Casper FN00000063

Casper Queen Mattress Foundation

MODEL: FN00000063

Manufacturer: Casper Sleep

Introduction

The Casper Queen Mattress Foundation is engineered to provide optimal support for your Casper mattress, enhancing its comfort and longevity. Designed for quick and tool-free assembly, this foundation features solid wood construction and perfectly spaced slats to ensure consistent support. Its modular design also allows for easy disassembly, making it convenient for moving or navigating tight spaces.

Safety Guidelines

Please read and follow these safety guidelines to ensure safe use and prevent injury or damage to the product.

- **Weight Limit:** Do not load more than 700 pounds on the foundation. This includes the weight of the mattress and all occupants.
- **Assembly:** Assemble carefully to prevent instability. Ensure all connections are secure before placing a mattress on top.
- **Placement:** Do not place the foundation directly on the floor without a proper bed frame or support system, unless it is designed for such use.
- **Children and Pets:** Keep small children and pets away from components during assembly to prevent choking hazards or injury.

Package Contents

Verify that all components are present before beginning assembly:

- 1x - Center Support Beam

- 2x - End Rails
- 2x - Foundation Support Slats / Box Spring Support Slats
- 2x - Side Rails
- 4x - Corner Pins

Setup and Assembly

The Casper Queen Mattress Foundation is designed for quick and easy assembly without the need for any tools. Follow these steps:

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, flat surface. Ensure all listed components are present.
2. **Arrange Rails:** Position the two side rails and two end rails to form a rectangular frame. Ensure the 'UP' arrows on the rails are pointing upwards.
3. **Connect Corners:** Align the joints in all four corners of the frame. Push the corner pieces firmly together. Insert a corner pin into each of the four joints to secure the frame. A rubber mallet can be used for a snug fit if needed.

4. **Install Center Support Beam:** For Queen size foundations, align the center support beam with the designated slots on the end rails. Push the beam down firmly into place until it is securely seated.
5. **Unroll Support Slats:** Place the two sets of support slats onto the assembled frame. Unroll them towards the center, ensuring they lay flat and are evenly distributed across the frame. The slats are perfectly spaced at four inches apart for optimal mattress support.

Usage Guidelines

Once assembled, place your Casper Queen mattress directly on the foundation. Ensure the mattress is centered and evenly distributed over the slats. The foundation is designed to work with standard bed frames, metal bed frames, slatted bed frames, or platforms, providing a stable and supportive base for your mattress.

Care and Maintenance

To maintain the cleanliness and appearance of your Casper Queen Mattress Foundation, wipe the upholstered exterior with a damp cloth as needed. Avoid using harsh chemicals, abrasive cleaners, or excessive moisture, as these can damage the fabric and wood components.

Troubleshooting

If you encounter any issues with your Casper Queen Mattress Foundation, consider the following:

Instability or Squeaking

- **Check Connections:** Ensure all corner pins and the center support beam are fully inserted and securely in place. Re-press or gently tap with a rubber mallet if any connections feel loose.
- **Even Placement:** Verify that the foundation is placed on a flat, level surface. Uneven surfaces can cause stress on the frame and lead to instability or noise.
- **Weight Distribution:** Ensure the mattress is centered on the foundation and weight is evenly distributed.

Product Specifications

Size	Queen
Material	Wood
Product Dimensions (L x W x H)	76.7" x 60.2" x 7.3"
Style	Foundation
Color	Grey
Maximum Weight Recommendation	700 Pounds
Required Assembly	Yes (No tools required)
Manufacturer Part Number	FN00000063
UPC	192472004799
