Yaheetech Multi-Level Cat Scratching Post Instruction Manual

Model: 614939-FR

INTRODUCTION

This manual provides comprehensive instructions for the assembly, safe use, and maintenance of your Yaheetech Multi-Level Cat Scratching Post. Please read these instructions carefully before beginning assembly and retain this document for future reference.

SAFETY INSTRUCTIONS

- Keep the cat tree in a dry indoor environment.
- Keep the product away from open flames and heat sources.
- Do not allow children or adults to climb on the cat tree. It is designed for feline use only.
- Ensure the dimensions of the product are suitable for your pet's size and weight before purchase.
- Place the cat tree on a flat, stable surface to prevent tipping.
- Regularly inspect all screws and connections for tightness and re-tighten as necessary to maintain stability.

PACKAGE CONTENTS

Before assembly, please verify that all components listed below are present and undamaged. Refer to the assembly diagram for visual identification of parts.

- Baseboard
- Multi-level platforms
- Sisal scratching posts
- Plush-covered support posts
- Two enclosed cat niches (one square, one round)

- Soft hammock
- Top perch with raised edges
- Hanging toys (balls, sisal rope)
- Assembly hardware (screws, bolts, washers, Allen key)

ASSEMBLY INSTRUCTIONS

Follow these steps carefully for proper assembly. It is recommended to assemble the unit on a soft, clean surface to prevent damage to components.

1. **Step 1: Prepare the Base.** Place the largest baseboard (61 x 49 cm) on a flat, stable surface.
2. **Step 2: Attach Lower Posts.** Secure the first set of support posts to the baseboard using the provided hardware. Ensure all connections are tightened securely with the Allen key.
3. **Step 3: Install First Platform and Niche.** Place the first platform onto the attached posts. Then, assemble and attach the lower round cat niche to this platform and the corresponding posts.
4. **Step 4: Attach Mid-Level Posts and Second Platform.** Continue by attaching the next set of posts, including sisal-wrapped ones, and then the second platform.
5. **Step 5: Install Second Niche and Hammock.** Assemble and attach the square cat niche to the second platform. Secure the hammock between appropriate posts on this level.
6. **Step 6: Attach Upper Posts and Top Perch.** Fasten the final set of posts and the top perch with the cat ear design.
7. **Step 7: Attach Hanging Toys.** Secure the hanging balls and sisal rope to the designated points on the cat tree.
8. **Step 8: Final Check.** Verify that all screws are tight and the entire structure is stable before allowing your pet to use it.

Figure 1: Assembly Diagram. This image illustrates the various components of the cat tree and their arrangement during assembly. It shows the base, multiple platforms, scratching posts, two enclosed niches, a hammock, and the top perch, along with hanging toys.

OPERATING INSTRUCTIONS

The Yaheetech Multi-Level Cat Scratching Post is designed to provide a comprehensive activity center for your cat, promoting physical activity and mental stimulation.

- **Scratching Posts:** Encourage your cat to use the sisal-wrapped posts for scratching. This helps maintain claw health and diverts scratching behavior away from household furniture.
- **Niches and Hammock:** The enclosed niches and soft hammock offer secure, comfortable, and private spaces for your cat to rest, sleep, or observe its surroundings.
- **Perches:** The elevated platforms and the top perch provide vantage points, satisfying your cat's natural instinct to climb and survey its territory.
- **Hanging Toys:** The attached balls and sisal rope are for interactive play, encouraging hunting instincts and providing entertainment.

Figure 2: Product in Use. This image displays the fully assembled cat tree with cats utilizing its various features, including the top perch, an enclosed niche, and the hammock. It highlights the multi-level design and integrated play elements.

MAINTENANCE

- **Cleaning:** Use a soft brush or a handheld vacuum cleaner to remove loose fur, dust, and debris from the plush surfaces. For soiled areas, spot clean with a damp cloth and a mild, pet-safe cleaning solution. Allow the area to air dry completely. Do not soak the product or machine wash any components.
- **Inspection:** Periodically check all structural components, including posts, platforms, and connections, for signs of wear, damage, or looseness. Re-tighten any loose screws immediately to ensure the stability and safety of the cat tree. Replace severely damaged sisal posts or other components if they compromise the product's integrity or your cat's safety.
- **Placement:** To prolong the lifespan of the cat tree, keep it in a dry indoor environment, away from direct sunlight, high humidity, and extreme temperatures.

TROUBLESHOOTING

- **Instability or Wobbling:** Ensure the cat tree is placed on a completely flat and level surface. Re-check and tighten all assembly screws and bolts. If the issue persists, verify that all posts are correctly seated and aligned according to the assembly instructions.
- **Cat Not Using Scratching Posts:** Try applying a catnip spray to the sisal-wrapped posts to attract your cat. Gently guide your cat's paws to the posts to demonstrate their purpose. Ensure the cat tree is placed in an area your cat frequently visits.
- **Damaged Components:** If any part of the cat tree becomes damaged beyond repair or poses a safety risk, discontinue use. For replacement parts or further assistance, please contact Yaheetech customer support.

SPECIFICATIONS

Feature	Detail
Material	P2 Particle Board, 380gsm Plush, Sisal, Metal, Plastic
Overall Dimensions (L x W x H)	61 x 49 x 158 cm
Base Size (L x W)	61 x 49 cm
