Olaplex No. 7 Bonding Oil User Manual

A comprehensive guide for using your Olaplex No. 7 Bonding Oil to achieve visibly smoother, softer, and shinier hair with added heat protection and frizz control.

PRODUCT OVERVIEW

The Olaplex No. 7 Bonding Oil is a highly concentrated, weightless styling oil designed for all hair types. It instantly boosts shine, color vibrancy, and softness, while effectively taming frizz and flyaways. This innovative oil also provides essential heat protection up to 450°F (232°C), making it a versatile addition to your hair care routine for sleek, healthy-looking styles.

SETUP AND PREPARATION

The Olaplex No. 7 Bonding Oil is ready for immediate use. No complex setup is required. Ensure your hair is clean and towel-dried for optimal absorption if applying to damp hair, or dry if applying to dry hair.

OPERATING INSTRUCTIONS (SUGGESTED USE)

For best results, follow these simple steps:

1. Unscrew the lid of the bottle and turn it upside down.
2. Gently tap your index finger on the bottom of the bottle to dispense a metered drop. Start with 2-3 drops for most hair types, adjusting as needed for hair length and thickness.
3. Apply a small amount to damp or dry hair, focusing on mid-lengths to ends. Avoid applying directly to the roots to prevent weighing down the hair.
4. Style your hair as you normally would. The oil provides heat protection, making it ideal for use before blow-drying, straightening, or curling.

UNRETOUCHED IMAGES*

*Results may vary. Results achieved by cleansing with N°4 Bond Maintenance® Shampoo, conditioning with N°5 Bond Maintenance® Conditioner, then applying OLAPLEX N°7 Bonding Oil™ to damp hair before styling and again to dry hair.

Image: A visual guide detailing the four steps for applying Olaplex No. 7 Bonding Oil.

Tips for Enhanced Results:

- For maximum shine and softness, apply a few drops to dry hair after styling.
- Combine with Olaplex No. 6 Bond Smoother for an even smoother and more styled finish.

MAINTENANCE

Olaplex No. 7 Bonding Oil is a leave-in treatment and does not require rinsing. To maintain product integrity, store the bottle in a cool, dry place away from direct sunlight. Ensure the lid is tightly closed after each use to prevent evaporation and contamination.

TROUBLESHOOTING

If you experience any issues or have questions regarding the application or effects of Olaplex No. 7 Bonding Oil, please refer to the "Support and Contact" section for assistance. Ensure you are using the correct amount for your hair type and applying it as directed.
