BRIO Double-Column Water Bottle Stand (10-Bottle) User Manual

Model: STM10BTGRY

INTRODUCTION

This manual provides instructions for the assembly, operation, and maintenance of your BRIO Double-Column Water Bottle Stand. This stand is designed to efficiently store 3- and 5-gallon water bottles, helping to organize your space.

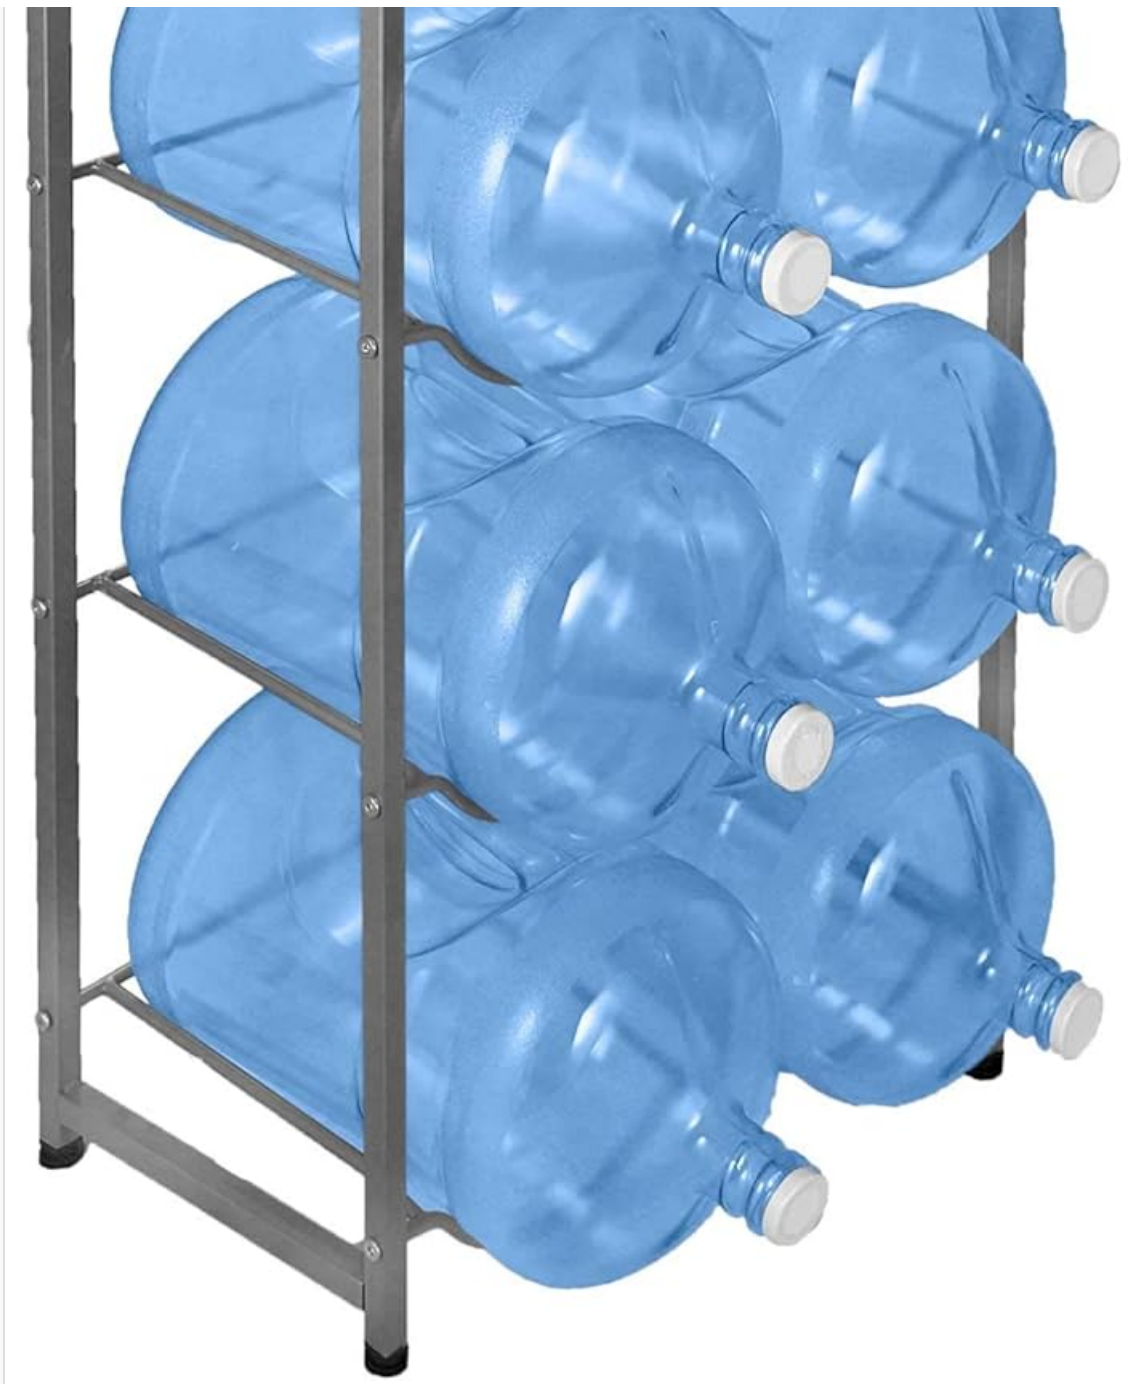

Figure 1: Fully assembled BRIO Double-Column Water Bottle Stand with 10 water bottles.

SETUP AND ASSEMBLY

The BRIO Double-Column Water Bottle Stand is designed for easy assembly with minimal tools. Please follow these general steps:

1. **Unpack Components:** Carefully remove all parts from the packaging. Verify that all components are present according to the included parts list (not provided in this manual, refer to product packaging).
2. **Assemble Frame:** Connect the vertical support beams to the horizontal crossbars. Ensure all connections are secure.
3. **Install Shelves/Racks:** Attach the bottle support racks to the assembled frame. These are designed to cradle 3- and 5-gallon bottles.
4. **Attach Adjustable Feet:** Screw in the adjustable rubber feet to the bottom of the stand's legs. These feet protect flooring and allow for leveling on uneven surfaces.

5. **Placement:** Position the assembled stand on a flat, stable surface. Adjust the rubber feet as needed to ensure the stand is level and stable before loading bottles.

Note: Specific assembly instructions and diagrams are typically included with the product packaging. Refer to those for detailed, step-by-step guidance.

OPERATING INSTRUCTIONS

Using your BRIO Water Bottle Stand is straightforward:

- **Loading Bottles:** Gently place 3- or 5-gallon water bottles onto the designated racks. Ensure bottles are securely seated and balanced.
- **Capacity:** This 10-bottle model is designed to hold up to ten 3- or 5-gallon water bottles. Distribute the weight evenly across the stand.
- **Safety:** Always load bottles from the bottom up to maintain stability. Avoid placing bottles in a manner that could cause the stand to become top-heavy or unstable.

MAINTENANCE

To ensure the longevity and appearance of your water bottle stand, follow these maintenance guidelines:

- **Cleaning:** The manufacturer recommends **Hand Wash** for product care. Use a soft cloth with mild soap and water to clean the metal frame. Avoid abrasive cleaners or scouring pads that could damage the finish.
- **Drying:** After cleaning, thoroughly dry all metal components to prevent rust or water spots.
- **Regular Inspection:** Periodically check all screws and connections to ensure they remain tight. Tighten any loose fasteners as needed.
- **Foot Pads:** Inspect the rubber feet for wear and tear. Replace if damaged to maintain floor protection and stability.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Stand is wobbly or unstable.	Uneven floor surface; loose connections; improper bottle placement.	Adjust the rubber feet to level the stand. Tighten all assembly screws. Ensure bottles are evenly distributed and properly seated.
Difficulty assembling.	Incorrect part orientation; missing tools.	Refer to the detailed assembly instructions provided with the product. Ensure parts are oriented correctly before tightening.
Bottles do not fit securely.	Incorrect bottle size; improper placement.	This stand is designed for standard 3- and 5-gallon water bottles. Ensure bottles are placed correctly on the curved supports.

SPECIFICATIONS

Brand: Brio

Model Number: STM10BTGRY
Color: 10-bottle (Grey)
Style: Modern
Finish Type: Vinyl
Bottle Capacity: 10 (3- or 5-gallon bottles)
Assembly Required: Yes
Product Care Instructions: Hand Wash
Item Weight: 19.31 pounds
