JEKCA ST19ML37

JEKCA Llama 01S Building Blocks Instruction Manual

Model: ST19ML37

Introduction

This manual provides detailed instructions for assembling your JEKCA Llama 01S Animal Plastic Building Blocks. Follow these steps carefully to construct your model and ensure its stability. This kit is designed for individuals aged 14 years and above.

Safety Information

WARNING: Small parts inside. Not suitable for children under 14 years due to choking hazard. Adult supervision is recommended for younger builders, though the product is designed for ages 14 and up.

What's in the Box

Before you begin, please verify that all components are present:

- Instruction Manual
- Building Bricks (over 1030 pieces)
- Connecting Pins
- Pin Driver Tool
- Quick Guide

Setup and Assembly

The JEKCA building system utilizes a unique interlocking brick-through mechanism for enhanced stability. Follow the steps below to assemble your Llama 01S model.

Step 1: Understand the Interlocking System

The JEKCA system uses pins to secure bricks together, creating a sturdy structure. The included pin driver tool is essential for this process.

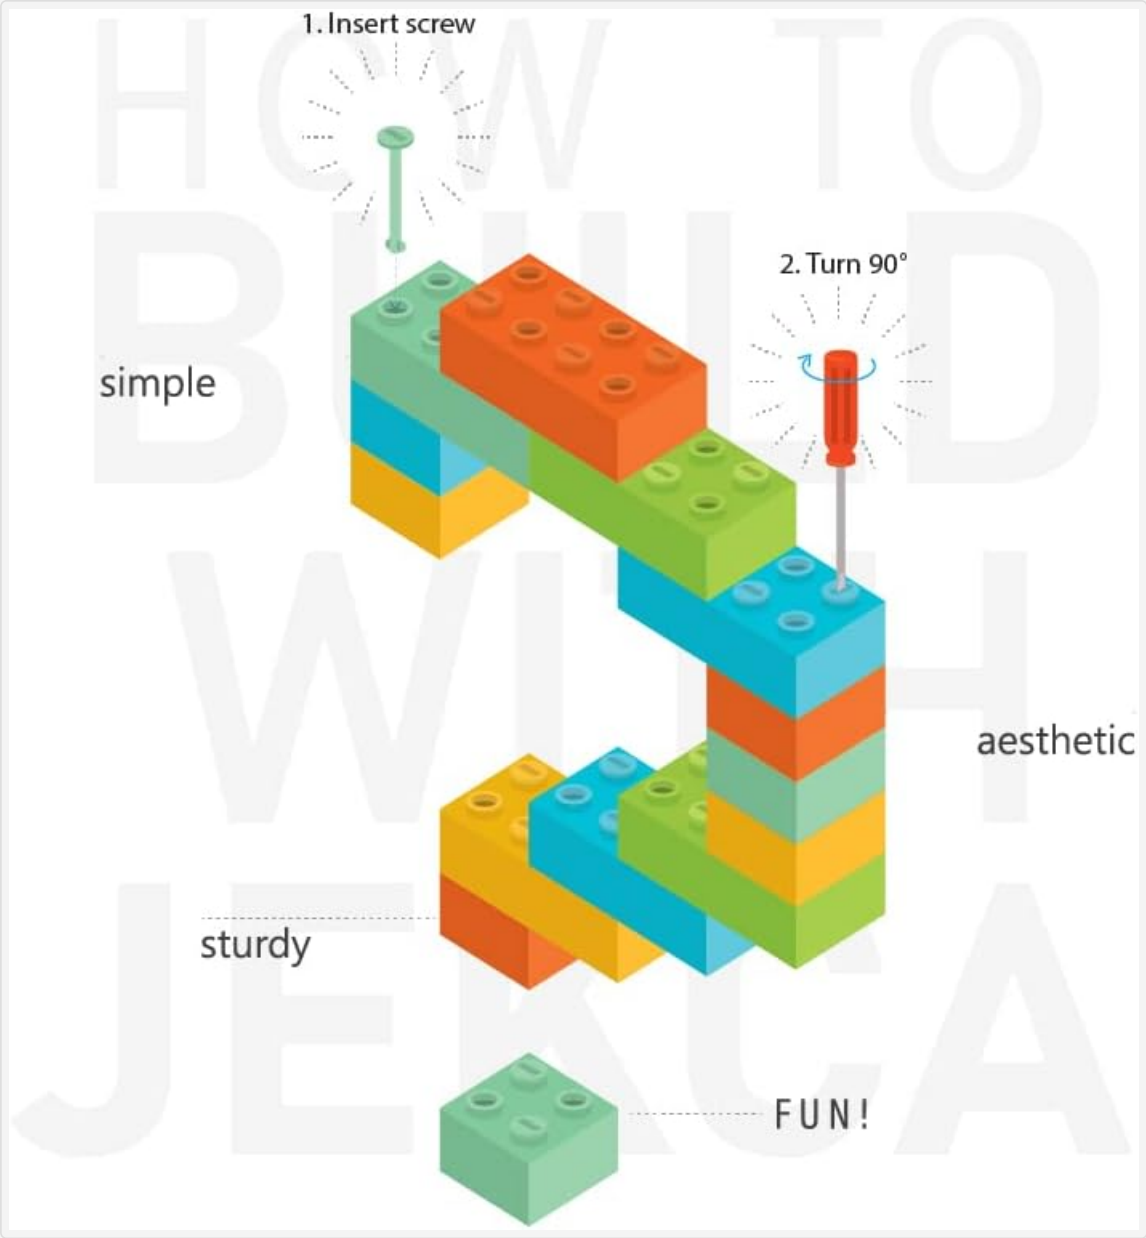

Image Description: A diagram illustrating the two primary steps of the JEKCA building system. Step 1 shows a pin being inserted into a brick. Step 2 shows the pin driver tool being used to turn the pin 90 degrees, locking the bricks together. This process ensures a secure and stable connection between building blocks.

Image Description: A circular diagram detailing the three-step assembly process for JEKCA bricks. Step 1 shows two bricks being connected. Step 2 shows pins being inserted into the connected bricks. Step 3 shows the pins being turned 90 degrees with a tool to secure the connection, highlighting the interlocking mechanism.

Step 2: Follow the Included Manual

Refer to the dedicated instruction manual provided in your kit for the specific sequence of brick placement and pin insertion to build the Llama 01S model. Each step is illustrated to guide you through the construction process.

Step 3: Building Tips

- Organize your bricks by color and size to streamline the building process.
- Ensure each pin is fully inserted and turned 90 degrees for maximum stability.
- Work on a flat, stable surface.
- Take breaks if needed to maintain focus and prevent eye strain.

Image Description: A side view of the fully assembled JEKCA Llama 01S model, constructed from numerous small plastic building blocks in shades of tan, white, and black. The llama stands upright, showcasing the intricate detail and sturdy construction achieved with the JEKCA system.

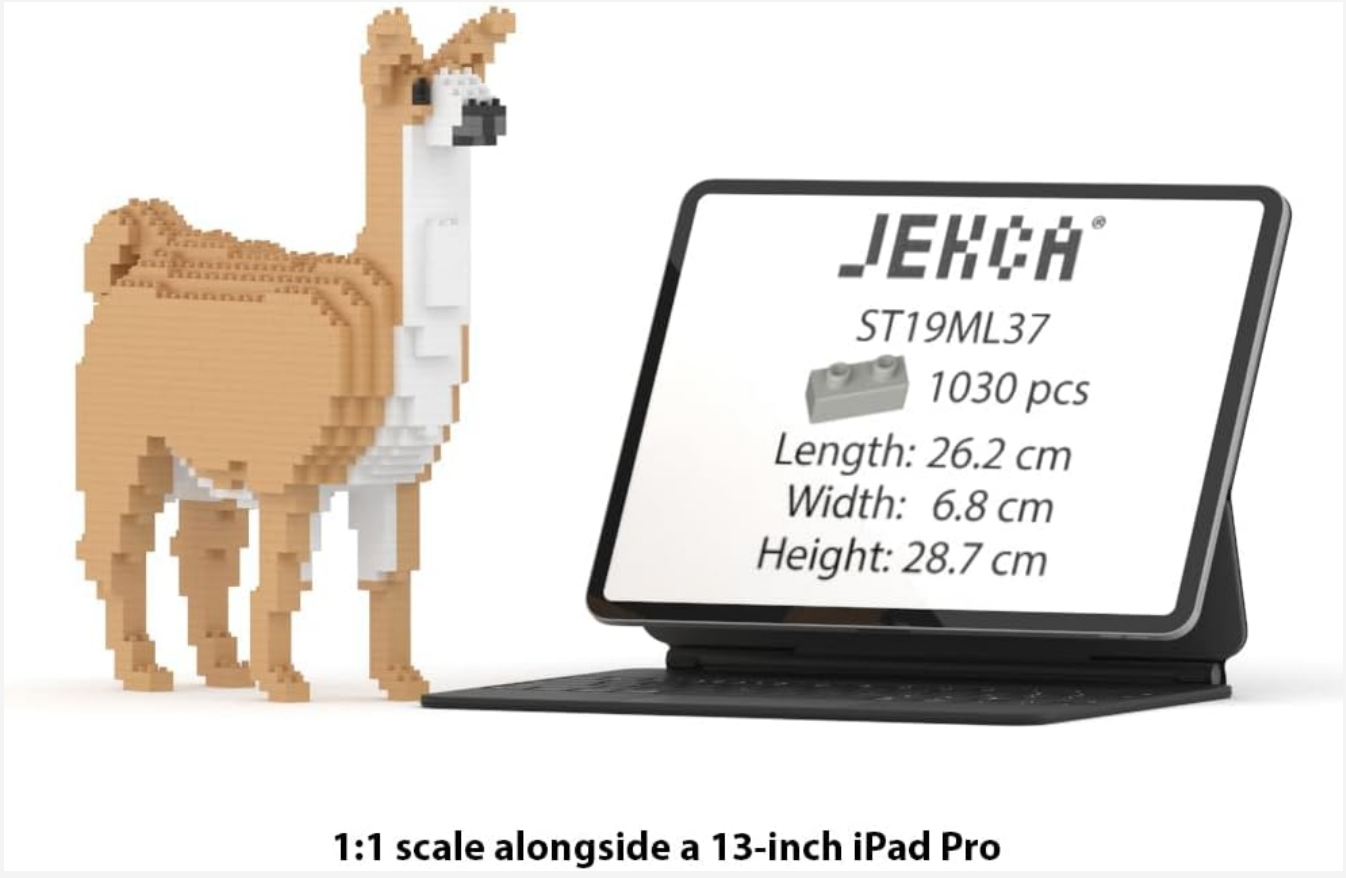

Image Description: The completed JEKCA Llama 01S model positioned next to a tablet. The tablet screen displays key product specifications including the model number (ST19ML37), piece count (1030 pcs), and dimensions (Length: 26.2 cm, Width: 6.8 cm, Height: 28.7 cm), illustrating the model's actual size.

Operating

Once assembled, your JEKCA Llama 01S model is a static display piece. It is designed for exhibition and appreciation of its intricate construction. While sturdy, it is not intended for rough play or repeated disassembly and reassembly, as this may wear down the interlocking pins.

Maintenance

- **Cleaning:** To clean your model, gently wipe it with a dry, soft cloth. For stubborn dust, a slightly damp cloth can be used, followed by immediate drying. Avoid harsh chemicals or abrasive cleaners.
- **Storage:** Store the model in a stable location away from direct sunlight and extreme temperatures to prevent material degradation or discoloration.
- **Handling:** Handle the model by its base or sturdy sections to avoid putting stress on delicate parts.

Troubleshooting

- **Loose Connections:** If a section feels loose, ensure all pins in that area are fully inserted and turned 90 degrees using the pin driver tool.
- **Missing Pieces:** Carefully check all packaging materials. If a piece is genuinely missing, contact JEKCA customer support with your model number and details of the missing part.
- **Difficulty Inserting Pins:** Ensure the bricks are correctly aligned before attempting to insert pins. Do not force pins; if resistance is met, re-check alignment.

Specifications

Feature	Detail
Product Model	ST19ML37
Brand	JEKCA
Number of Pieces	>1030 pieces
Recommended Age	14 years and up
Product Dimensions	10.31 x 2.68 x 11.3 inches (26.2 x 6.8 x 28.7 cm)
Item Weight	5.3 ounces
Material	Plastic

Warranty and Support

JEKCA products are designed for durability and precision. While specific warranty details are not provided in this manual, for any support inquiries, missing parts, or questions regarding your JEKCA Llama 01S model, please contact JEKCA customer service through their official website or the retailer where the product was purchased.
