› PawHut Elevated Pet Bed Instruction Manual (Model D04-069CF)

## Pawhut D04-069CF

# PawHut Elevated Pet Bed Instruction Manual

Model: D04-069CF

## INTRODUCTION

This manual provides instructions for the assembly, operation, and maintenance of your PawHut Elevated Pet Bed, Model D04-069CF. This elevated bed is designed to provide a comfortable and well-ventilated resting space for your pet, suitable for both indoor and outdoor use. Please read these instructions carefully before assembly and use.

## SAFETY INFORMATION

- Ensure all parts are securely assembled before allowing your pet to use the bed.
- Do not exceed the maximum recommended weight capacity of 50 kg (110 lbs).
- Regularly inspect the bed for any signs of wear or damage. Discontinue use if any components are compromised.
- Keep small parts away from children and pets during assembly.
- Place the bed on a flat, stable surface to prevent tipping.

## PACKAGE CONTENTS

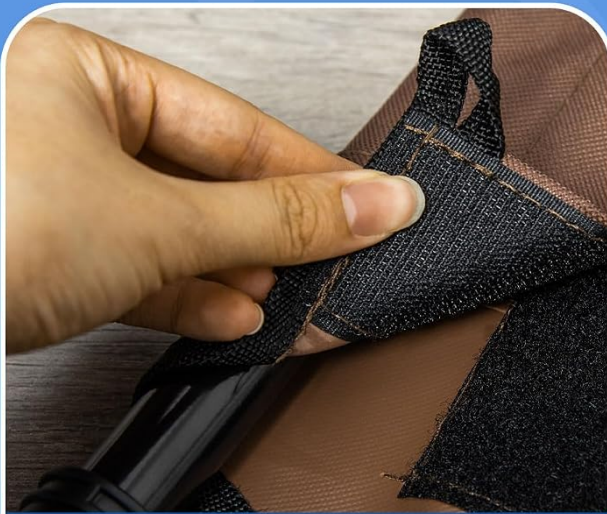

Please verify that all components are present before beginning assembly. While a detailed list is not provided, typical components for this type of elevated pet bed include:

- Frame sections (alloy steel tubes)
- Fabric bed surface (Textilene mesh with Oxford fabric border)
- Connecting joints/fittings
- Non-slip feet
- Assembly hardware (screws, bolts, if applicable)

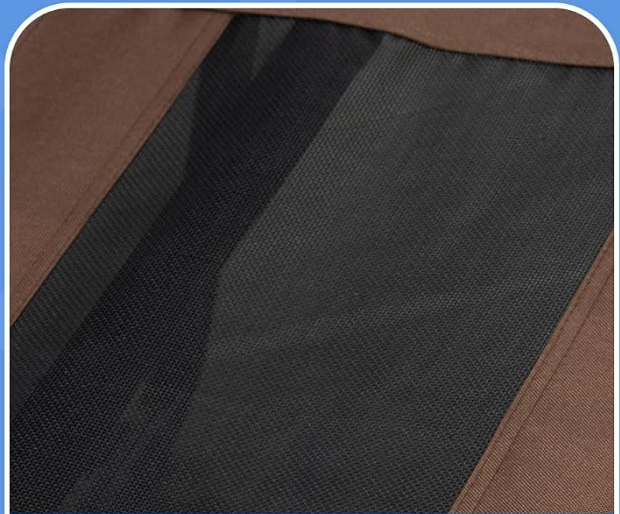

## SETUP AND ASSEMBLY

Assembly is generally straightforward. Follow these general steps:

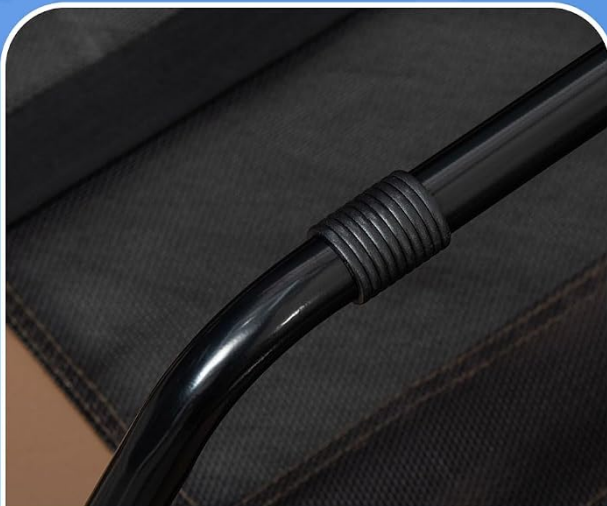

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, flat surface.
2. **Assemble Frame:** Connect the alloy steel frame sections using the provided joints/fittings. Ensure all connections are secure.
3. **Attach Fabric:** Slide the fabric bed surface onto the assembled frame. This step may require some effort to stretch the fabric taut for a secure fit. The fabric is designed to be tight to provide proper support.
4. **Install Non-Slip Feet:** Attach the non-slip feet to the bottom of the frame legs.
5. **Final Check:** Verify that all connections are tight and the bed is stable before use.

## OPERATING INSTRUCTIONS

---

The PawHut Elevated Pet Bed is designed for simple and effective use.

- **Placement:** Position the bed in a desired indoor or outdoor location. The elevated design keeps your pet off damp ground and away from insects, providing optimal comfort.
- **Ventilation:** The micro-perforated Textilene fabric ensures excellent airflow, keeping your pet cool and comfortable, especially in warm weather.
- **Portability:** The lightweight design allows for easy relocation as needed.
- **Stackability:** For storage, multiple beds can be stacked (if applicable to your model and quantity).

## MAINTENANCE

Maintaining your PawHut Elevated Pet Bed is simple due to its durable and easy-to-clean materials.

- **Cleaning:** The Oxford fabric border with PVC coating and Textilene mesh are easy to clean. Wipe down with a damp cloth and mild soap as needed. For pet hair, a lint roller or brush can be used.
- **Drying:** Allow the bed to air dry completely before storage or next use to prevent mildew.
- **Frame Care:** The anti-corrosion epoxy metal frame is designed for longevity. Wipe clean as needed.
- **Inspection:** Periodically check all frame connections and the fabric for any tears or damage.

## TROUBLESHOOTING

- **Bed feels unstable:** Ensure all frame connections are fully engaged and tightened. Check that the bed is placed on a level surface.
- **Fabric appears loose:** During initial assembly, the fabric may require significant stretching to fit tightly. Over time, it may slightly relax. If it becomes too loose, re-check frame connections.
- **Pet not using the bed:** Introduce your pet to the bed gradually. Place familiar toys or blankets on it. Some pets may take time to adjust to an elevated sleeping surface.
