6. MAINTENANCE AND CARE

To ensure the longevity and appearance of your Bonnlo Nightstands, follow these care guidelines:

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these can damage the finish.
- **Spills:** The nightstand is stain resistant. Promptly wipe up any spills to prevent potential staining or damage to the wood finish.
- **Protection:** Use coasters under drinks and protective pads under hot items to prevent marks on the tabletop.
- **Stability Check:** Periodically check all screws and connections to ensure they remain tight. Re-tighten if necessary.

7. TROUBLESHOOTING

If you encounter any issues with your Bonnlo Nightstands, refer to the following common solutions:

- **Wobbly or Unstable:** Ensure all screws and cam locks are fully tightened. If the issue persists, disassemble and reassemble, paying close attention to aligning all parts correctly. Uneven floors may also cause wobbling; adjust the floor protection pads or use shims if needed.
- **Drawer Not Sliding Smoothly:** Check that the ball bearing slides are installed correctly and are free of obstructions. Ensure the drawer box is assembled squarely. Lubrication of the slides with a silicone-based spray can improve movement.
- **Missing or Damaged Parts:** If you find any parts missing or damaged upon opening the package, do not proceed with assembly. Contact Bonnlo customer support immediately for replacements.
- **Difficulty with Screws/Hardware:** If a screw does not fit or strips easily, ensure you are using the correct screw for the designated hole. Do not overtighten screws. If hardware is defective, contact customer support.
