

HIMOX RinTalen

HIMOX Air Purifier User Manual

Model: RinTalen | Brand: HIMOX

1. INTRODUCTION

Thank you for choosing the HIMOX Air Purifier. This device is designed to improve your indoor air quality by effectively removing various airborne pollutants. Featuring a multi-stage filtration system, including an H13 HEPA filter, an ionizer, and an aromatherapy function, it provides a cleaner and fresher breathing environment for you and your family. This manual provides important information on the safe use, operation, and maintenance of your air purifier. Please read it thoroughly before first use and keep it for future reference.

2. IMPORTANT SAFETY INFORMATION

To reduce the risk of fire, electric shock, or injury, please observe the following safety precautions:

- Always unplug the air purifier before moving it, opening the grille, changing filters, or whenever it is not in use.
- Do not operate the unit if the power cord or plug is damaged.
- Keep the power cord away from heated surfaces.
- Do not use the air purifier in wet or damp environments, such as bathrooms or laundries.
- Do not insert fingers or foreign objects into any openings.
- Ensure the air inlet and outlet are not blocked.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Only use original HIMOX replacement filters.

3. PACKAGE CONTENTS

Please check the package for the following items:

- HIMOX Air Purifier Unit
- H13 HEPA Filter (pre-installed inside the unit, but wrapped in plastic)
- User Manual

4. PRODUCT OVERVIEW

Familiarize yourself with the components of your HIMOX Air Purifier:

Figure 4.1: HIMOX Air Purifier with aromatherapy function highlighted.

FRESH AIR

Provide you a comfortable and healthy breathing environment

Figure 4.2: Detailed view of the control panel and essential oil port.

- **Air Inlet:** Located around the lower part of the unit, where air is drawn in for purification.
- **Air Outlet:** Located at the top of the unit, where purified air is released.
- **Control Panel:** Touch-sensitive buttons for power, fan speed, timer, and filter reset.
- **Essential Oil Port:** Located at the top center, for adding essential oils for aromatherapy.
- **Filter Compartment:** Located at the bottom, housing the multi-layer filter.

5. SETUP

Follow these steps to set up your HIMOX Air Purifier for the first time:

1. **Unpack the Unit:** Carefully remove the air purifier from its packaging.
2. **Remove Filter Packaging:** Before using the air purifier, turn the unit upside down and twist the base counter-clockwise to open the filter compartment. Remove the pre-installed filter and take off its plastic protective bag.
3. **Install Filter:** Place the filter back into the unit, ensuring it is seated correctly. Close the filter compartment by

twisting the base clockwise until it locks securely.

4. **Placement:** Place the air purifier on a flat, stable surface. Ensure there is at least 30 cm (12 inches) of space around the unit for optimal air circulation.
5. **Connect Power:** Plug the power adapter into the air purifier and then into a standard electrical outlet.

6. OPERATING INSTRUCTIONS

Your HIMOX Air Purifier offers several functions for customized air purification.

Figure 6.1: Key features of the HIMOX H01 Air Purifier.

6.1 Power On/Off

- Press the **Power Button** (1) on the control panel to turn the unit on or off.

6.2 Fan Speed Adjustment

The air purifier has three fan speed settings:

- Press the **Speed Button** (2) repeatedly to cycle through Low, Medium, and High speeds.
- The indicator lights on the control panel will show the current speed setting.

6.3 Sleep Mode (Low Noise Operation)

For a quiet environment, especially during sleep:

Figure 6.2: The air purifier operates at a super quiet 20 dB in sleep mode.

- The lowest fan speed setting operates at approximately 20 dB, providing a tranquil atmosphere.
- Select the lowest speed for quiet operation.

6.4 Aromatherapy Function

Enhance your environment with essential oils:

Figure 6.3: The aromatherapy function allows for a relaxing atmosphere.

- Open the essential oil port cover on the top of the unit.
- Add a few drops of your favorite essential oil (not included) onto the aromatherapy pad.
- Close the cover. The fragrance will be diffused with the purified air.

6.5 Ionizer Function

The built-in ionizer helps to further purify the air:

Figure 6.4: The ion generator helps to neutralize airborne particles.

- The ionizer works automatically to release negative ions, which help to clump airborne particles together, making them easier for the filter to capture.

6.6 Timer Function

- Press the **Timer Button** (1) to set the operating time for 2, 4, or 8 hours. The unit will automatically turn off after the selected time.

7. MAINTENANCE

Regular maintenance ensures optimal performance and extends the lifespan of your air purifier.

7.1 Cleaning the Exterior

- Always unplug the unit before cleaning.
- Wipe the exterior of the air purifier with a soft, dry cloth.
- Do not use abrasive cleaners or solvents.

7.2 Filter Replacement

The air purifier uses a multi-stage filter system to capture various pollutants:

MULTI-LAYER EFFECTIVE FILTER

High-performance filter gives a full purification

Figure 7.1: Multi-layer effective filter system.

El filtro HEPA H13 Puede Capturar Eficazmente el 99,97 % de los Alérgenos

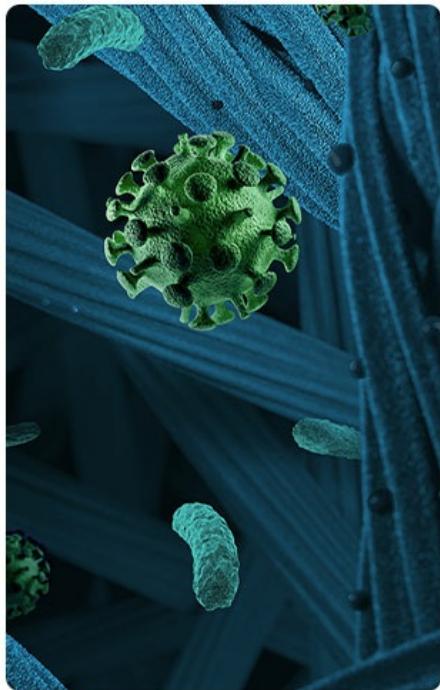

Figure 7.2: The H13 HEPA filter effectively captures 99.97% of allergens.

The filter replacement indicator light (💡) on the control panel will illuminate when it's time to replace the filter. For optimal performance, the filter should be replaced every 4 to 8 months, depending on air quality and usage.

To replace the filter:

1. Unplug the air purifier from the power outlet.
2. Turn the unit upside down and twist the base counter-clockwise to open the filter compartment.
3. Remove the old filter. Dispose of it properly.
4. Unpack the new HIMOX replacement filter (search for B08QMVS1HQ to purchase original replacement filters).
5. Insert the new filter into the unit, ensuring it is seated correctly.
6. Close the filter compartment by twisting the base clockwise until it locks securely.
7. Plug the unit back in. Press and hold the Filter Replacement button for 3 seconds to reset the filter life indicator.

8. TROUBLESHOOTING

If you encounter any issues with your air purifier, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Unit does not turn on	Not plugged in; Power outage; Filter not installed correctly or plastic removed.	Check power connection; Check circuit breaker; Ensure filter is unwrapped and correctly installed.
Low airflow	Air inlets/outlets blocked; Filter is dirty.	Clear any obstructions; Replace the filter.
Unusual noise	Unit not on a flat surface; Foreign object inside; Filter not installed correctly.	Place on a flat surface; Unplug and check for foreign objects; Reinstall filter.

Problem	Possible Cause	Solution
Odor coming from unit	New filter odor; Filter is saturated with odors.	New filter odor will dissipate; Replace the filter.

If the problem persists after trying these solutions, please contact HIMOX customer support.
