## BedInABox BEDINABOX\_BIB-OG11-TW

# BedInABox Original Memory Foam Mattress User Manual

Model: BEDINABOX\_BIB-OG11-TW

## PRODUCT OVERVIEW

---

The BedInABox Original mattress offers a comfortable and supportive sleep surface with its memory foam construction. Designed for various sleep positions, it features a plush CoolRest comfort layer and a breathable soft knit cover.

### Key Features:

- Available in 9" or 11" construction.
- Plush CoolRest comfort layer for optimal pressure relief.
- Breathable soft knit cover for enhanced airflow.
- Accommodates all sleep positions.

## SETUP INSTRUCTIONS

---

Your BedInABox Original mattress is compressed and rolled for convenient shipping. Follow these steps for proper setup:

1. **Prepare the Area:** Choose a clean, flat surface for unboxing, preferably in the room where the mattress will be used. Ensure you have enough space.
2. **Remove from Box:** Carefully remove the rolled mattress from its shipping box. Do not use sharp objects that could cut the mattress.
3. **Unroll the Mattress:** Place the rolled mattress onto your bed frame or foundation. Carefully cut and remove the outer plastic wrapping. The mattress will begin to unroll.
4. **Remove Inner Plastic:** Once unrolled, carefully cut and remove the inner vacuum-sealed plastic. The mattress will immediately begin to expand.
5. **Allow for Expansion:** Allow the mattress to expand for 24 to 72 hours. While it may appear fully expanded sooner, the full expansion of the memory foam layers takes time. During this period, you may notice a slight "new mattress" odor, which is normal and will dissipate.
6. **Ensure Proper Support:** Place the mattress on a solid, supportive foundation such as a platform bed, slatted base (with slats no more than 3 inches apart), or a box spring in good condition.

## OPERATING (USAGE)

---

Your BedInABox Original mattress is designed to provide consistent comfort and support. No special operation is required beyond proper setup.

- **Comfort Adaptation:** The memory foam layers will adapt to your body's contours, providing personalized support and pressure relief.
- **Ventilation:** The breathable soft knit cover and CoolRest gel memory foam are designed to help regulate temperature for a comfortable sleep environment.
- **Foundation:** Ensure your mattress is always placed on a sturdy and appropriate foundation to maintain its structural integrity and comfort.

## MAINTENANCE AND CARE

---

Proper care will extend the life and performance of your BedInABox Original mattress:

- **Mattress Protector:** Use a high-quality, breathable mattress protector to shield against spills, stains, and allergens.
- **Cleaning Spills:** In case of spills, blot the area immediately with a clean, dry cloth. For stubborn stains, use a mild soap and water solution, applying sparingly and blotting dry. Avoid saturating the mattress.
- **Do Not Flip:** This mattress is designed with specific layers for top-side comfort and support. It should not be flipped.
- **Rotation:** Rotate your mattress 180 degrees every 3-6 months to promote even wear and extend its lifespan.
- **Ventilation:** Periodically air out your mattress by removing bedding to allow for better air circulation.
- **Avoid Harsh Chemicals:** Do not use harsh cleaning chemicals or dry cleaning fluids on the mattress, as these can damage the foam and cover materials.

## TROUBLESHOOTING

---

Here are solutions to common concerns you might encounter:

- **"New Mattress" Odor:** It is normal for a new memory foam mattress to have a slight odor upon unboxing. This "off-gassing" smell is harmless and will dissipate within a few days to a week. Ensure good ventilation in the room.
- **Slow Expansion:** If your mattress seems slow to expand, ensure it has been given the full 72 hours. Cooler room temperatures can sometimes slow the expansion process.

- **Perceived Firmness:** Memory foam mattresses can feel different from traditional spring mattresses. Allow your body time to adjust, typically a few weeks. Firmness can also be influenced by room temperature; foam tends to be slightly firmer in cooler environments.
- **Sagging/Indentation:** Ensure your mattress is on a proper, supportive foundation. If sagging occurs prematurely, refer to the warranty information.

## SPECIFICATIONS

<b>Brand</b>	BedInABox
<b>Model Number</b>	BEDINABOX_BIB-OG11-TW
<b>Product Dimensions</b>	1"L x 1"W x 1"Th (Note: This appears to be placeholder data. Actual dimensions vary by size, e.g., Twin, Queen, King.)
<b>Item Weight</b>	1 Pounds (Note: This appears to be placeholder data. Actual weight varies by size.)
<b>Construction Height</b>	9" or 11" (as per feature bullets)
<b>Item Firmness Description</b>	Medium Plush
<b>Fill Material</b>	Memory Foam
<b>Number of Layers</b>	3
<b>Cover Material</b>	Polyester Blend
<b>Special Feature</b>	Cooling (CoolRest Gel memory foam)
