SAFETY INFORMATION

For safe and optimal use of your device, please observe the following:

- Do not expose the device to extreme temperatures.
- Keep the device away from other wireless devices to avoid interference.
- Handle the battery with care to prevent damage or leakage.

SETUP

1. Initial Charging

Before using the Bluetooth speaker for the first time, ensure it is fully charged. Connect the provided USB charging cable to the device's charging port and a compatible USB power source. The charging indicator light will typically show red during charging and turn off or change color when fully charged. Allow sufficient time for a complete charge.

2. Power On/Off

- **Power On:** Press and hold the main power button (usually the central button) for a few seconds until you hear a voice prompt or see the indicator light flash.

- **Power Off:** Press and hold the main power button again for a few seconds until you hear a voice prompt indicating power off. The device will automatically turn off after 5 minutes of disconnection from your phone to save power.

3. Bluetooth Pairing

To connect your speakerphone to your mobile device:

1. Ensure the speakerphone is powered on and in pairing mode (indicator light usually flashes blue rapidly).
2. On your mobile phone, go to Bluetooth settings and enable Bluetooth.
3. Search for available devices. The speakerphone should appear as "NETVIP" or a similar name.
4. Select the device name to pair. Once successfully paired, you will hear a confirmation voice prompt, and the indicator light will typically slow its flashing or turn solid blue.
5. The speakerphone will automatically reconnect to the last paired device when powered on and within range.

4. Mounting

The speakerphone comes with a durable magnetic back clip for easy installation:

- Attach the magnetic back clip to your car's sun visor.
- The speakerphone can then be easily attached to or removed from the magnetic clip without detaching the clip from the visor.

Figure 3: Speakerphone attached to a car sun visor using the magnetic clip.

OPERATING INSTRUCTIONS

1. Call Management

- **Answer Call:** Press the main call button (usually the phone icon) once.
- **End Call:** Press the main call button once during an active call.
- **Reject Call:** Press and hold the main call button for 2 seconds when a call comes in.
- **Redial Last Number:** Double-press the main call button.

2. Music Playback

- **Play/Pause:** Press the main call button once during music playback.
- **Volume Up:** Press the "+" button.
- **Volume Down:** Press the "-" button.
- **Next Track:** Press and hold the "+" button.
- **Previous Track:** Press and hold the "-" button.

Excellent Sound Quality

Figure 4: The speakerphone delivers excellent sound quality for calls and music.

3. Voice Assistant (Siri/Google Assistant)

Activate your phone's voice assistant for hands-free control:

- Double-click the "M" button to activate Siri or Google Assistant on your connected phone.
- You can then use voice commands for navigation, making calls, sending messages, and more.

Siri & Google Assistant Approved

Supports voice commands to ensure safe driving

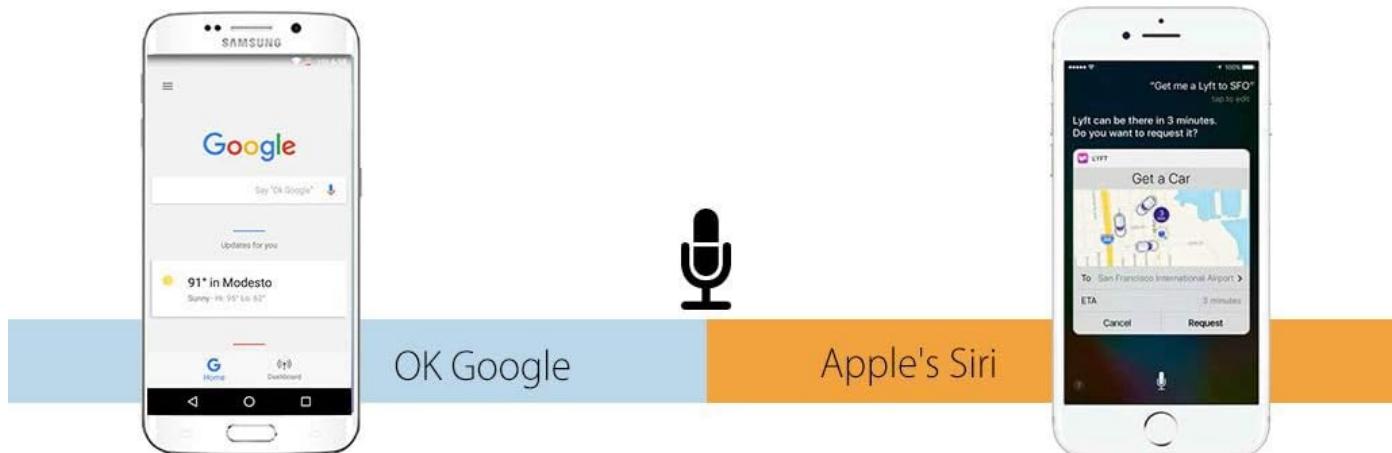

Figure 5: Voice assistant integration for safe driving.

4. TF Card Playback

The speakerphone supports music playback directly from a TF (MicroSD) card:

- Insert a TF card with your desired music files into the designated TF card slot on the device.
- The device will automatically switch to TF card playback mode.

5. Connect 2 Phones Simultaneously

The speakerphone can connect to two mobile phones at the same time:

- Pair the first phone via Bluetooth as described in the "Bluetooth Pairing" section.
- Once the first phone is connected, put the speakerphone back into pairing mode (refer to the manual for specific steps if needed, usually by holding the main button until it flashes rapidly again).
- Pair the second phone.
- The speakerphone will manage calls and audio from both devices, prioritizing incoming calls.

Connect 2 PHONES Simultaneously

Figure 6: Simultaneous connection of two phones to the speakerphone.

MAINTENANCE

To ensure the longevity and optimal performance of your NETVIP Bluetooth Speakerphone, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to wipe the device. Avoid using abrasive cleaners, solvents, or strong chemicals, as they may damage the surface or internal components.
- **Storage:** Store the device in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** To preserve battery life, avoid fully discharging the battery frequently. If the device will not be used for an extended period, charge it to about 50% before storing and recharge it every few months. Avoid exposing the device to high heat, as this can degrade battery performance over time.
- **Physical Damage:** Protect the device from drops, impacts, and excessive force, which can cause internal or external damage.

TROUBLESHOOTING

If you encounter issues with your speakerphone, please refer to the following common solutions:

Problem	Possible Cause	Solution
Device does not turn on / No sound	Low battery; Power button not pressed correctly; Device malfunction.	Charge the device fully. Press and hold the power button firmly for several seconds. If the issue persists after charging, contact support.
Cannot pair with phone	Bluetooth not enabled on phone; Device not in pairing mode; Interference.	Ensure Bluetooth is on and visible on your phone. Put the speakerphone into pairing mode. Move closer to the device and away from other wireless devices. Try restarting both devices.
Poor sound quality / Echo / Noise	Phone too close to speaker; Environmental noise; Weak Bluetooth connection.	Keep your phone a reasonable distance from the speakerphone (e.g., not directly on top of it). Ensure you are in a quieter environment. Check Bluetooth connection stability.
Battery not holding charge	Battery degradation; Exposure to extreme temperatures.	Ensure you are using the correct charging cable and adapter. Avoid leaving the device in hot environments (e.g., direct sunlight in a car). Battery life naturally decreases over time.

SPECIFICATIONS

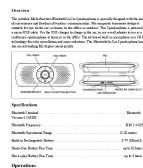

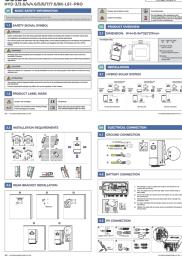

Product Dimensions	5.31 x 1.97 x 0.98 inches
Item Weight	5.7 ounces (163 Grams)
Model Number	US-T826-LS1
Batteries	1 Lithium Polymer battery required
Connectivity Technology	Bluetooth, USB
Power Source	Battery Powered
Special Feature	Bluetooth Speakerphone for Car
Manufacturer	NETVIP
Country of Origin	China
Date First Available	August 7, 2019
