- **Placement:** Position the cat tree in a quiet corner or near a window, as cats often enjoy observing their environment. The triangle design makes it ideal for corner placement.
- **Introduction:** Gently introduce your cat to the tree. You can use catnip, treats, or their favorite toys to entice them to explore the different levels, condo, and scratching posts.
- **Scratching:** The sisal-wrapped posts are designed for scratching. If your cat is not using them, gently guide their paws to the posts or sprinkle catnip on them.
- **Play:** The hanging toys provide an interactive element. Encourage play to help your cat become comfortable and active on the tree.

6. MAINTENANCE AND CARE

Proper maintenance will extend the life of your cat tree:

- **Cleaning:** The faux fur surface can be cleaned with a damp cloth for minor spills or spots. For general cleaning, use a vacuum cleaner to remove dust and loose fur. Avoid harsh chemicals or abrasive cleaners.
- **Hand Wash Only:** As per care instructions, avoid machine washing any components.
- **Inspection:** Periodically check all connections and posts for stability. Tighten any loose screws to maintain structural integrity.
- **Scratching Post Wear:** Over time, the scratching posts may show wear. While durable, if they become excessively frayed, consider replacing the cat tree or specific components if available.

7. TROUBLESHOOTING

- **Wobbling:** If the cat tree wobbles, ensure it is placed on a level surface. Re-tighten all assembly

screws, starting from the base upwards.

- **Cat Not Using Tree:** Try placing catnip on the scratching posts or inside the condo. Place favorite toys on different levels. Ensure the tree is in a location your cat feels safe and comfortable.
- **Loose Parts:** If any parts become loose, immediately re-tighten them. If a part is damaged, discontinue use until it can be repaired or replaced.
