PRODUCT OVERVIEW

The SKMEI 1389 features a durable stainless steel strap and case, offering both style and resilience. It includes multiple functions accessible via its analog and digital displays.

Key Features:

- **Dual Display:** Analog and Digital timekeeping.
- **Water Resistance:** 30M (suitable for splashes, rain, hand washing; not for swimming or diving).
- **Multi-Time Zone:** Track multiple times simultaneously.
- **Chronograph:** Stopwatch function for timing events.
- **Alarm:** Daily alarm function.
- **LED Backlight:** For visibility in low-light conditions.
- **Durable Construction:** Stainless steel strap and case.

SETUP INSTRUCTIONS

1. Setting Analog Time:

1. Pull out the crown (E) on the right side of the watch.
2. Rotate the crown to adjust the analog hands to the desired time.
3. Push the crown back in to start the analog timekeeping.

2. Setting Digital Time and Date:

1. Press the Mode button (B) repeatedly until the digital time display starts flashing, indicating it's in setting mode.
2. Use the Reset/Adjust button (D) to select the item you wish to adjust (e.g., seconds, hour, minute, month, date, day of week).
3. Use the Start/Stop button (C) to increase the selected value.
4. Once all settings are correct, press the Mode button (B) to exit the setting mode.

3. Strap Adjustment:

The stainless steel strap can be adjusted to fit your wrist. This typically involves removing or adding links. For precise and safe adjustment, it is recommended to visit a professional jeweler or watch repair shop.

OPERATING INSTRUCTIONS

1. Mode Switching:

Press the Mode button (B) to cycle through the different functions: Time Mode, Chronograph (Stopwatch) Mode, Alarm Mode, and Dual Time Mode.

2. Using the Chronograph (Stopwatch):

1. Enter Chronograph Mode by pressing the Mode button (B).
2. Press the Start/Stop button (C) to start the stopwatch.
3. Press the Start/Stop button (C) again to pause the stopwatch.
4. Press the Reset/Adjust button (D) to reset the stopwatch to zero.

3. Setting the Alarm:

1. Enter Alarm Mode by pressing the Mode button (B).
2. Press the Reset/Adjust button (D) to select the hour or minute to set.
3. Use the Start/Stop button (C) to adjust the selected value.
4. Press the Mode button (B) to confirm and exit alarm setting.
5. To turn the alarm on/off, press the Start/Stop button (C) while in Alarm Mode.

4. Activating the LED Backlight:

Press the Light button (A) to illuminate the digital display for a few seconds, providing visibility in dark environments.

The watch display with the LED backlight activated for enhanced visibility.

5. Dual Time Function:

The watch allows you to set and display a second time zone. Enter Dual Time Mode by pressing the Mode button (B) until 'ALM' or 'T2' appears. Use the Reset/Adjust button (D) and Start/Stop button (C) to set the second time zone.

MAINTENANCE

1. Water Resistance:

Your SKMEI 1389 watch is rated 30M water resistant. This means it is protected against splashes, rain, and brief immersion in water, such as during hand washing. It is **not** suitable for swimming, diving, or showering with hot water, as steam and direct water pressure can compromise the seals.

2. Cleaning:

Wipe the watch case and strap regularly with a soft, dry cloth to remove dirt and sweat. For the stainless steel strap, a slightly damp cloth can be used, followed by immediate drying. Avoid using chemical cleaners or abrasive materials.

3. Battery Replacement:

The watch is powered by a Lithium Ion battery (CR2016/SR626SW). When the display dims or the watch stops functioning, the battery may need replacement. It is recommended to have the battery replaced by a qualified watch technician to ensure proper sealing and water resistance.

TROUBLESHOOTING

- **Watch not keeping time:** Check if the crown (E) is fully pushed in. If the digital display is dim or blank, the battery may need replacement.

- **Digital display not responding:** Try pressing all buttons to ensure none are stuck. If unresponsive, a battery replacement might be necessary.

- **Water inside the watch:** If moisture appears inside the watch, stop using it immediately and take it to a professional for inspection and repair to prevent further damage.
