Dometic Hydration Water Jug 11L, Ash User Manual

Model: 9600050823 | Brand: Dometic

INTRODUCTION

Welcome to the user manual for your Dometic Hydration Water Jug 11L, Ash. This manual provides essential information for the safe and effective use, maintenance, and troubleshooting of your water jug. Please read it thoroughly before first use.

Image: The Dometic Hydration Water Jug 11L in Ash color, featuring its compact design, two top openings with black caps, and a durable black carrying strap.

SAFETY INFORMATION

Please observe the following safety guidelines to ensure safe operation and prolong the life of your Dometic Hydration Water Jug.

- Do not fill with hot liquids above 60°C (140°F).
- Do not use for carbonated beverages.
- Hand wash only. Do not use abrasive cleaners or scrubbers.
- Ensure all caps are securely tightened before transport to prevent leaks.
- Keep out of reach of small children when filled.

PARTS LIST

Your Dometic Hydration Water Jug 11L includes the following components:

- 11L Water Jug Body (Ash color)

- Main Fill Cap (Black)
- Dispensing Cap (Black, with multiple dispensing options)
- Integrated Carrying Strap (Black, textile)

SETUP

1. **Initial Cleaning:** Before first use, thoroughly hand wash the interior and exterior of the jug with warm water and mild soap. Rinse thoroughly to remove any soap residue.
2. **Drying:** Allow the jug to air dry completely, or dry with a clean cloth, ensuring no moisture remains inside.
3. **Cap Inspection:** Inspect both the main fill cap and the dispensing cap to ensure they are clean and free of debris.

OPERATING INSTRUCTIONS

Filling the Jug

1. Unscrew the main fill cap located on the top of the jug.
2. Fill the jug with potable water. Do not overfill; leave a small air gap at the top.
3. Securely screw the main fill cap back on, ensuring a tight seal to prevent leaks.

Dispensing Water

1. Identify the dispensing cap. This cap is designed for various pouring methods.
2. Depending on your model's specific dispensing mechanism (e.g., spigot, pour spout), open the appropriate part of the dispensing cap.
3. Tilt the jug to pour water.
4. After dispensing, close the dispensing cap securely to prevent spills and contamination.

Transporting the Jug

Use the integrated carrying strap for convenient and secure transport. Ensure both caps are tightly closed before moving the jug.

MAINTENANCE

Cleaning

Regular cleaning is essential to maintain hygiene and prolong the life of your water jug.

1. **Daily Cleaning:** After each use, rinse the jug thoroughly with warm water. For best results, use a bottle brush to clean the interior.
2. **Deep Cleaning:** Periodically, or if odors develop, clean the jug with a mixture of warm water and a small amount of white vinegar or baking soda. Let it sit for 30 minutes, then rinse thoroughly multiple times.
3. **Cap Cleaning:** Disassemble and clean the caps, paying attention to seals and dispensing mechanisms. Ensure all parts are dry before reassembling.

4. **Drying:** Always store the jug with caps removed or loosely placed to allow for air circulation and complete drying, preventing mold and mildew.

Storage

Store the jug in a cool, dry place away from direct sunlight when not in use. Ensure it is completely dry before storage.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Leaking from caps	Caps not tightened; damaged seal; debris under seal.	Ensure caps are securely tightened. Inspect seals for damage and replace if necessary. Clean caps and seals.
Water flow is slow or blocked	Dispensing mechanism clogged; airlock.	Clean the dispensing cap thoroughly. Ensure there is an air vent if applicable to your model.
Unpleasant odor or taste	Insufficient cleaning; mold/mildew growth.	Perform a deep clean with vinegar/baking soda solution. Ensure thorough drying after each use.
