Crowd Control Warehouse WMB-120

Crowd Control Warehouse CCW Series WMB-120 Fixed Wall Mount Retractable Belt Barrier Instruction Manual

Model: WMB-120

INTRODUCTION

This manual provides instructions for the proper installation, operation, and maintenance of your Crowd Control Warehouse CCW Series WMB-120 Fixed Wall Mount Retractable Belt Barrier. This product is designed to manage crowd flow and restrict access in various environments, offering a durable and efficient solution.

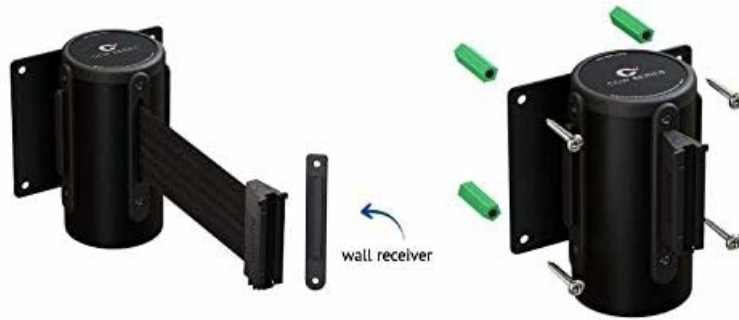

The WMB-120 features a robust steel case and an 11-foot retractable belt, making it suitable for permanent crowd control, guidance, or as a door barrier. Its design promotes safety and organization, particularly in areas with limited space.

PACKAGE CONTENTS

Before installation, ensure all components are present:

- Fixed Wall Mount Retractable Belt Barrier unit
- Wall Receiver
- Mounting Hardware (screws and wall anchors)

CCW Series WMB-120 Fixed Wall Mount Retractable Belt Barrier 11 Foot with Steel Case

Wall-mounted retractable belt barrier purchase includes:

1. Wall receiver
2. Fixed wall mount retractable belt barrier
3. Necessary hardware (screws)

SETUP AND INSTALLATION

The CCW Series WMB-120 is designed for hassle-free setup on walls or flat surfaces. Follow these steps for secure installation:

1. **Select Mounting Location:** Choose a sturdy wall or flat surface where the barrier unit and wall receiver will be mounted. Ensure the chosen location allows for the full extension of the 11-foot belt without obstruction.
2. **Mark Drilling Points:**
 - Hold the main barrier unit against the wall at the desired height and mark the positions for the mounting screws.
 - Extend the belt to the desired length and position the wall receiver. Mark the positions for its mounting screws. Ensure the receiver is aligned horizontally with the barrier unit.
3. **Drill Pilot Holes:** Using an appropriate drill bit for your wall material, drill pilot holes at the marked locations. If installing into drywall, insert the provided wall anchors into the pilot holes.
4. **Mount the Barrier Unit:** Align the main barrier unit with the drilled holes and secure it to the wall using the provided screws. Tighten securely.
5. **Mount the Wall Receiver:** Align the wall receiver with its drilled holes and secure it to the wall using the provided screws.

Fixed Wall Mount Retractable Belt Barrier 11 Foot with Steel Case

Specifications:

Belt Length: 11 ft.

Weight: 2 lbs.

Material: Steel

OPERATING INSTRUCTIONS

Using the retractable belt barrier is straightforward:

1. **Extend the Belt:** Gently pull the belt end from the main barrier unit. The belt will extend smoothly.
2. **Secure the Belt:** Insert the belt end into the slot of the wall receiver. Ensure it clicks securely into place. The belt should be taut but not overly stretched.
3. **Retract the Belt:** To retract, gently press the release button or lever on the belt end (if present, otherwise simply pull it out of the receiver) and guide the belt back into the main unit. The unit features an anti-snapback design and a slow retracting belt with a braking system to prevent rapid retraction and potential injury.

CROWD CONTROL WITH A SMALL FOOTPRINT

CCW Fixed Wall Mounted Belt Barriers promotes safety and organization while eliminating the need for traditional stanchions in places where space is limited. Simply connect the universal belt end to another stanchion or a compatible wall receiver.

MAINTENANCE

Regular maintenance ensures the longevity and proper function of your retractable belt barrier:

- **Cleaning:** Wipe the steel case and belt with a soft, damp cloth. Avoid abrasive cleaners or solvents that could damage the finish or belt material.
- **Inspection:** Periodically check the belt for any signs of wear, fraying, or damage. Inspect the mounting screws for tightness and ensure the barrier unit and receiver are securely attached to the wall.
- **Belt Mechanism:** Ensure the belt extends and retracts smoothly. If you notice any resistance or issues, check for obstructions in the mechanism. The anti-snapback feature should always function correctly.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Belt does not extend or retract smoothly.	Obstruction in the belt mechanism or internal spring issue.	Check for any visible obstructions. Gently pull and release the belt a few times. If the issue persists, contact customer support.
Belt does not lock into the wall receiver.	Belt end not fully inserted or receiver mechanism is obstructed.	Ensure the belt end is pushed firmly into the receiver until it clicks. Check the receiver slot for debris.
Barrier unit feels loose on the wall.	Mounting screws are loose or wall anchors are compromised.	Tighten all mounting screws. If the issue persists, inspect the wall anchors and consider relocating or using stronger anchors.

SPECIFICATIONS

- **Model:** CCW Series WMB-120
- **Belt Length:** 11 feet
- **Belt Width:** 2 inches
- **Weight:** Approximately 2 lbs
- **Case Material:** Steel (Black Steel Case for this variant)
- **Mounting Type:** Fixed Wall Mount
- **Features:** Retractable belt with anti-snapback and slow braking system

**FIXED WALL MOUNT
RETRACTABLE BELT
BARRIER**

Our CCW Series Fixed Wall Mount Retractable Belt Barrier keeps your work space safe by restricting access to off-limits areas like warehouse aisles, loading bays, and other employment-only zones. By mounting your retractable belt barrier directly onto the wall, you achieve optimal space efficiency and versatility. Conveniently connect the belt to a traditional stanchion. Then, when it's time to put the barrier away, the belt brake technology allows slow, safe belt retraction, and the protective casing allows you to keep your wall mount in place where it's ready for its next use.

SPECIFICATIONS

- Belt Length: 11 feet
- Belt Width: 2 inches
- Case type: Stainless steel case
- Mounting type: Fixed

WARRANTY AND SUPPORT

For warranty information or technical support, please contact Crowd Control Warehouse directly. Refer to your purchase documentation for specific warranty terms and contact details.

You can typically find support information on the manufacturer's official website or through the retailer where the product was purchased.

APPLICATIONS

The CCW Series WMB-120 Retractable Belt Barrier is versatile and can be used in various settings to manage pedestrian traffic and designate restricted areas:

- Retail Stores
- Airports
- Banks
- Restaurants

- Night Clubs
- Stadiums
- Warehouses and Industrial Facilities (to restrict access to corridors, aisles, loading bays, etc.)
