

Smatree GA700

Smatree Waterproof Hard Compact Camera Case Instruction Manual

1. PRODUCT OVERVIEW

The Smatree Waterproof Hard Compact Camera Case (Model GA700) is engineered to provide robust protection and organized storage for your action camera and its essential accessories. Constructed from durable ABS material, this case offers water resistance, shock absorption, and anti-scratch properties, making it suitable for various environments and activities. Its custom-cut foam interior ensures that your equipment remains secure and protected during transport.

2. KEY FEATURES

- **Durable Construction:** Made from Acrylonitrile Butadiene Styrene (ABS) material, providing a hard shell exterior for enhanced protection.
- **Water Resistance:** Features a secure latching system and an O-ring seal to protect contents from water exposure.
- **Shock and Impact Protection:** The hard shell and internal sponge foam with pre-cut slots safeguard your camera and accessories from bumps and drops.
- **Customizable Foam Interior:** Pre-cut foam inserts allow for tailored organization of your camera, batteries, charger, and other small accessories.
- **Compact and Portable:** Designed for easy transport, featuring a top handle and a wrist strap.

3. SETUP AND USAGE

3.1 Opening and Closing the Case

1. To open, release the two toggle latches located on the front of the case by pulling them outwards and upwards.
2. Lift the lid to access the interior.
3. To close, align the lid with the base and press down firmly. Secure the two toggle latches by pushing them inwards until they click into place. Ensure both latches are fully engaged for a secure, water-resistant seal.

3.2 Organizing Your Equipment

The case features a pre-cut foam interior designed to fit various GoPro Hero models (13/12/11/10/9/8/7/6/5/2018), AKASO Brave 7 LE, DJI Osmo Action cameras, and their accessories. The foam is designed with removable sections, allowing you to customize the layout to perfectly fit your specific gear configuration.

- Carefully place your action camera into the designated main compartment.
- Utilize the smaller pre-cut slots for up to four GoPro Hero batteries, a dual battery charger, SD cards, and other small accessories like cables or thumb screws.
- If your accessories require a different layout, gently remove the perforated foam sections to create custom compartments.

4. MAINTENANCE

- **Cleaning:** Wipe the exterior of the case with a damp cloth. For the interior foam, use a soft, dry brush or a vacuum cleaner with a brush attachment to remove dust and debris. Avoid harsh chemicals or abrasive cleaners.
- **Seal Inspection:** Periodically inspect the rubber O-ring seal around the rim of the case for any signs of wear, cracks, or damage. A damaged seal can compromise the water resistance of the case. Replace if necessary.
- **Storage:** Store the case in a cool, dry place away from direct sunlight when not in use.

5. SPECIFICATIONS

Feature	Detail
Model	GA700
