2. Setup

2.1 Battery Installation

The remote control requires batteries for operation. Batteries are not included with the remote control and must be purchased separately. Typically, two AAA batteries are required.

1. Locate the battery compartment on the back of the remote control.
2. Slide the battery compartment cover downwards or in the direction indicated by an arrow to open it.
3. Insert two new AAA batteries, ensuring the positive (+) and negative (-) terminals align correctly with the

markings inside the compartment.

- Slide the battery compartment cover back into place until it clicks securely.

Note: Remove batteries if the remote control will not be used for an extended period to prevent leakage.

3. Operating Instructions

Point the remote control directly at the air conditioner's receiver when operating. Ensure there are no obstructions between the remote and the unit.

iFeel	Enables the remote to sense the ambient temperature at its location and adjust the air conditioner accordingly.
HEALTH	Activates health-related functions, such as air purification or ionizer.
SLEEP	Adjusts settings for comfortable sleep, often by gradually increasing temperature and reducing fan speed.
iClean	Initiates a self-cleaning function for the indoor unit.
Anti-FUNGUS	Activates a function to prevent mold and mildew growth within the air conditioner.
DISPLAY	Controls the display on the air conditioner unit, often turning it on or off.

4. Maintenance

4.1 Cleaning the Remote Control

To maintain the remote control's appearance and functionality:

- Wipe the surface with a soft, dry cloth.

- Do not use liquid cleaners, sprays, or abrasive materials, as these can damage the remote.

4.2 Battery Replacement

Replace batteries when the remote control's range decreases or the display becomes dim. Refer to Section 2.1 for battery installation instructions.

5. Troubleshooting

Problem	Possible Cause	Solution
Remote control not working.	Dead or incorrectly installed batteries.	Replace batteries, ensuring correct polarity.
	Obstruction between remote and AC unit.	Ensure a clear line of sight to the air conditioner's receiver.
	Remote control is too far from the AC unit.	Move closer to the air conditioner.
AC unit does not respond to commands.	Incompatibility with the specific AC model.	Verify that your air conditioner model is compatible with the YKR-P/002E remote. This remote is designed for AUX Air Conditioners.
