ASSEMBLY INSTRUCTIONS

Assembly is required for this product. Please follow these steps carefully. An Allen wrench is typically included for assembly.

1. **Attach Casters to Base:** Insert the casters into the holes at the end of each leg of the chair base. Push firmly until they click into place.
2. **Insert Gas Lift Cylinder:** Place the larger end of the gas lift cylinder into the center hole of the chair

base.

3. **Attach Seat Mechanism:** Align the seat mechanism (which includes the adjustment lever) to the underside of the chair seat. Secure it with the provided screws and washers using the Allen wrench. Ensure the arrow on the bottom assembly points towards the front of the chair to prevent tilting.
4. **Connect Seat to Gas Lift:** Carefully place the assembled seat onto the top of the gas lift cylinder. The tapered end of the gas lift will fit into the mechanism attached to the seat. Press down firmly to secure.

Maintenance

To maintain the appearance and longevity of your office chair, follow these simple care instructions:

- **Cleaning:** Wipe clean with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners, as these may damage the fabric or finish.
- **Inspection:** Periodically check all screws and connections to ensure they remain tight. Retighten if necessary.
- **Caster Care:** Keep casters free of debris (hair, dust) to ensure smooth rolling.

Troubleshooting

- **Chair Tilts Forward/Backward Unevenly:** During assembly, ensure the seat mechanism is oriented correctly. An arrow on the bottom assembly typically indicates the front direction. Reassemble if necessary.

- **Chair Does Not Adjust Height:** Check if the gas lift cylinder is properly seated in both the base and the seat mechanism. Ensure the adjustment lever is fully engaged when attempting to raise or lower the seat.
