Usage Instructions

To achieve the best and most lasting scent, follow these application guidelines:

1. Ensure your skin is moisturized before application. This helps the fragrance adhere better and last longer.
2. Spray lightly on pulse points. These areas generate heat, which helps to diffuse the fragrance throughout the day. Common pulse points include:
   - Wrists
   - Nape of your neck
   - Behind the ears
   - Behind the knees
3. Avoid rubbing the fragrance into your skin after application, as this can break down the scent molecules and alter the

fragrance.

Storage and Maintenance

Proper storage is essential to preserve the quality and longevity of your Egeo Choc Eau de Toilette:

- **Store in a Cool, Dark Place:** Keep the bottle away from direct sunlight and extreme temperatures (both hot and cold). Heat and light can degrade the fragrance over time.
- **Keep Upright:** Always store the bottle in an upright position to prevent leakage and maintain the integrity of the sprayer mechanism.
- **Secure Cap:** Ensure the cap is tightly closed after each use to prevent evaporation and exposure to air, which can diminish the scent.

Troubleshooting

While Egeo Choc is designed for lasting wear, here are some common observations and tips:

- **Scent Longevity:** If the scent seems to fade quickly, ensure skin is well-moisturized before application. Applying to pulse points can also enhance diffusion. Individual skin chemistry can affect how long a fragrance lasts.
- **Scent Perception:** Fragrance notes can evolve over time on the skin. Allow the perfume to settle for a few minutes after application to experience its full profile.
- **Storage Issues:** Improper storage (e.g., in direct sunlight or fluctuating temperatures) can alter the fragrance. Refer to the "Storage and Maintenance" section for best practices.
