Logitech MX Master 3S

Logitech MX Master 3S Wireless Performance Mouse (Pale Grey) User Manual

Model: MX Master 3S (910-006560)

1. INTRODUCTION

This manual provides detailed instructions for setting up, operating, and maintaining your Logitech MX Master 3S Wireless Performance Mouse. Designed for precision and comfort, the MX Master 3S features advanced tracking, quiet clicks, and customizable controls to enhance your workflow across various operating systems.

Logitech MX Master 3S Wireless Performance Mouse in Pale Grey.

2. PRODUCT OVERVIEW

Familiarize yourself with the components of your MX Master 3S mouse.

IN THE BOX

Diagram of the Logitech MX Master 3S mouse with key features labeled.

1. **Quiet Click Buttons:** Left and Right click buttons with reduced noise.
2. **MagSpeed Wheel:** Main scroll wheel for fast, precise vertical scrolling.
3. **Thumb Wheel:** Side scroll wheel for horizontal scrolling.
4. **8K Track-Anywhere Sensor:** High-precision sensor located on the bottom, capable of tracking on virtually any surface, including glass (minimum 4mm thickness).
5. **Customizable Buttons:** Side buttons and a gesture button for personalized functions.
6. **Easy-Switch Buttons:** Located on the bottom, allows switching between up to three paired devices.

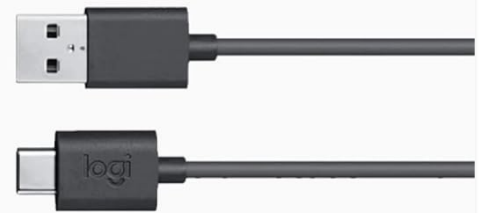

3. SETUP

3.1. Unboxing and Initial Charge

Your MX Master 3S package includes the mouse, a Logi Bolt USB receiver, and a USB-C charging cable.

Responsible
Packaging

Cable length: 1m

IN THE BOX

Contents of the Logitech MX Master 3S package, including the mouse, Logi Bolt USB receiver, and USB-C charging cable.

Before first use, it is recommended to fully charge the mouse using the provided USB-C cable. Connect the USB-C end to the mouse and the USB-A end to a power source (e.g., computer USB port or wall adapter). The LED indicator will show charging status.

3.2. Connecting Your Mouse

The MX Master 3S offers two connection methods: Bluetooth Low Energy or the Logi Bolt USB receiver.

3.2.1. Bluetooth Connection

1. Turn on the mouse using the power switch on the bottom.
2. Press and hold one of the Easy-Switch buttons (1, 2, or 3) on the bottom of the mouse until the LED blinks rapidly. This indicates pairing mode.
3. On your computer or device, open Bluetooth settings and select 'MX Master 3S' from the list of available devices to pair.
4. The LED on the mouse will glow solid for 5 seconds when connected.

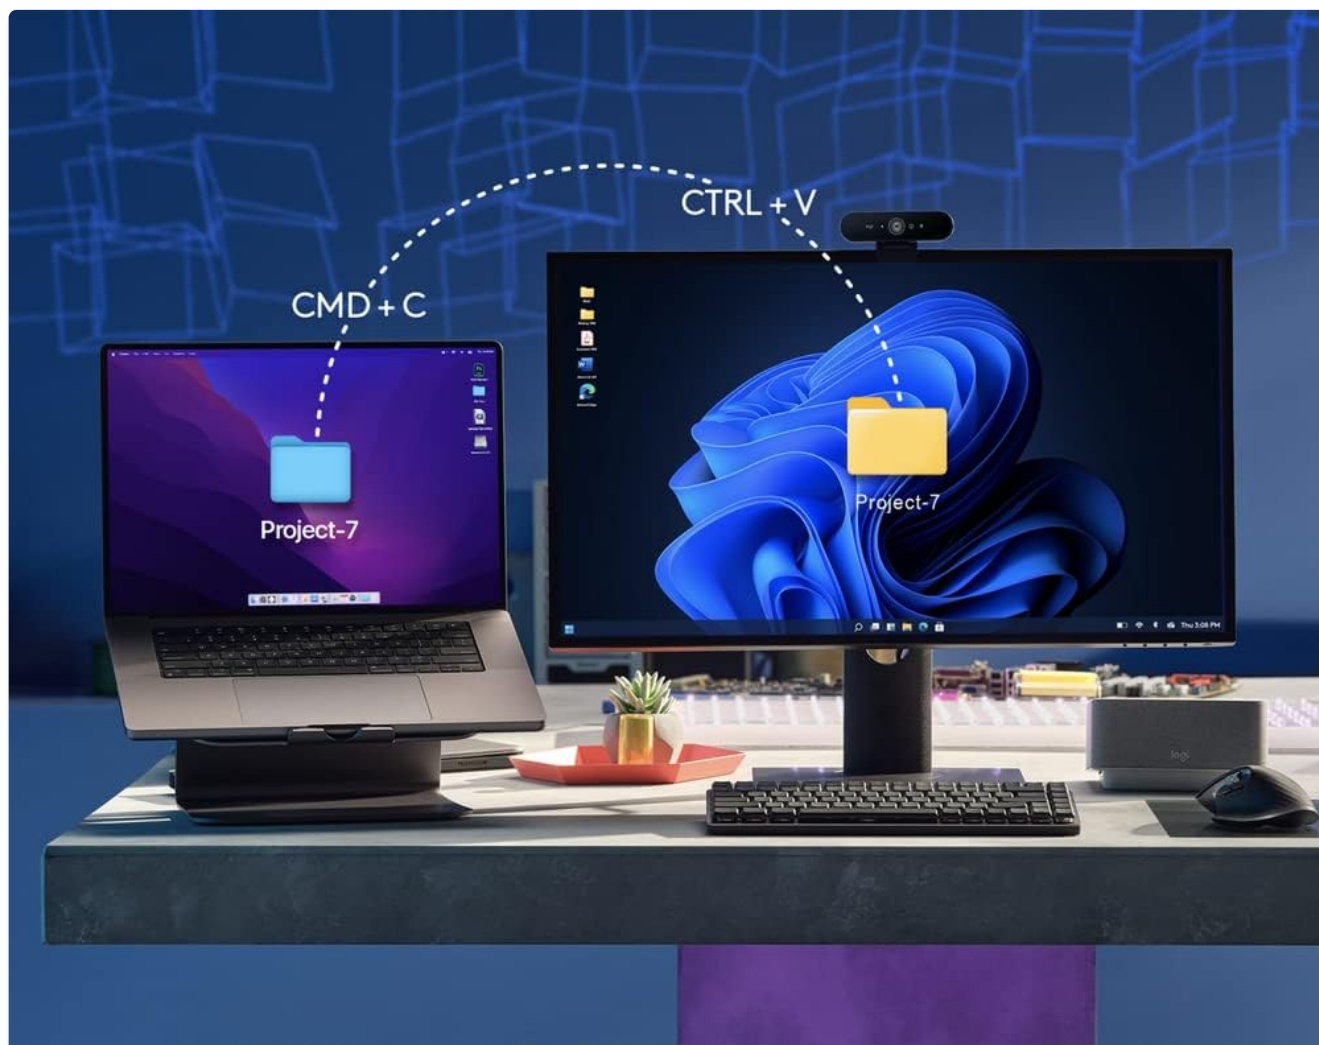

3.2.2. Logi Bolt USB Receiver Connection

1. Plug the Logi Bolt USB receiver into an available USB port on your computer.

2. Turn on the mouse using the power switch on the bottom.
3. The mouse should automatically connect to the receiver. If not, press one of the Easy-Switch buttons (1, 2, or 3) to select the channel associated with the receiver.

3.3. Installing Logi Options+ Software

To unlock the full potential of your MX Master 3S, including button customization, gesture controls, and application-specific settings, download and install the Logi Options+ software from the official Logitech website. This software is available for Windows and macOS.

**FLOW CURSOR, TEXT
AND FILES ACROSS OS**

A computer screen displaying the Logi Options+ software interface for customizing buttons and settings of the MX Master 3S mouse.

4. OPERATING INSTRUCTIONS

4.1. Key Features

- **8K DPI Any-Surface Tracking:** The Darkfield high-precision sensor allows you to use the mouse on virtually any surface, including glass (minimum 4mm thickness), with adjustable sensitivity up to 8000 DPI. This provides precise control for various tasks.

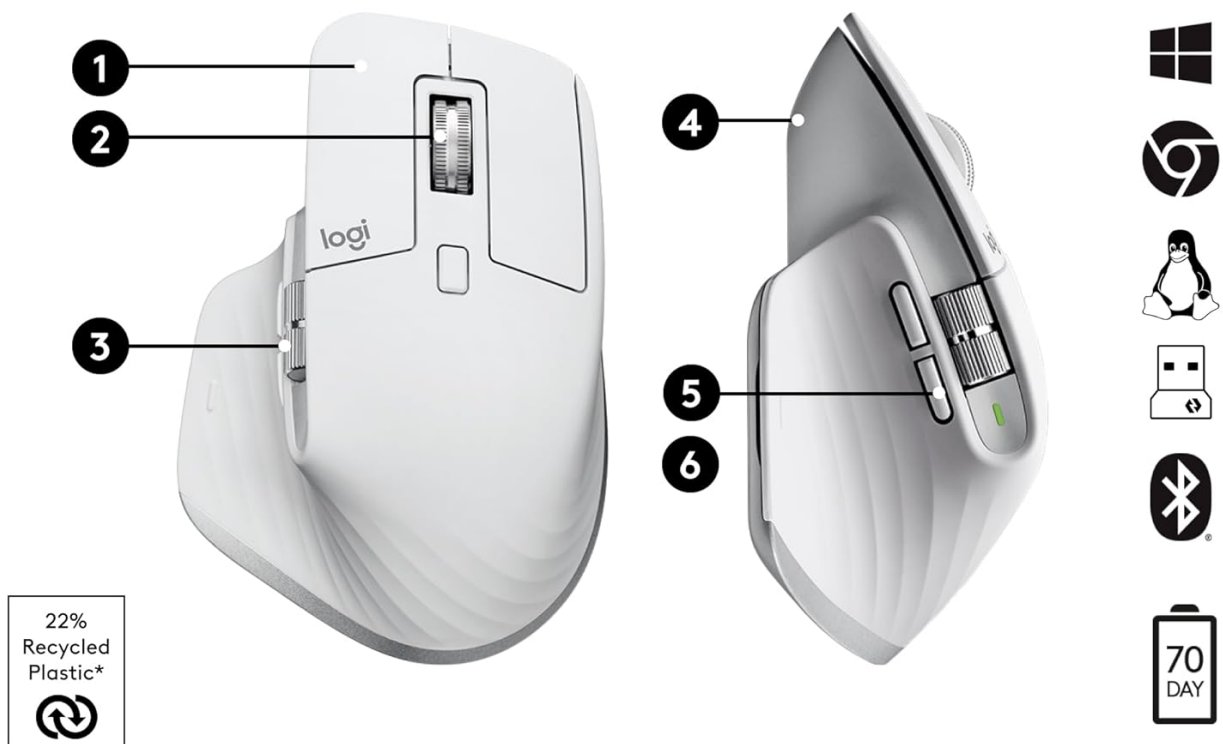

MAGSPEED SCROLLING 1,000 LINES PER SECOND

A hand operating the Logitech MX Master 3S mouse on a glass surface, demonstrating its any-surface tracking capability.

- **Quiet Clicks:** Experience the same satisfying click feel with 90% less click noise compared to the MX Master 3, ideal for quiet work environments.

Works with macOS & iPadOS

1. Quiet Click

2. MagSpeed wheel

3. Thumb wheel

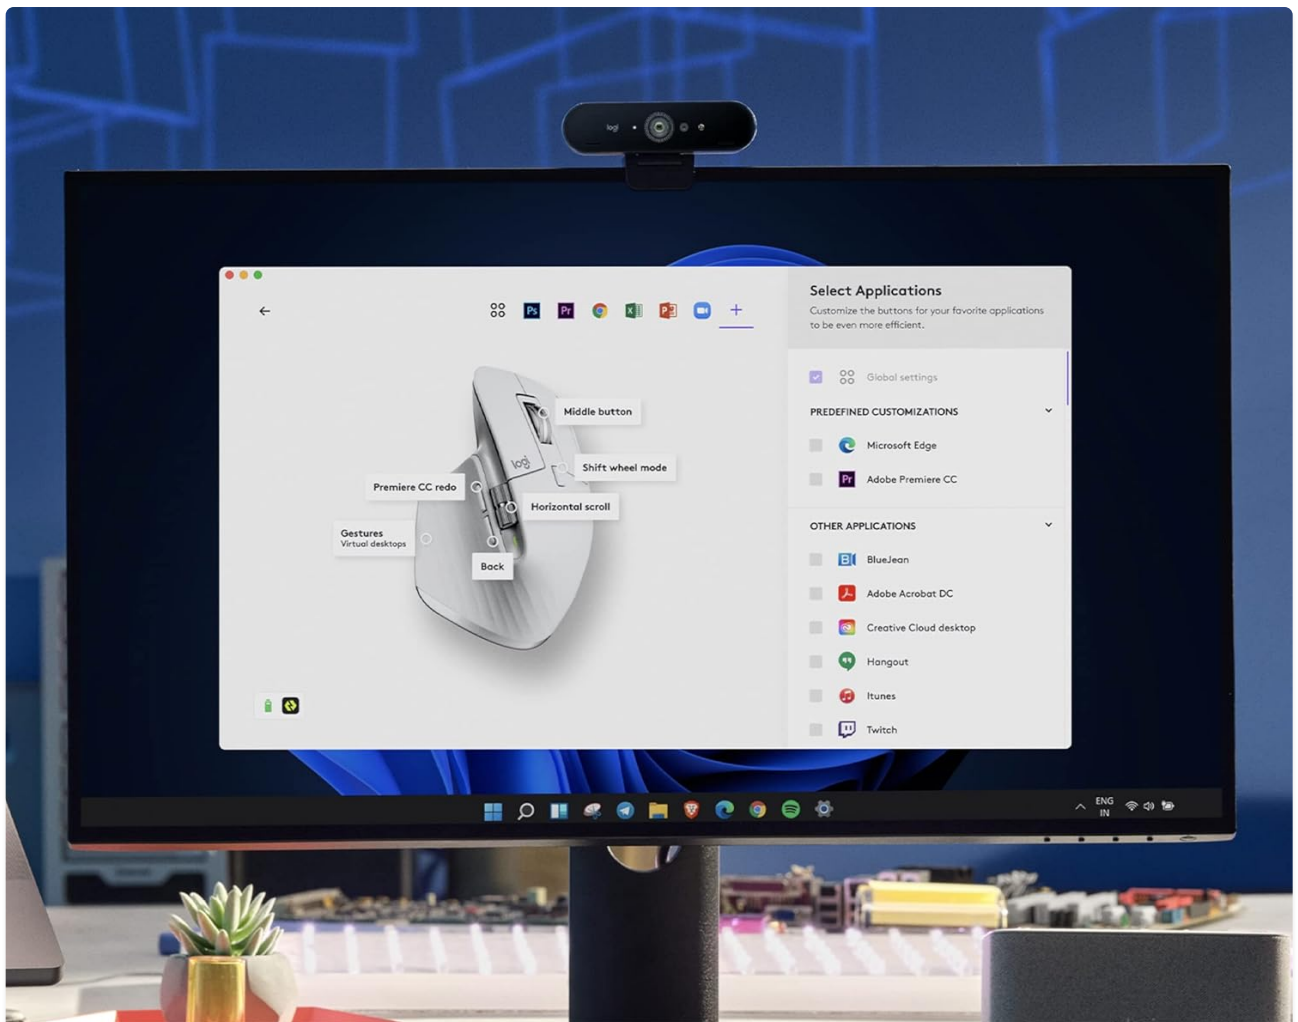

4. 8K track-anywhere sensor

5. Customizable buttons

6. Easy Switch buttons

A user working at a desk with the Logitech MX Master 3S mouse, illustrating its quiet click feature in a professional setting.

- **MagSpeed Electromagnetic Scrolling:** The main scroll wheel offers two modes: a super-fast, free-spinning mode for quickly navigating long documents (90% faster) and a precise, line-by-line mode (87% more precise). The wheel automatically shifts between modes based on scrolling speed.

APP-SPECIFIC CUSTOMIZATIONS VIA LOGI OPTIONS+

Close-up view of the MagSpeed electromagnetic scroll wheel and thumbwheel on the Logitech MX Master 3S mouse.

- **Ergonomic Design:** The mouse is sculpted to fit the contours of your hand, promoting a natural wrist posture and providing comfortable use during extended periods.
- **Logitech Flow:** When used with Logi Options+, Flow allows you to seamlessly control multiple computers with a single MX Master 3S mouse, moving your cursor, text, and files across different operating systems.

TEAM WITH MX MECHANICAL FOR ULTIMATE SETUP

A diagram showing the Logitech Flow feature, allowing seamless cursor, text, and file transfer between a laptop and a desktop computer.

4.2. Customization with Logi Options+

The Logi Options+ software allows you to:

- Assign custom functions to all buttons, including the gesture button and thumb wheel.
- Create application-specific profiles, so your mouse behaves differently in various programs (e.g., Photoshop, Chrome, Word).
- Adjust tracking speed (DPI) and scrolling sensitivity.
- Enable and configure Logitech Flow.

5. MAINTENANCE

5.1. Cleaning

To clean your mouse, use a soft, lint-free cloth lightly dampened with water or an alcohol-based cleaner. Avoid harsh chemicals or abrasive materials. Do not allow moisture to enter any openings.

5.2. Battery Care

The MX Master 3S uses a rechargeable Li-Po (500 mAh) battery. Battery life can vary based on usage and computing conditions. To maximize battery lifespan:

- Charge the mouse when the battery indicator is low.
- Avoid extreme temperatures.
- If storing the mouse for an extended period, charge it to about 50% before storage.

6. TROUBLESHOOTING

6.1. Connectivity Issues

- **Mouse not connecting:** Ensure the mouse is powered on and fully charged. If using Bluetooth, verify the Easy-Switch channel is in pairing mode (blinking LED) and your device's Bluetooth is enabled. If using the Logi Bolt receiver, ensure it is securely plugged in and the correct Easy-Switch channel is selected.
- **Intermittent connection:** Move the mouse closer to your computer or receiver. Avoid placing the receiver near other wireless devices or large metal objects that might cause interference.

6.2. Tracking Problems

- **Inaccurate tracking:** Clean the sensor lens on the bottom of the mouse with a soft cloth. Ensure the surface you are using is not excessively reflective or uneven. While the mouse tracks on glass, ensure the glass is at least 4mm thick.
- **No tracking:** Check if the mouse is powered on and connected. If the issue persists, try restarting your computer.

6.3. Button or Scroll Wheel Malfunction

- **Buttons not responding:** Ensure Logi Options+ is installed and updated. Check if any custom profiles are interfering with button functions. Try resetting the mouse by turning it off and on.
- **Scroll wheel issues:** Clean any debris around the scroll wheels. If the MagSpeed wheel is stuck in one mode, try toggling the mode-shift button (if configured in Logi Options+).

7. SPECIFICATIONS

Model Name	Logitech MX Master 3S Performance Wireless Mouse
Model Number	910-006560
Color	Pale Grey
Dimensions (H x W x D)	124.9 mm x 84.3 mm x 51 mm

Getting Started - MX Master 3S

DETAILED SETUP

1. Make sure the mouse is turned on.

The number 1 LED under the mouse should be blinking fast. If it's not, the LED is not blinking fast, the charge level is low.

2. Choose how you want to connect.

• Use the included USB-B to USB-A cable to connect the mouse to a USB port on your computer.

• Connect directly via Bluetooth.

Open the Bluetooth settings on your computer to complete the pairing. Click here for more details on how to do this on your computer. If you experience issues with Bluetooth, click here for Bluetooth troubleshooting.

3. Install Logitech Options+ Software.

Download the Logitech Options+ version to use all the possibilities this mouse has to offer. To download and learn more about the possibilities, click here.

PAIR TO A SECOND COMPUTER WITH EASY-SWITCH

Your mouse can be paired with up to three different computers using the easy-switch function to change the channel.

1. A short press on the Easy-Switch button will allow you to switch channels. Select the channel you want and go to the next step.

2. Press and hold the Easy-Switch button for 3 seconds. This will put the mouse in discoverable mode so that it can be seen by your computer. The LED will start blinking fast.

3. Choose between two ways to connect your keyboard to your computer.

• Bluetooth: Open the Bluetooth settings on your computer to complete the pairing. You can find more details here.

• USB receiver: Plug the receiver into a USB port, open Logitech Options+, and select Add device -> Setup Logi Bolt device, and follow the instructions.

[illegible][illegible]

MX MASTER 3S for Business

Performance Wireless Mouse

Our best mouse, upgraded for enhanced productivity and comfort.

The HP Master 35 for Business is our premier offering with significant upgrades for both TCOs and users. For busy IT departments, it offers more security and better compliance. Legit Red addresses rising security needs with fully encrypted Secure Connections. Only made for Windows, it's the most secure and easiest way to connect wireless PCs to networks. And it's certified in 100 countries with support for 110 languages. For users, its 8000 DPI "Durable" tracking mouse works on high-resolution monitors, faster and more accurate—even on glass. "MagSpeed" Scrolling zips down 1000 lines of code or spreadsheet cells in just a second. Or with line-by-line precision in 8-segmented design, lets you zoom in and out of documents. The "Grip" makes the hard for all-day comfort. It's also 90% quiet with Quiet Click technology for less distraction and better focus for everyone.

- Enhanced wireless security with Logi Bolt USB receiver
- Remotely deploy and manage in mass device firmware updates (DFU) and Logitech's star workflow and productivity software Logi Options+. Define software settings centrally. Push to Windows and macOS systems*
- Quiet Click feature makes this a pleasant mouse
- Speed and precision upgrade with 8000 DPI tracking for high-resolution monitors
- Multi-pool Wheel scrolling, up to 1000 lines per second or precision line-by-line mode
- 7 customizable buttons plus predefined profiles for popular business apps via Logi Options+ software

Getting Started - MX Master 3S for Mac

DETAILED SETUP

1. Make sure the mouse is turned on.
The number 1 LED under the mouse should be blinking fast.
NOTE: If the LED is not blinking fast, do a long press of 3 seconds.
2. Choose how you want to connect:
 - **Connect directly via Bluetooth**
Open the Bluetooth settings on your computer to complete the pairing.
Click [here](#) for more details on how to do this on your computer. If you experience issues with Bluetooth, click [here](#) for Bluetooth troubleshooting.
3. Install Logitech Options Software.
Download the Logitech Options version to see all the possibilities this mouse has to offer. To download and learn more about the possibilities, click [here](#).

PAIR TO A SECOND COMPUTER WITH EASY-SWITCH

Your mouse can be paired with up to three different computers using the easy-switch button to change the channel.

1. A short press on the Easy-Switch button will allow you to switch channels. Select the channel you want and go to the next step.
2. Press and hold the Easy-Switch button for 3 seconds. This will put the mouse in discoverable mode so that it can be seen by your computer. The LED will start blinking fast.
3. Choose between two ways to connect your keyboard to your computer:
 - **Bluetooth**: Open the Bluetooth settings on your computer to complete the pairing. You can find more details [here](#).
 - **USB receiver**: Plug the receiver to a USB port, open Logitech Options, and select **Add devices** > **Setup Logi Bolt device**, and follow the instructions.
