1. INTRODUCTION

This manual provides essential information for the safe and effective use of your Toro Flex-Force Power System 60-Volt Max 2.5 Ah Lithium-Ion L135 Battery. This battery is designed to power a wide range of Toro 60-Volt Flex-Force tools, offering cordless convenience and reliable performance for your outdoor power equipment needs. The L135 battery features an on-board power meter with 4 LEDs, allowing you to monitor the remaining charge level. It is an integral part of the Toro Flex-Force Power System, providing interchangeable power across multiple compatible tools.

Image 1.1: The Toro Flex-Force 60-Volt Max 2.5 Ah Lithium-Ion L135 Battery. This image shows the battery's main body, which is red and black, with the "FLEX-FORCE POWER SYSTEM L135" label clearly visible, indicating its voltage (60 volts), amperage (2.5 Ah), and watt-hours (135 Wh).

2. IMPORTANT SAFETY INFORMATION

Always read and understand all safety warnings and instructions before using the battery or any compatible tool. Failure to follow these instructions may result in electric shock, fire, and/or serious injury.

2.1 General Battery Safety

- **Charging:** Only charge the battery with the charger specified by the manufacturer. A charger that is suitable for one type of battery pack may create a risk of fire when used with another battery pack.
- **Compatibility:** Use battery packs only with specifically designated power tools. Use of any other battery packs may create a risk of injury and fire.
- **Handling:** When battery pack is not in use, keep it away from other metal objects, like paper clips, coins, keys, nails, screws or other small metal objects, that can make a connection from one terminal to another. Shorting the battery terminals together may cause burns or a fire.
- **Abuse:** Under abusive conditions, liquid may be ejected from the battery; avoid contact. If contact accidentally occurs, flush with water. If liquid contacts eyes, additionally seek medical help. Liquid ejected from the battery may cause irritation or burns.
- **Temperature:** Do not expose a battery pack or tool to fire or excessive temperature. Exposure to fire or temperature above 130°C (265°F) may cause explosion.
- **Service:** Follow all charging instructions and do not charge the battery pack or tool outside of the temperature range specified in the instructions. Improperly charging or at temperatures outside the specified range may damage the battery and increase the risk of fire.
- **Disposal:** Dispose of batteries responsibly according to local regulations. Do not dispose of batteries in household waste or by burning.

2.2 Proposition 65 Warning

This product can expose you to chemicals including lead and lead compounds, which are known to the State of

California to cause cancer and birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.

3. SETUP

3.1 Initial Charging

Before first use, fully charge the battery. The battery is shipped with a low charge to prevent damage during transport. A compatible Toro Flex-Force battery charger (sold separately) is required for charging.

1. Connect the charger to a standard electrical outlet.
2. Slide the battery into the charger until it clicks into place.
3. Observe the charger's indicator lights for charging status. Refer to your charger's manual for specific light patterns.
4. Once fully charged, remove the battery from the charger.

Image 3.1: A Toro Flex-Force battery showing its integrated charge indicator lights. These LEDs provide a quick visual reference of the battery's current charge level.

4. OPERATING INSTRUCTIONS

4.1 Inserting the Battery into a Tool

Ensure the tool is turned off before inserting or removing the battery.

1. Align the battery with the battery port on your Toro Flex-Force 60V tool.
2. Slide the battery firmly into the port until you hear a click, indicating it is securely latched.

4.2 Removing the Battery from a Tool

Ensure the tool is turned off before inserting or removing the battery.

1. Locate the battery release button(s) on the tool or battery.
2. Press and hold the release button(s) while sliding the battery out of the tool.

4.3 Checking Battery Charge Level

The L135 battery is equipped with an on-board power meter. Press the button next to the LED indicators to display the current charge level:

- **4 LEDs lit:** Full charge (75-100%)
- **3 LEDs lit:** Good charge (50-75%)
- **2 LEDs lit:** Moderate charge (25-50%)
- **1 LED lit:** Low charge (0-25%), recharge soon

Image 4.1: The Toro Flex-Force battery system is designed for versatility, compatible with over 75 interchangeable tools. This image highlights the battery's ability to power a wide range of Toro outdoor equipment.

Image 4.2: This composite image demonstrates the broad compatibility of the Toro Flex-Force battery, showing it in use with a leaf blower, chainsaw, string trimmer, and lawn mower, all part of the 75+ tool ecosystem.

5. MAINTENANCE

5.1 Cleaning

Keep the battery and its terminals clean and free of debris. Use a clean, dry cloth to wipe down the battery. Do not use water or chemical cleaners.

5.2 Storage

For optimal battery life and safety, store the battery in a cool, dry place, away from direct sunlight and extreme temperatures. The ideal storage temperature is between 10°C and 25°C (50°F and 77°F).

- Store the battery with a partial charge (around 50% or 2-3 LEDs lit) if storing for extended periods.
- Avoid storing the battery in a completely discharged state, as this can lead to irreversible damage.
- Keep the battery away from metal objects that could short the terminals.

5.3 Battery Life

Lithium-ion batteries have a finite lifespan. Proper charging and storage practices can help maximize the battery's overall life cycle. Avoid extreme discharge and overcharging.

6. TROUBLESHOOTING

If you encounter issues with your Toro Flex-Force battery, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Battery not charging.	Charger not plugged in. Faulty charger. Battery too hot or too cold. Damaged battery.	Ensure charger is securely plugged into a working outlet. Test charger with another battery or check charger's indicator lights. Replace if faulty. Allow battery to reach room temperature (10°C - 40°C / 50°F - 104°F) before charging. If battery is visibly damaged or swollen, discontinue use and dispose of properly.
Battery not powering tool.	Battery not fully charged. Battery not properly inserted. Tool issue. Battery is at end of life.	Check battery charge level using the on-board power meter. Recharge if necessary. Ensure battery is fully seated and latched in the tool. Test the tool with another known-good battery. Refer to the tool's manual for troubleshooting. If battery no longer holds a charge or provides sufficient power, it may need replacement.
Battery LEDs not lighting up.	Battery completely discharged. Faulty battery.	Attempt to charge the battery. If it still doesn't respond, it may be deeply discharged or faulty. Contact Toro customer support if the battery does not respond to charging.

7. SPECIFICATIONS

Feature	Detail
Model Number	7006682
ASIN	B07VYLFJ9S
Battery Type	Lithium-Ion
Voltage	60-Volt Max
Capacity	2.5 Ah (Amp-hour)
Energy	135 Watt-hour
Item Weight	3.63 pounds

Feature	Detail
Recommended Uses	Outdoor power tools, including mowers, snow blowers, trimmers, and edgers

8. WARRANTY & SUPPORT

8.1 Warranty Information

Toro provides a limited warranty for its products. Specific warranty terms and conditions for the Flex-Force Power System L135 Battery are typically included with your product documentation at the time of purchase. Please refer to the warranty card or documentation provided in the product packaging for detailed information regarding coverage, duration, and claims procedures.

For the most current warranty information, or if you did not receive warranty documentation, please visit the official Toro website or contact Toro customer support directly.

8.2 Customer Support

For technical assistance, replacement parts, or any questions regarding your Toro Flex-Force Power System L135 Battery, please contact Toro customer support. You can find contact information and additional resources on the official Toro website:
