

Fimilo 1

Fimilo Starry Light Night Light Projector User Manual

Model: 1

INTRODUCTION

Thank you for choosing the Fimilo Starry Light Night Light Projector. This device is designed to transform any room into a captivating night sky experience with dynamic stars, a moon, and waving cloud patterns. Please read this manual carefully to ensure proper setup, operation, and maintenance of your projector.

PRODUCT FEATURES

- **Dynamic Sky Projection:** Projects twinkling stars, a static moon, and waving cloud patterns to create a relaxing atmosphere. Suitable for both children and adults.
- **Intuitive Touch Controls:** Features four touch-sensitive buttons for easy operation.
- **Automatic Power-Off:** Includes an automatic 4-hour shutdown feature to conserve power.
- **Multiple Color Modes:** Offers six color light options that cycle automatically. Users can select between single-tone or two-tone light combinations. Individual selection of blue, red, or green projection is also available.
- **Voice Control Function:** Allows projected stars and waving light to react and synchronize with music or sounds. When activated, the light will initially turn off and then flicker in response to rhythmic sounds like clapping or music.
- **USB Charging:** Conveniently powered via USB. The round design allows for adjustable projection angles.

PACKAGE CONTENTS

- Fimilo Starry Light Night Light Projector
- USB Charging Cable
- Remote Control

SETUP INSTRUCTIONS

1. **Initial Charging:** Before first use, connect the included USB cable to the projector and a 5V/2A power adapter (not included). Charge the device for 2-3 hours. A red light indicates charging.
2. **Placement:** Place the projector on a flat, stable surface. The round design allows you to adjust the projection angle by tilting the device. For best results, place it in a dark room.

OPERATING INSTRUCTIONS

Touch Controls

The projector features four touch-sensitive buttons on its surface. Gently press these buttons with your thumb to control various functions.

Image: The projector's top surface showing the four touch-sensitive buttons for controlling stars, waving light, moon projection, and LED color channels.

- **Power On/Off:** Press the power button to turn the projector on or off.
- **Star Projection:** Touch the 'Star' button to activate or deactivate the twinkling star effect.
- **Moon Projection:** Touch the 'Moon' button to activate or deactivate the static moon projection.
- **Waving Light/Cloud Effect:** Touch the 'Waving' button to activate or deactivate the dynamic cloud

patterns.

- **LED Channel Controls:** Use the 'LED Channel' button to cycle through different color modes (single-tone, two-tone, auto-play) or select specific colors (blue, red, green).

Voice Control Mode

Activate the voice control function to make the light projections react to sound. When this mode is on, the light will initially turn off and then flicker in sync with rhythmic sounds such as music or clapping. Ensure the sound source is not too far from the projector for optimal response.

MODES AND FUNCTIONS

Color Changing Options

The projector offers a variety of color options for the waving light effect:

Image: A visual representation of the projector's different color outputs, including red, pink, cyan, blue, green, and a multi-color blend, with a person observing the projection.

- **Auto-Play Mode:** Cycles through six different colors automatically.
- **Single-Tone Colors:** Select individual colors such as blue, red, or green.
- **Two-Tone Combinations:** The projector can display combinations of two colors simultaneously.

Adjustable Projection Angle

The projector's round shape allows for easy adjustment of the projection angle. Simply tilt the device to direct the light show onto your desired surface, such as a ceiling or wall.

Quality Lighting Makes High Life Quality

- Night Light Projector lighting
- Fashionable
- High Quality Touch Sensor Design
- Lighting Version Friendly

- Connect the included USB cable to the projector's USB charging port.
- Connect the other end of the USB cable to a 5V/2A power adapter (not included) or a compatible USB power source.
- The red indicator light will illuminate to show that the device is charging.
- A full charge typically takes approximately 2 hours.
- For optimal battery life, ensure the device is fully charged before its first use and after periods of long-term storage.

TROUBLESHOOTING

Problem	Possible Solution
Projector does not turn on.	Ensure the device is fully charged. Connect to a 5V/2A power adapter and charge for 2-3 hours. Verify the USB cable connection.
Short battery life.	Ensure the device is fully charged before each use. Battery performance may vary with usage patterns.

Problem	Possible Solution
Voice control not responding.	Ensure voice control mode is activated. Place the projector closer to the sound source. Ensure the sound is rhythmic and loud enough for detection.
Projection is dim or unclear.	Ensure the room is sufficiently dark. Adjust the projector's position and angle to optimize clarity.

SPECIFICATIONS
