## Skullcandy S2TDW-M704

# Skullcandy Sesh True Wireless Earbuds User Manual

Model: S2TDW-M704

Brand: Skullcandy

## INTRODUCTION

---

Welcome to the user manual for your Skullcandy Sesh True Wireless In-Ear Earbuds. These earbuds are designed for a seamless audio experience, offering Bluetooth wireless technology, up to 10 hours of total battery life with the charging case, and IP55 sweat, water, and dust resistance. This manual provides essential information for setup, operation, maintenance, and troubleshooting to ensure optimal performance of your device.

## SETUP

### 1. Initial Charge

Before first use, fully charge your Skullcandy Sesh earbuds and charging case. Place both earbuds into the charging case. Connect the USB charging cable to the case and a power source. The LED indicators on the case will show charging status. The earbuds will also show a red light while charging inside the case, which turns off when fully charged.

Image: Skullcandy Sesh earbuds placed inside their charging case, with indicator lights showing the charging status of both the earbuds and the case.

## 2. Pairing with Your Device

1. Remove both earbuds from the charging case. They will automatically enter pairing mode.
2. On your device (smartphone, tablet, etc.), go to Bluetooth settings and turn Bluetooth on.
3. Select "Sesh" from the list of available devices.
4. Once connected, you will hear an audible confirmation, and the LED on the earbuds will flash blue.

If you only want to use one earbud, simply remove one from the case. It will automatically enter pairing mode. To pair with a new device, ensure Bluetooth is off on previously paired devices, then follow the steps above.

## 3. Fitting the Earbuds

Choose the ear gels that provide the most comfortable and secure fit. A good seal is crucial for optimal sound quality and noise isolation. Insert the earbud into your ear canal and gently twist it to secure its position.

## OPERATING INSTRUCTIONS

---

### Controls

The Skullcandy Sesh earbuds feature physical buttons for control. Pressing the button requires a firm but gentle press to avoid discomfort.

- **Power On/Off:** Earbuds power on automatically when removed from the case and power off when returned to the case. To manually power on, press and hold the button on both earbuds for 2 seconds. To manually power off, press and hold the button on both earbuds for 4 seconds.
- **Play/Pause:** Press the button on either earbud once.
- **Track Forward:** Press the button on the RIGHT earbud twice.
- **Track Back:** Press the button on the LEFT earbud twice.
- **Volume Up:** Press the button on the RIGHT earbud three times.
- **Volume Down:** Press the button on the LEFT earbud three times.
- **Answer/End Call:** Press the button on either earbud once.
- **Reject Call:** Press and hold the button on either earbud for 2 seconds.
- **Activate Voice Assistant:** Press the button on either earbud once (when not on a call).

## Water and Dust Resistance (IP55)

Your Skullcandy Sesh earbuds are rated IP55, meaning they are resistant to sweat, light splashes of water, and dust. This makes them suitable for workouts and outdoor activities. However, they are not designed for submersion in water. Ensure the earbuds are dry before placing them back in the charging case to prevent damage.

## MAINTENANCE

- **Cleaning:** Regularly clean the earbuds and charging case with a soft, dry, lint-free cloth. For ear gels, remove them and clean with mild soap and water, then dry thoroughly before reattaching. Do not use harsh chemicals or abrasive materials.
- **Storage:** When not in use, store the earbuds in their charging case to protect them and keep them charged. Store in a cool, dry place away from extreme temperatures.
- **Battery Care:** To prolong battery life, avoid fully discharging the earbuds and case frequently. Charge them regularly, even if not used for extended periods.

## TROUBLESHOOTING

- **Earbuds not pairing with each other:** If only one earbud is playing audio, try placing both earbuds back in the charging case, then remove them simultaneously. If the issue persists, perform a factory reset (refer to the official Skullcandy support website for detailed instructions).
- **Earbuds not connecting to device:** Ensure Bluetooth is enabled on your device and the earbuds are in pairing mode. Forget "Sesh" from your device's Bluetooth list and try pairing again.
- **No sound or low volume:** Check the volume levels on both your device and the earbuds. Ensure the earbuds are properly seated in your ears for a good seal.
- **Charging issues:** Ensure the charging cable is securely connected and the power source is active. Clean the charging contacts on both the earbuds and the case with a dry cotton swab.

For more detailed troubleshooting steps or advanced issues, please refer to the official Skullcandy Sesh User Guide PDF available on the Skullcandy support website or through the link provided in the Warranty and Support section.
