Zinus AJ-MBBF-6SD

ZINUS Joseph Metal Platform Bed Frame 6in Semi-Double

Model: AJ-MBBF-6SD | **Brand:** Zinus

INTRODUCTION

Welcome to the ZINUS Joseph Metal Platform Bed Frame 6in Semi-Double instruction manual. This manual provides essential information for the safe and correct assembly, operation, and maintenance of your new bed frame. Please read these instructions carefully before beginning assembly and retain them for future reference.

SETUP AND ASSEMBLY

Your ZINUS Joseph Metal Platform Bed Frame is designed for easy assembly. All necessary tools are included. We recommend two or more adults for assembly to ensure safety and efficiency. Please ensure you have sufficient space and protect your floor with a mat or blanket during assembly. Note that some screw parts may be pre-attached to the main unit; please verify this before starting.

- **Assembly Time:** Approximately 15-30 minutes (with 2 or more adults).

- **Tools:** All required assembly tools are included in the package.
- **Pre-attached Parts:** Some screw parts may be pre-attached to the frame. Check all components before assembly.

Image: This image displays all the components of the bed frame neatly arranged, along with the compact cardboard box they are shipped in. The text on the image highlights "Compact Packaging" and that all parts are included in one box.

OPERATING INSTRUCTIONS AND SAFETY WARNINGS

To ensure the longevity and proper function of your ZINUS Joseph Metal Platform Bed Frame, please adhere to the following guidelines:

- **Mattress Thickness:** Always use a mattress with a thickness of 15cm (approximately 6 inches) or more. Using a thinner mattress may compromise the bed frame's support and durability.
- **Futon Use:** Do not use a futon directly on the bed frame slats. Direct pressure on the slats from a

futon may lead to damage to the bed frame.

- **Weight Distribution:** Avoid jumping on the bed frame or concentrating weight on a single point, as this can cause damage to the frame or slats.
- **Intended Use:** This product is designed for household furniture purposes. Do not use it for purposes other than its intended use to prevent unexpected accidents or injuries.

MAINTENANCE

To keep your ZINUS Joseph Metal Platform Bed Frame in optimal condition:

- **Cleaning:** Wipe the frame dry with a soft cloth as needed to remove dust and debris. Avoid using harsh chemicals or abrasive cleaners.
- **Tighten Connections:** Periodically check all bolts and connections to ensure they remain tight. Retighten if necessary to maintain stability and prevent squeaking.

- **Slat Inspection:** Ensure the wooden slats are properly seated and not damaged. The slats are designed with silent tape to prevent squeaking.

TROUBLESHOOTING

If you encounter any issues with your bed frame, please refer to the following common solutions:

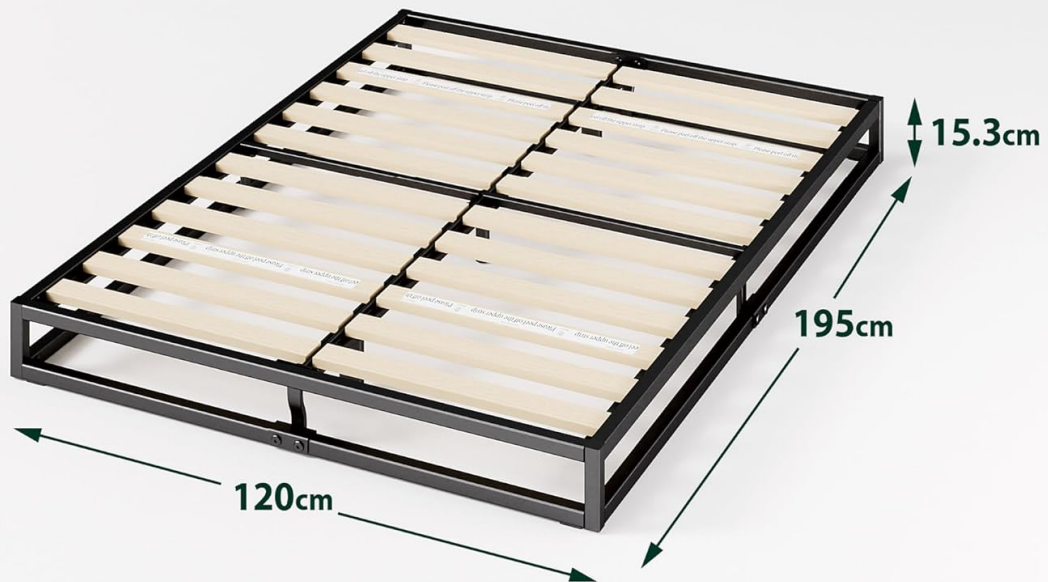

- **Squeaking Noises:** Check all bolts and ensure they are securely tightened. Verify that the wooden slats are correctly positioned and the silent tape is intact. If squeaking persists, disassemble and reassemble, ensuring all parts are aligned.
- **Assembly Difficulties / Misaligned Parts:** If a screw does not fit easily, double-check the part numbers and orientation. Do not force screws. If parts are significantly misaligned or defective, please contact customer support.
- **Unstable Frame:** Ensure the bed frame is assembled on a flat, level surface. Recheck all connections for tightness.

SPECIFICATIONS
