SETUP AND LENS INSTALLATION

1. **Professional Lens Fitting:** These frames are supplied with demo lenses. For proper vision correction, take your frames to a certified optician. They will accurately measure and install your prescription lenses.
2. **Initial Adjustment:** After lens installation, your optician can perform an initial adjustment to ensure the frames fit comfortably and securely on your face.
3. **Retain Original Packaging:** Keep the original Chloe case and cleaning cloth for proper storage and maintenance.

OPERATING (WEARING) INSTRUCTIONS

- **Proper Handling:** Always use both hands to put on and take off your eyeglasses. This helps prevent bending the frame or loosening the hinges.
- **Storage:** When not in use, store your eyeglasses in their protective case to prevent scratches and damage. Avoid placing them lens-down on any surface.
- **Avoid Extreme Temperatures:** Do not expose your frames to extreme heat (e.g., leaving them on a car dashboard in direct sunlight) or extreme cold, as this can damage the frame material and lens coatings.

MAINTENANCE AND CARE

- **Cleaning Lenses:**
 - Rinse lenses under lukewarm water to remove dust and debris.
 - Apply a small drop of mild dish soap to each lens and gently rub with your fingertips.
 - Rinse thoroughly to remove all soap.
 - Dry with a clean, soft microfiber cloth (preferably the one provided with your frames).
 - Avoid using paper towels, clothing, or harsh chemicals, as these can scratch lenses or damage coatings.
- **Cleaning Frames:** Wipe the frame gently with a damp, soft cloth. For deeper cleaning, use a mild soap solution and rinse thoroughly.
- **Regular Adjustments:** Over time, frames may become loose or misaligned. Visit your optician for professional adjustments to maintain a comfortable fit.
- **Screw Tightening:** Small screws may loosen over time. If you have a small optical screwdriver, you can gently tighten them. Do not overtighten. If unsure, consult your optician.
