Redmi AirDots S

Redmi Mi AirDots S True Wireless Earphones User Manual

Model: AirDots S

INTRODUCTION

The Redmi Mi AirDots S are true wireless stereo (TWS) earphones designed for a liberated audio experience. This manual provides essential information for setting up, operating, maintaining, and troubleshooting your earphones.

Image: Redmi Mi AirDots S True Wireless Earphones in their charging case. The image displays the compact design of the earphones and their portable charging solution.

PACKAGE CONTENTS

Ensure all items are present in the package:

- Redmi Mi AirDots S Earphones (Left and Right)
- Charging Case
- Ear Tips (S, M, L sizes)
- User Manual

SETUP

1. Initial Charging

Before first use, fully charge the earphones and the charging case.

1. Place both earphones into the charging case.
2. Connect the charging case to a power source using a compatible USB cable (not always included, check package). The indicator light on the case will show charging status.
3. Once fully charged, the indicator light will change or turn off.

2. Pairing with a Device

The Redmi Mi AirDots S use Bluetooth 5.0 for connection.

1. Remove both earphones from the charging case. They will automatically power on and attempt to pair with each other.
2. On your device (smartphone, tablet, etc.), enable Bluetooth.
3. Search for available Bluetooth devices and select "Mi AirDots S" or "Redmi AirDots S" from the list.
4. Once connected, you will hear a confirmation tone, and the earphone indicator light will turn off or flash slowly.
5. *Note: After the initial pairing, the earphones will automatically connect to the last paired device when removed from the case.*

OPERATING INSTRUCTIONS

Power On/Off

- **Power On:** Remove earphones from the charging case. They will power on automatically. Alternatively, press and hold the multi-function button on both earphones for 1 second.
- **Power Off:** Place earphones back into the charging case. They will power off automatically. Alternatively, press and hold the multi-function button on either earphone for 5 seconds.

Basic Functions

Earphone Controls

Action	Function
Single tap (either earphone)	Play/Pause music; Answer/End call
Double tap (either earphone)	Activate Voice Assistant
Press and hold (either earphone) during call	Reject call
Remove one earphone	Automatically pause music (infrared sensor)
Place one earphone back in ear	Automatically resume music

Single Earphone Mode

You can use either the left or right earphone independently. Simply remove one earphone from the case, and it will connect to your device. The other earphone can remain in the case or be used by another person for shared audio (if supported by the application).

MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your Redmi Mi AirDots S earphones.

- **Cleaning:** Regularly clean the ear tips and charging contacts with a soft, dry, lint-free cloth. Do not use harsh chemicals or abrasive materials.
- **Storage:** When not in use, always store the earphones in their charging case to protect them and keep them charged.
- **Avoid Water:** The earphones are not waterproof. Avoid exposure to water, sweat, or high humidity.
- **Temperature:** Do not expose the earphones or charging case to extreme temperatures (hot or cold).
- **Battery Care:** To preserve battery life, avoid fully discharging the earphones or case for extended periods. Charge them regularly.

TROUBLESHOOTING

If you encounter issues with your Redmi Mi AirDots S, refer to the following common solutions:

Common Issues and Solutions

Problem	Solution
Earphones not pairing with each other	<ol style="list-style-type: none"> 1. Ensure both earphones are charged. 2. Place both earphones back into the charging case, then remove them simultaneously. 3. If issues persist, perform a factory reset (refer to advanced troubleshooting or online resources for specific model reset instructions).
Earphones not connecting to device	<ol style="list-style-type: none"> 1. Ensure Bluetooth is enabled on your device. 2. Forget/delete "Mi AirDots S" from your device's Bluetooth list and attempt to pair again. 3. Ensure earphones are charged and out of the case. 4. Restart your device.
Only one earphone working	<ol style="list-style-type: none"> 1. Ensure both earphones are charged. 2. Place both earphones back into the charging case, then remove them simultaneously to re-establish the stereo connection. 3. If the problem persists, perform a factory reset.
Low volume or poor sound quality	<ol style="list-style-type: none"> 1. Adjust volume on both your device and the earphones (if applicable). 2. Ensure ear tips are correctly sized and sealed in your ear canal. 3. Clean ear tips and earphone grilles for any debris. 4. Ensure earphones are fully charged.
