Sunbrella 40430-0000

Sunbrella Cast Oasis 40430-0000 Indoor/Outdoor Upholstery Fabric Instruction Manual

Model: 40430-0000 | Brand: Sunbrella

INTRODUCTION

This manual provides essential information for the proper handling, application, and maintenance of your Sunbrella Cast Oasis 40430-0000 Indoor/Outdoor Upholstery Fabric. Designed for versatility, this fabric is suitable for a range of indoor and outdoor applications, offering durability and resistance to environmental factors.

PRODUCT OVERVIEW

The Sunbrella Cast Oasis fabric is engineered for performance and longevity. Key characteristics include:

- **Material:** 100% Solution Dyed Acrylic, ensuring colorfastness.
- **Fade Resistance:** Specifically designed to resist fading when exposed to direct sunlight.
- **Width:** 54 inches wide.
- **Versatile Uses:** Ideal for indoor and outdoor furniture upholstery, curtains, and umbrellas.

Image Description: A detailed view of the Sunbrella Cast Oasis 40430-0000 fabric. The image displays a tightly woven texture in a solid, light green-grey hue, characteristic of durable upholstery material. This visual represents the typical appearance and weave of the fabric.

SETUP AND PREPARATION

Before beginning your project, ensure proper preparation of the fabric.

- 1. Inspection:** Unroll the fabric and inspect it for any manufacturing defects or inconsistencies.
- 2. Measurement:** Carefully measure and mark the fabric according to your project requirements. Remember that 1 yard is 54 inches x 36 inches.
- 3. Cutting:** Use sharp fabric shears or a rotary cutter for clean, precise cuts. For large projects, ensure you have adequate space to lay out the fabric flat.
- 4. Pre-washing:** Sunbrella fabrics generally do not require pre-washing as they are dimensionally stable. However, if your project involves other materials that may shrink, consider testing a small swatch.

OPERATING AND APPLICATION

This fabric is designed for various applications. Follow standard upholstery and sewing practices for best results.

- Upholstery:** When upholstering furniture, ensure the fabric is pulled taut and secured evenly to prevent sagging. Use appropriate upholstery tools and fasteners.
- Curtains:** For curtains, consider the weight and drape of the fabric. Hemming and seam allowances should be consistent.
- Umbrellas:** When used for umbrellas, ensure seams are reinforced and stitching is durable to withstand outdoor elements.
- Sewing:** Use a strong, UV-resistant thread for outdoor applications. A universal needle size 14 or 16

is typically suitable for this type of fabric.

MAINTENANCE AND CARE

Sunbrella fabrics are known for their ease of care and durability. Regular cleaning will help maintain their appearance.

General Cleaning:

- Brush off loose dirt.
- Spray on a cleaning solution of mild soap (e.g., dish soap) and water.
- Use a soft bristle brush to clean.
- Allow cleaning solution to soak into the fabric.
- Rinse thoroughly until all soap residue is removed.
- Air dry.

Deep Cleaning for Stubborn Stains:

For more persistent stains, a bleach solution can be used on Sunbrella fabrics without affecting the color.

- Prepare a solution of 1 cup of bleach and 1/4 cup of mild soap per gallon of water.
- Apply the solution directly to the stain.
- Allow to soak for up to 15 minutes.
- Blot the stain with a clean towel or sponge.
- Rinse thoroughly to remove all bleach and soap residue.
- Air dry.

Note: Always test cleaning solutions on an inconspicuous area first.

TROUBLESHOOTING

Issue	Possible Cause	Solution
Color Mismatch with Online Image	Monitor calibration differences, lighting conditions.	Color representation can vary across different screens. For precise color matching, it is recommended to request a swatch if available.
Fabric received in multiple pieces	Large orders (e.g., 30 yards or more) may be shipped in multiple continuous pieces due to roll size limitations.	This is standard practice for bulk fabric orders. Plan your cuts accordingly to accommodate seams if necessary.
Stains not coming out	Improper cleaning method, prolonged stain exposure.	Refer to the "Maintenance and Care" section for deep cleaning instructions, including the use of bleach for stubborn stains on Sunbrella fabrics.

SPECIFICATIONS

- **Model Number:** 40430-0000
- **Brand:** Sunbrella
- **Material:** 100% Solution Dyed Acrylic
- **Fabric Type:** Acrylic
- **Pattern:** Solid
- **Item Form:** Cut By The Yard
- **Width:** 54 inches
- **Manufacturer:** Glen Raven Mills, Inc.
- **ASIN:** B07WSHLBY8

IMPORTANT NOTES

Color Accuracy: Please be aware that the color of the fabric as displayed on your screen may not perfectly match the actual product color. Differences in monitor calibration and lighting conditions can affect color perception. We cannot be responsible for color differences of the images on different monitors.

Fabric Quantity: Orders for more than 1 yard will be provided as one continuous piece. However, orders of 30 yards or more may be sent in multiple pieces depending on the size of the rolls in stock.

Swatch Availability: Swatches may be available upon request for color and texture verification.
