### Pipishell PIMF2

# Pipishell Full Motion TV Wall Mount Instruction Manual

Model: PIMF2

## PRODUCT OVERVIEW

The Pipishell Full Motion TV Wall Mount (Model PIMF2) is designed to provide a versatile and secure mounting solution for your television. Constructed from premium alloy steel, this bracket offers robust support and a wide range of motion to optimize your viewing experience.

Figure 1: Pipishell Full Motion TV Wall Mount (PIMF2)

### Key Features:

- **Universal Compatibility:** Supports most 26-55 inch LED, LCD, Flat, and Curved Screen TVs with VESA patterns from 75x75mm to 400x400mm. Maximum weight capacity of 66 lbs.
- **Flexible Viewing Angles:** Allows for a 50 upward and 150 downward tilt to reduce glare, and 900 left or right swivel (maximum angle depends on TV size).
- **Adjustable Extension:** Extends up to 17 inches from the wall and retracts back to a slim 2.2 inches.
- **Robust Construction:** Made with premium steel materials and ultra-strong articulating arms, stress-tested to ensure stability and reliability.
- **Easy Installation:** Comes with complete hardware and a detailed graphical installation guide for a hassle-free setup.

### SETUP AND INSTALLATION

Before beginning installation, ensure you have all necessary tools and components. It is recommended to have a second person assist with mounting the TV.

## 1. Check Wall Type and VESA Compatibility

This TV wall mount can be installed on single wood stud walls or solid concrete/brick walls. **Do NOT mount to drywall alone.**

## Diverse Wall Compatibility

- On single wood stud
- On solid concrete/ brick wall (anchors included)

Wood studs

Concrete wall

Brick wall

**(DO NOT mount to dry wall alone!)**

Figure 2: Wall compatibility (Wood Stud, Concrete, Brick). Drywall only is not supported.

Verify your TV's VESA pattern (the four mounting holes on the back of your TV) falls within the supported range of 75x75mm to 400x400mm. The mount includes extender brackets for various VESA ranges.

# Compatible with Multiple VESA Pattern

NOTE: VESA = Horizontal x Vertical (the four holes on the back of the TV)

Figure 3: VESA pattern examples and compatible sizes.

## 2. Attaching Brackets to TV

Secure the TV brackets to the back of your television using the provided screws and washers. Ensure the brackets are aligned correctly with the VESA holes.

Your browser does not support the video tag.

Video 1: Official Pipishell video demonstrating the attachment of the TV mount to a single stud and the TV. This video shows the full motion capabilities and ease of installation.

The mount is designed for single stud installation, which simplifies the process while maintaining strength.

## Details Design of Important Part

Single stud installation  
more labor-saving

Ultra strong arm more  
sturdy and flexible

Heavy duty steel  
construction  
ensures safety

Figure 4: Close-up of the mount showing single stud installation design and heavy-duty steel construction.

### 3. Installing Wall Plate

Locate a suitable wood stud or solid concrete/brick area on your wall. Use a stud finder if necessary. Mark the drilling points and pre-drill holes as per the instruction manual. Secure the wall plate firmly using the provided lag bolts.

### 4. Mounting the TV

Carefully lift the TV with the attached brackets and hook it onto the wall plate. Ensure it is securely seated before releasing. The design allows for easy attachment and detachment.

### OPERATING THE TV MOUNT

The Pipishell Full Motion TV Wall Mount offers various adjustments to achieve optimal viewing angles from anywhere in the room.

## Adjusting Tilt, Swivel, and Extension

- **Tilt:** The TV can be tilted 50 upward and 150 downward. This feature is useful for reducing glare from lights or windows and achieving a comfortable viewing angle.
- **Swivel:** Swivel the TV up to 900 left or right. The maximum swivel angle may vary depending on the size of your television. This allows you to direct the screen towards different seating areas.
- **Extension/Retraction:** Pull the TV out from the wall up to 17 inches for closer viewing or to access cables. Push it back to a compact 2.2 inches when not in use to save space.

Figure 5: Visual representation of the mount's tilt, swivel, and extension capabilities.

Always adjust the TV gently and ensure all connections are secure after repositioning.

## MAINTENANCE

To ensure the longevity and safe operation of your Pipishell TV wall mount, follow these simple maintenance

guidelines:

- **Regular Inspection:** Periodically check all screws and bolts to ensure they are tight and secure. Loose connections can compromise stability.
- **Cleaning:** Wipe the mount with a soft, dry cloth to remove dust. Avoid using abrasive cleaners or solvents that could damage the finish.
- **Lubrication:** If the articulating arms become stiff over time, a small amount of silicone-based lubricant can be applied to the pivot points.
- **Weight Limits:** Never exceed the maximum weight capacity of 66 lbs. or the recommended TV size of 55 inches.

## TROUBLESHOOTING

If you encounter any issues with your TV wall mount, refer to the following common troubleshooting tips:

- **TV Not Level:** Check the level of the wall plate and the TV mounting brackets. Minor adjustments can often be made by slightly loosening and re-tightening the screws.
- **Difficulty Moving Arms:** Ensure all pivot point bolts are not overtightened. If they are too tight, slightly loosen them to allow for smoother movement.
- **Input Blocking:** If the mount blocks TV inputs, ensure you have used the correct VESA pattern and any necessary extender brackets. Contact customer service if the issue persists.
- **Mount Feels Unstable:** Immediately remove the TV. Re-check all wall mounting screws and bolts for tightness. Ensure the mount is properly secured to a wood stud or solid concrete/brick wall, not just drywall.

## PRODUCT SPECIFICATIONS

Feature	Detail
Brand	Pipishell
Model Number	PIMF2
Item Weight	4.44 pounds
Product Dimensions	10.75 x 8.82 x 2.09 inches
Mounting Type	Articulating/Full motion/Swivel/Tilt
Movement Type	Swivel
Material	Alloy Steel
Maximum Compatible TV Size	55 Inches
Minimum Compatible TV Size	26 Inches

Maximum Weight Capacity	66 lbs
VESA Compatibility	75x75mm to 400x400mm
Maximum Tilt Angle	15 Degrees (downward)
Extension from Wall	2.2 inches (retracted) to 17 inches (extended)
