4. SETUP AND ASSEMBLY INSTRUCTIONS

The SoBuy BZR13-W cabinet requires self-assembly. Detailed, step-by-step instructions are provided in a separate manual included with your product. Please follow these instructions carefully to ensure correct and safe assembly.

General Assembly Tips:

- **Prepare your workspace:** Clear a spacious, clean, and flat area for assembly.
- **Identify all parts:** Lay out all panels and hardware and compare them against the parts list.
- **Tools required:** Typically, a screwdriver (Phillips head) and possibly a hammer are needed.
- **Follow the sequence:** Adhere strictly to the numbered steps in the assembly manual.
- **Do not overtighten:** Tighten screws firmly but avoid overtightening, which can strip threads or damage the wood.
- **Two-person assembly:** For easier and safer assembly, especially when handling larger panels, consider having a second person assist.

5. OPERATING AND USAGE

Once assembled, the SoBuy BZR13-W cabinet is ready for use. It offers both open and concealed storage options.

- **Open Shelves:** The two upper shelves are ideal for displaying decorative items, frequently used toiletries, or neatly folded towels.
- **Lower Cabinet:** The lower section features two louvered doors that open to reveal an internal storage space with an adjustable shelf. This allows you to customize the storage height for taller bottles or other items.
- **Adjustable Shelf:** To adjust the internal shelf, remove any items, lift the shelf, and reposition the shelf pins into the desired holes on the cabinet sides. Ensure the shelf is level and securely seated on all four pins before placing items on it.
- **Weight Distribution:** Always distribute weight evenly across shelves and within the cabinet to maintain stability. Do not exceed the maximum load capacity of 45 kg (99 lbs).

6. MAINTENANCE AND CARE

To ensure the longevity and appearance of your SoBuy BZR13-W Bathroom Cabinet, follow these care guidelines:

- **Cleaning:** Wipe surfaces with a soft, damp cloth. For stubborn marks, use a mild, non-abrasive cleaner. Dry immediately with a clean cloth to prevent water damage.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, solvents, or ammonia-based products, as these can damage the white lacquer finish.
- **Moisture Protection:** While designed for bathrooms, avoid prolonged exposure to standing water or excessive humidity. Promptly wipe up any spills.
- **Hardware Check:** Periodically check all screws, hinges, and shelf pins to ensure they remain tight. Re-tighten as needed to maintain structural integrity.
- **Sunlight Exposure:** Avoid placing the cabinet in direct sunlight for extended periods, as this can cause discoloration or material degradation over time.

7. TROUBLESHOOTING

Common Issues and Solutions:

- **Cabinet feels wobbly:**
 - Ensure all assembly screws are fully tightened.
 - Verify the cabinet is placed on a level surface. Use shims if necessary to stabilize.
- **Doors do not align or close properly:**
 - Check that hinges are correctly installed and tightened. Most hinges allow for minor adjustments using a screwdriver.
 - Ensure the cabinet frame is square. Loosen and re-tighten screws if needed to adjust alignment.
- **Shelf is not stable:**
 - Ensure all four shelf pins are fully inserted into the corresponding holes and the shelf rests evenly on them.
 - Do not exceed the weight limit for the shelf.
