** button to automatically dial the last number you called.
- **Ringer Volume Control:** Adjust the switch on the side or bottom of the phone to select your preferred ringer volume (High, Medium, Low).

MAINTENANCE

To ensure the longevity and optimal performance of your Beetel B17 phone, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the phone with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- **Avoid Liquids:** Keep the phone away from water and other liquids.
- **Temperature:** Do not expose the phone to extreme temperatures or direct sunlight.
- **Storage:** If storing the phone for an extended period, disconnect it from the telephone line and store it in a cool, dry place.

TROUBLESHOOTING

If you encounter issues with your Beetel B17 phone, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
No dial tone	Line cord not connected properly; telephone service issue.	Ensure the line cord is securely plugged into both the phone and the wall jack. Test with another phone if available, or contact your telephone service provider.
Cannot hear caller / Caller cannot hear me	Handset cord loose; Mute function activated.	Check that the handset cord is firmly connected at both ends. If you cannot be heard, ensure the MUTE button is not active.
Phone does not ring	Ringer volume set to low; telephone service issue.	Adjust the ringer volume switch to a higher setting. Verify your telephone service is active.
Caller ID not displaying	Caller ID service not subscribed; caller blocked their number.	Contact your telephone service provider to confirm Caller ID subscription. Note that some callers may block their number.
