## RunningSnail A01

# RunningSnail Emergency Weather Radio User Manual

Model: A01

## 1. INTRODUCTION

Thank you for purchasing the RunningSnail Emergency Weather Radio. This versatile device is designed to provide essential information and power during emergencies, outdoor activities, or daily use. It features multiple charging options, an AM/FM radio, a powerful LED flashlight, an SOS alarm, and a 4000mAh power bank to charge your mobile devices.

Please read this manual carefully before using the product to ensure proper operation and to maximize its lifespan.

## 2. SAFETY INFORMATION

- Do not expose the radio to extreme temperatures, direct sunlight, or high humidity.
- Avoid dropping or subjecting the radio to strong impacts.
- Do not disassemble or modify the radio. This will void the warranty and may cause damage.
- Keep the device away from water and other liquids.
- When using the hand crank, ensure smooth and consistent rotation.
- The SOS alarm is loud; avoid prolonged exposure to prevent hearing discomfort.

## 3. PRODUCT OVERVIEW

Familiarize yourself with the main components of your RunningSnail Emergency Weather Radio.

Figure 3.1: Front view of the RunningSnail Emergency Weather Radio, showing the digital display, speaker, and integrated flashlight.

Figure 3.2: The radio features a portable handle for easy carrying.

### Key Components:

- **Digital Display:** Shows frequency, volume, and battery level.
- **Telescopic Antenna:** For improved radio signal reception.
- **LED Flashlight:** Integrated light source for illumination.
- **SOS Button:** Activates emergency alarm and flashing light.
- **Hand Crank:** For manual power generation.
- **Solar Panel:** For solar charging.
- **USB Output Port:** To charge external devices.
- **Micro USB Input Port:** For charging the radio via USB cable.
- **AUX Input Port:** For connecting external audio devices.
- **Battery Compartment:** For optional AAA batteries.

## 4. SETUP

### 4.1 Initial Charging

Before first use, it is recommended to fully charge the radio's internal 4000mAh lithium-ion battery using the Micro USB cable.

1. Connect the Micro USB cable to the radio's Micro USB input port.
2. Connect the other end of the cable to a USB power adapter (not included) or a computer USB port.
3. The battery indicator on the display will show charging status.
4. Charging is complete when the battery indicator shows full.

## 4.2 Optional AAA Battery Installation

The radio can also be powered by 3 x AAA batteries (not included) as an alternative power source.

1. Locate the battery compartment on the bottom of the radio.
2. Open the battery compartment cover.
3. Insert 3 new AAA batteries, ensuring correct polarity (+/-).
4. Close the battery compartment cover securely.

Figure 4.1: The radio offers four distinct charging methods for continuous power.

## 5. OPERATING INSTRUCTIONS

## 5.1 Power On/Off

Press the power button to turn the radio on or off.

## 5.2 Radio Operation (AM/FM)

1. Extend the telescopic antenna for better reception.
2. Press the 'BAND' button to switch between AM and FM bands.
3. Use the 'TUNE +/-' buttons to manually tune to your desired frequency.
4. Adjust the volume using the 'VOL +/-' buttons.

## 5.3 Flashlight Operation

Press the flashlight button to turn the LED flashlight on or off.

Figure 5.1: The integrated LED flashlight provides bright illumination in dark environments.

## 5.4 SOS Alarm

In an emergency, press and hold the 'SOS' button to activate a loud siren and flashing light. Press it again to deactivate.

# SOS WAKE UP ATTENTION

Protect your safety in times of emergency

Figure 5.2: The SOS alarm is designed to attract attention during emergencies.

## 5.5 Power Bank Function

The 4000mAh internal battery can be used to charge your mobile devices.

1. Connect your device's USB charging cable to the radio's USB output port.
2. The radio will begin charging your device.

# A DEAD PHONE CAN BE LIFE THREATENING

4000 mAh power bank to charge you phone, power never goes out

Figure 5.3: Use the radio as a power bank to charge your phone when power is out.

## 5.6 Auxiliary Input (AUX)

Connect an external audio device (e.g., smartphone, MP3 player) to the radio using a 3.5mm AUX cable (not included) to play music through the radio's speaker.

## MUSIC PLAYER

Connect your phone to get some music to relax  
AUX Input

Figure 5.4: Enjoy music by connecting your phone via the AUX input.

### 5.7 Charging Methods

The radio offers four ways to recharge its internal battery:

- **Micro USB Charging:** (Recommended for initial charge) Connect to a USB power source.
- **Solar Charging:** Place the radio with the solar panel facing direct sunlight. This method is primarily for maintaining charge or extending battery life, not for a full charge.
- **Hand Crank Charging:** Rotate the hand crank clockwise or counter-clockwise at a consistent speed (approx. 130-150 RPM) for about 3-5 minutes to get 15-20 minutes of radio use or 5-10 minutes of flashlight use.
- **AAA Batteries:** If the internal battery is depleted, the radio can operate using 3 x AAA batteries (not included).

## 6. MAINTENANCE

- **Cleaning:** Wipe the radio with a soft, damp cloth. Do not use harsh chemicals or abrasive cleaners.
- **Storage:** Store the radio in a cool, dry place away from direct sunlight and extreme temperatures. If storing for extended periods, fully charge the internal battery every 3 months to preserve its lifespan.

- **Battery Care:** If using AAA batteries, remove them if the radio will not be used for a long time to prevent leakage.

## 7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Radio does not turn on.	Battery is depleted.	Charge the internal battery via USB, hand crank, or solar. Check AAA batteries if installed.
Poor radio reception.	Antenna not extended; weak signal area.	Fully extend the telescopic antenna. Try repositioning the radio.
Cannot charge external device.	Radio battery too low; incorrect cable.	Ensure radio's internal battery has sufficient charge. Use the correct USB cable for your device.
Hand crank is stiff.	Dust or debris.	Gently clean around the crank mechanism. Do not force it.

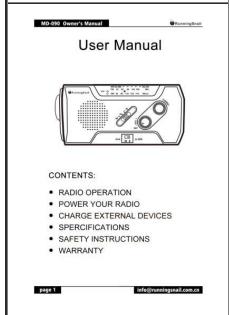

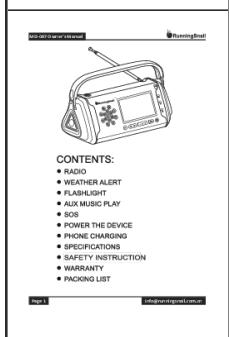

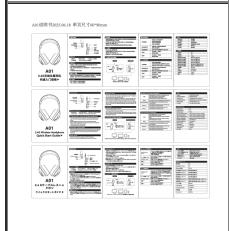

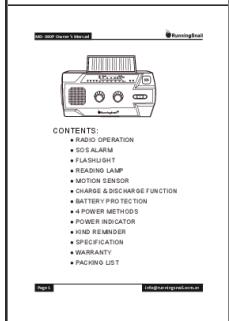

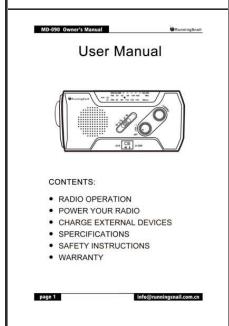

## 8. SPECIFICATIONS

- **Brand:** RunningSnail
- **Model Number:** A01
- **Color:** Orange
- **Connectivity Technology:** Auxiliary, USB
- **Tuner Technology:** AM/FM
- **Power Source:** Battery Powered (Internal Lithium-ion, AAA optional)
- **Internal Battery:** 4000mAh Lithium-ion (included)
- **Supported Radio Bands:** AM/FM
- **Item Weight:** 500 Grams
- **Hardware Interface:** USB
- **Frequency:** Up to 108 MHz (FM)
